Pseudo Bede De Mundi Celestis Terrestrisque Constitutione A Treatise On The Universe And Soul:

Pseudo-Bede Saint Bede (the Venerable),1985 **Medieval Analyses in Language and Cognition** Sten Ebbesen,Russell L. Friedman,1999 **The Rise of Magic in Early Medieval Europe** Valerie Irene Jane Flint,2020-03-31

There are forces better recognized as belonging to human society than repressed or left to waste away or growl about upon its fringes So writes Valerie Flint in this powerful work on magic in early medieval Europe Flint shows how many of the more discerning leaders of the early medieval Church decided to promote non Christian practices originally condemned as magical rather than repressing them or leaving them to waste away or growl These wise leaders actively and enthusiastically incorporated specific kinds of magic into the dominant culture not only to appease the contemporary non Christian opposition but also to enhance Christianity itself *Pseudo-Bede, De Mundi Celestis Terrestrisque Constitutione* Charles S. F. Burnett,1985 Illustrates the wide range of theories available in the early Middle Ages to explain natural phenomena and speculations concerning the courses of the heavenly bodies and the origin of the soul before the advent of specialized scientific and philosophical works in the 12th century **The Passionate Intellect** Lewis Ayres,2023-06-09 Ian Kidd of the University of St Andrews Scotland has long been known as a world class scholar of ancient philosophy and of Posidonius in particular Through his long struggle with the fragments of Posidonius Kidd has done more than any other scholar of ancient philosophy to dispel the myth of Pan Posidonianism He has presented a clearer picture of the Posidonius to whom we may have access The Passionate Intellect is both a Festschrift offered to Professor Kidd and an important collection of essays on the transformation of classical traditions The bulk of this volume is built around the theme of Kidd s own inaugural lecture at St Andrews The Passionate Intellect Many of the contributions follow this theme through by examining how individual people and texts influenced the direction of various traditions The chapters cover the whole of the classical and late antique periods including the main genres of classical literature and history and the gradual emergence of Christian literature and themes in late antiquity Many of the papers naturally concentrate on ancient philosophy and its legacy Others deal with ancient literary theory history poetry and drama Most of the papers deal with their subjects at some length and are significant contributions in their own right The contributors to this collection include key figures in contemporary classical scholarship including C Carey London C J Classen Gottingen J Dillon Dublin K J Dover St Andrews W W Fortenbaugh Rutgers H M Hine St Andrews J Mansfeld Utrecht R Janko and R Sharples London and J S Richardson Edinburgh This book will be invaluable to philosophers classicists and cultural historians Dialogue Against the Jews Petrus Alfonsi,2006-10 Petrus Alfonsi s Dialogue Against the Jews ca 1109 breaks new ground in the history of Christian anti Jewish polemics As a recent convert from Judaism Alfonsi introduced an intimate knowledge of Jewish literature and contemporary practice absent from earlier Christian sources This knowledge enabled him to attack for the first time the Talmud or more broadly post biblical Jewish literature as a source of Jewish error with arguments drawn from philosophy and theology astronomy medicine and physics Equally important Alfonsi

s Dialogue contains an extensive anti Muslim polemic to explain not only why he abandoned Judaism but also why he rejected Islam and chose the Christian faith For these reasons the Dialogue has been described as the most important anti Jewish text of the Latin Middle Ages This assessment is based not only on its innovative argumentation but also on the fact that it was one of the most popular medieval anti Jewish polemics written Astronomies and Cultures in Early Medieval Europe Stephen C. McCluskey, 2000-11-20 This book provides an overview of the astronomical practices that continued through the so called Dark Ages Like the astronomies of traditional societies early medieval astronomies established a religious framework of sacred time and ritual calendar here Christian feasts tied to a pre Christian ritual solar calendar the date of Easter tied to the Hebrew lunar calendar and the timing of monastic prayers in terms of the course of the stars Coupled with the remnants of ancient geometrical astronomy these provided the framework for the rebirth of astronomy with the rise of the medieval universities **A History of Natural Philosophy** Edward Grant, 2007-01-22 Natural philosophy encompassed all natural phenomena of the physical world It sought to discover the physical causes of all natural effects and was little concerned with mathematics By contrast the exact mathematical sciences were narrowly confined to various computations that did not involve physical causes functioning totally independently of natural philosophy Although this began slowly to change in the late Middle Ages a much more thoroughgoing union of natural philosophy and mathematics occurred in the seventeenth century and thereby made the Scientific Revolution possible The title of Isaac Newton's great work The Mathematical Principles of Natural Philosophy perfectly reflects the new relationship Natural philosophy became the Great Mother of the Sciences which by the nineteenth century had nourished the manifold chemical physical and biological sciences to maturity thus enabling them to leave the Great Mother and emerge as the multiplicity of independent sciences we know today Philosophy and Theology in the Long Middle Ages Kent Emery, Russell Friedman, Andreas Speer, 2011-03-05 The title of this Festschrift to Stephen Brown points to the understanding of medieval philosophy and theology in the longue durée of their traditions and discourses The 35 contributions are disposed in five parts Metaphysics and Natural Philosophy Epistemology and Ethics Philosophy and Theology Theological Questions Text and Context Blessing the World Derek A. Rivard, 2009 Blessings were an integral and vital element of medieval Christian life and worship Benedictions for homes and workplaces the knight and the pilgrim the city under siege and the fetus in the womb are but a small sample of the multitudinous and fascinating extra sacramental blessings that fill the leaves of the liturgical books of the medieval Latin Church While commonly acknowledged as a crucial element in the life of medieval people the meaning and importance of these blessings for their authors and audiences have been frequently overlooked by liturgical and historical scholarship which has focused instead on the textual transmission and long term changes in the blessings and the rituals surrounding them This present work corrects this omission by examining these blessings with modern eyes and a new methodology In Blessing the World Derek A Rivard studies liturgical blessing and its role in the religious life of Christians during the central

and later Middle Ages with a particular focus on the blessings of the Franco Roman liturgical tradition from the tenth to late thirteenth centuries Through a careful and extensive study of more than ninety such blessings many of them translated for the first time and accessible to a readership beyond specialists in medieval liturgy the author argues that medieval blessings were composed as a direct response to the needs anxieties beliefs and fears of the laity and therefore these texts represent a rich and largely untapped source for the study of lay piety and of ritual in medieval Europe Effectively drawing upon anthropology ritual studies the phenomenology of religion and traditional textual study Rivard explores the rich themes of medieval piety that flow throughout the blessings in order to produce a new understanding of the blessing as an attempt to tap the power of the sacred for use in daily life Benedictions for spaces places persons items and events are each studied in turn to produce this new understanding of these blessings and in the process these petitions and rituals reveal much about larger issues of medieval people s cosmology their perceived role in their cosmos their conceptions of God and their connections to the divine and to the spiritual powers of God s creation

ABOUT THE AUTHOR Derek A Rivard is associate professor of history at Cottey College

PRAISE FOR THE BOOK Blessing the World analyzes the texts of dozens of these blessings in order to explore how medieval Christians conceived of God and their own place within sacred history This textual focus is the book s strength and the author provides English translations of blessings from the tenth to the sixteenth centuries including the original Latin in footnotes thereby making available to readers a rich source of these materials

Kathleen Kamerick *The Medieval Review* Rivard s study of medieval blessing rituals sheds helpful light on the ways that medieval churchmen and their flocks viewed their relationship to God to nature and to their society

James A Brundage *Church History* [The Legacy of Muslim Spain](#) Salma Khadra Jayyusi,Manuela Marín,1992 The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its age and has been essential to the direction which civilisation in medieval Europe took This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain **Medieval Latin** Frank Anthony Carl Mantello,A. G. Rigg,1996 Organized with the assistance of an international advisory committee of medievalists from several disciplines *Medieval Latin An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c A D 200 to 1500 It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies Comprehensive in scope the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language literature and scholarship Part One consists of an introduction and sizable listing of general print and electronic reference and research tools Part Two focuses on issues of language with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation orthography morphology and syntax word formation and lexicography metrics prose styles and so on There are chapters on the Latin used in administration law music commerce the liturgy theology and philosophy science and technology
