Provisional Measures in International Law Shabtai Rosenne, 2005 Provisional measures of protection the international equivalent of an interim injunction are assuming growing importance in international law These measures are designed to protect the rights of the parties pending the final decision in a dispute Since the establishment of the Permanent Court of International Justice in 1921 through its replacement by the International Court of Justice ICJ in 1945 the Court's power to indicate provisional measures has been controversial because it has been unclear whether such orders are binding In 2001 the ICJ set that controversy at rest by deciding that it imposes binding obligations on the parties and that non compliance could give rise to an instance of state responsibility and a cause of action This rule has also been incorporated into the UN Convention on the Law of the Sea one of the most important law making conventions adopted in the last 50 years These changes make a comprehensive re examination of the law and practice of the ICJ and the International Tribunal for the Law of the Sea ITLOS necessary both from an academic perspective and as a matter of practice and procedure Rosenne concludes that its work with provisional measures of protection may be the most significant of the ICJ's activities for the settlement of international disputes and the maintenance of international peace and security the prime objective of the United Nations of which the ICJ is a principal organ

International Law on Peacekeeping Hitoshi Nasu, 2009 It is generally considered that the UN Security Council has been galvanised since the end of the Cold War However the existence and development of armed conflicts remain the reality in the international scene Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of the Security Council's authority or mere evidence of its failure to prevent the aggravation of armed conflicts To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict This book explores the potential of the UN

peacekeeping power placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for and the legal restraints upon the exercise of the peacekeeping power It examines the regulatory framework within which the United Nations particularly the Security Council is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self regulation Research Handbook on International Procedural Law Joanna Gomula,Stephan
