Tite, 2012-07-26 Challenging nearly two centuries of scholarship this book offers the first close analysis of the apocryphal epistle to the Laodiceans A near consensus in scholarship has emerged in which Laodiceans is dismissed as a random collection of phrases plucked from the undisputed Pauline letters which lacks any organizational structure or theological sophistication In *The Apocryphal Epistle to the Laodiceans* Philip Tite offers a detailed analysis of this Latin letter by exploring the epistolary conventions utilized by the letter writer What emerges is a pseudonymous text that is a carefully crafted paraenetic letter with a discernible rhetorical situation By highlighting

Laodiceans use of Paul as a literary culture hero Tite situates the letter within second century Christian identity formation

Does It Matter Who Wrote the Bible? David B. Capes, 2025-05-20 Students in seminary or graduate theology programs learn that some books in the Bible are anonymous Their professors will make the point that many Pauline letters have disputed authorship and may in fact not be written by Paul Students will also learn about the practice of pseudonymity in the world of the Bible and how some Gospels or letters are written under a false name Now for those who become pastors or church leaders what are they to do with what they learn Do they teach their congregants about these authorship questions Do they ignore that part of their training as irrelevant to the task Do they avoid teaching or reading publicly from disputed books Do these questions not matter in the end because the church settled on the canon This book aims to address these pastoral challenges An international group of scholars from universities seminaries and graduate theology programs convened to discuss these matters at the Lanier Theological Library in May 2022 These essays represent how many faculty are wrestling with the pastoral implications of anonymity and pseudonymity in the New Testament

The Pauline Corpus in Early Christianity Benjamin P. Laird, 2022-12-01 The Pauline Corpus in Early Christianity Its Formation Publication and Circulation offers a comprehensive and wide ranging examination of the canonical development of the collection of writings associated with the Apostle Paul The volume considers a number of clues from the New Testament writings ancient literary conventions related to the composition and collection of letters and a variety of early witnesses to the early state of the corpus such as biblical manuscripts canonical lists and the testimony of writers As a conclusion to these inquiries Laird argues that at least three major archetypal editions of the Pauline corpus those containing 10 13 and 14 letters appear to have been collected and edited as early as the first century These major archetypal editions Laird concludes circulated simultaneously for many years until editions containing 14 letters became nearly universally recognized by the fourth century The volume serves as a valuable resource of information for those engaged in the study of the early state of the New Testament canon and offers a fresh perspective on the process that led to the formation of the Pauline corpus

Scriptural Figures and the Fringes of the New Testament Canon Kelsie G. Rodenbiker, 2025 The formation of the Christian biblical canon remains a contested and mysterious subject complicated by the dating of ancient texts disagreement among ancient writers and questions of the authenticity or not of various scriptural works The Catholic Epistles James 1 and 2 Peter 1 2 3 John and Jude are a significant wrench in the gears of the process that formed the New Testament collection not least because of issues like authorship and references to other Jewish and Christian scriptures This book explores the use of characters in the Catholic letters originating from the Jewish and Christian scriptural pasts who serve as both exemplary models of behaviour and authorial mouthpieces Such figures and their textual afterlives maintain links to both now canonical works and noncanonical tradition

Letters That Paul Did Not Write Raymond F. Collins, 2006-02-10 Despite its title the subject of this book is really not the denial of the Pauline authorship of seven books in the New Testament The subject of this book is the significance of these books in themselves The second chapter briefly reviews the religious and cultural conditions within which these books were written thereby elucidating their origins somewhat The non Pauline origin of these seven books raises a host of issues for believers the churches and exegetes themselves The final chapter of this book addresses itself to some of these issues My real hope is that these reflections help the reader to better understand the sacred page To the extent that my hope is realized the true significance of Paul the apostle for the life of the church will be appreciated all the more from the Foreword
