Baruch Spinoza Although Jung scarcely mentions Spinoza in his work there is an unmistakable accord between the core ideas of both thinkers most notably regarding Spinoza's theory of God and the monism found in Jung's writings Exploring why Jung shows ambivalence toward Spinoza despite their affinity Robert H Langan argues that Spinoza offers Jung a radical solution to problems in his psychology What results is a new interpretation of Jung's metaphysics the evidence for which has gone unheeded in Jungian studies to date Ultimately for both Jung and Spinoza knowledge of the self leads to knowledge of the Divine and it is this championing of a transcendental immanence that makes Jung an unlikely yet consummate Spinozist Jung and Spinoza will be of interest to continental philosophers and depth psychologists who wish to bridge their respective fields as well as general audiences curious about the ideas of both thinkers

Santayana the Philosopher Daniel

Moreno, 2015-03-06 Regarding Santayana it has been claimed that he lacks a system while contradicting himself in outrageous ways An attentive analysis of his complete oeuvre however reveals something else entirely It is not easy to classify a thinker as a Platonic materialist an ironic nihilist a spiritual atheist and a conservative without political commitment but if one respects his own language one discerns an astonishing little known Santayana whose philosophical leitmotif consists in 1 detecting the numerous false steps logical and moral supplied by the imagination when it confuses things with the names that designate them or the world with the feelings that it provokes in the human animal these errors assume diverse faces pantheism moralism egotism subjectivism transcendentalism Platonism Puritanism and utopianism 2 avoiding these illusions in such a way as to keep the spiritual door open as a form of life to be lived out in an honest fashion 3 recognizing the natural origin of these temptations and asking oneself what moves humans to succumb imperceptibly to these mistakes at times tragic at others comical and what precautions one can take to remain cognizant of the deceitful leaps that can hijack one's life and 4 proposing as an alternative the radical distinction between essence and existence which leads him to distinguish four realms of being the realm of essence the realm of matter the realm of truth and the realm of spirit Essence as logical identity matter as contingent existence truth as frozen history and spirit as the flames that part from contingency and approximate the eternal An attempt has been made in this book to expand on and clarify these questions

The Darkening Spirit David Tacey, 2013-06-26

The twenty first century could well be Jung's century just as the twentieth century was Freud's Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as

eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader

The Invisible Alliance Ellyn Kaschak,2021-02-25 Explore the relationship between psychology and spirituality from a feminist perspective From the editor There are forces in the universe about which we know nothing and can learn nothing through empiricism and material means Such forces can be invoked in the process of therapy to assist in healing to deepen experience and to free us from the confining limits of the human mind This is a book about the spiritual within each of us and about spirituality as it extends beyond any of us to embrace all of us It deals with inspiration and passion sorrow and loss meaning and depth It focuses upon the relationship between matters of spirit and of psychology leading to new treatments within the parameters of psychotherapy that extend its vision far beyond the treatment of affliction *The Invisible Alliance* Psyche and Spirit in Feminist Therapy provides you with a comprehensive review of multiculturalism and its relationship with feminism and spirituality and explores ways to incorporate Jewish principles and beliefs into feminist therapy the application of religious sources of passion and perspective to parenting and working with children ways to combine Christian and Wiccan philosophies in therapy a provocative approach for integrating Christian biblical teachings into feminist therapy for survivors of sexual abuse ways that Buddhist ideas can enrich the understanding of the self and identity a case study of ancient healing traditions used by Latinas criteria for therapists to use in deciding whether to work with clients dealing with spiritual religious issues or refer them to someone more appropriate a way to use the power of ritual to heal and give more meaning to important life transitions

The Philosophy of George Santayana Dilip kumar Roy,2025-03-19 This book discusses the quintessential aspects of George Santayana s wide and comprehensive philosophy Its critical and comparative discussions centre round the problems of Epistemology Metaphysics Aesthetics Ethics and Religion This makes it all the more interesting What is noteworthy about this book is that it shows how naturalism serves as a basis of the idealistic philosophy of George Santayana Moreover the illustrious part of this treatise is that essence as discovered by Santayana by the doubting process serves as the keynote of his whole philosophy The exposition of Santayana s philosophy on the basis of the above two points is an outstanding feature of the present work What is captivating about this book is that it shows how the natural gets reconciled with the ideal by making the former the ground of the latter

An Introduction to the Collected Works of C. G. Jung Clifford Mayes,2016-03-24 An Introduction to the Collected Works of C G Jung Psyche as Spirit offers a concise and
