Psychiatric Drugs Explained David Healy, 2005 This book provides a comprehensive and clear guide to the uses benefits and impact of psychotropic drugs It conveys the lived experience of the problems that can be caused by side effects and the nature of the trade off that patients may need to make between the benefits brought about with the drugs and the problems they cause Psychiatric Drugs Explained ,2023 **Psychiatric Drugs** Jim Read, 2009-08-14 Over 60 million psychiatric drugs are prescribed in England every year This lively and provocative overview provides the most complete examination to date of the lived experience of taking psychiatric drugs The book examines the consequences of long term psychiatric drug use from the perspectives of people who have taken them and tried coming off them It draws out the

tensions between patients and professionals about medication and offers examples of how to resolve these constructively Based on extensive UK research this book includes exploration of Current practice in the use of psychiatric drugs The varied experiences of people who take them The debate over effectiveness What service users perceive as both good and bad practice by health professionals The different experiences of people from black and minority ethnic communities Timely and topical as well as clear and accessible this book is essential reading for students educators practitioners and service users in the fields of psychiatry mental health social work and counselling *Psychiatric Drugs Explained - Elsevier E-Book on VitalSource (Retail Access Card)* David Healy,2022-05-24 Psychiatric Drugs Explained offers a wealth of evidence based information on psychiatric drugs in an easy to use format that can be quickly referenced in the clinical setting Written by internationally recognised author Dr David Healy the book provides a comprehensive review of drug effects action and side effects There is an emphasis on the lived experience of patients providing the reader with a sense of what the adverse effects of drugs might feel like to those who use them A reader friendly approach and clear layout with information organised by disorder make this popular title accessible and useful not only to nursing staff but to all members of the multidisciplinary team Quick reference guide suitable for all members of the multidisciplinary team Helpful boxes on user issues make potential complications easy to spot Distinctive reader friendly style helps the reader understand the benefits and impacts of psychotropic drugs New topics include management of dependence disorders stimulants and drugs for children cognitive impairment and sleep disorders The only book with detailed coverage of the sexual side effects of psychiatric drugs and the abusive prescribing of prescription drugs **Doctoring the Mind** Richard P. Bentall,2009-08-12 Toward the end of the twentieth century the solution to mental illness seemed to be found It lay in biological solutions focusing on mental illness as a problem of the brain to be managed or improved through drugs We entered the Prozac Age and believed we had moved far beyond the time of frontal lobotomies to an age of good and successful mental healthcare Biological psychiatry had triumphed Except maybe it hadn't Starting with surprising evidence from the World Health Organization that suggests that people recover better from mental illness in a developing country than in the first world Doctoring the Mind asks the question how good are our mental healthcare services really Richard P Bentall picks apart the science that underlies our current psychiatric practice He puts the patient back at the heart of treatment for mental illness making the case that a good relationship between patients and their doctors is the most important indicator of whether someone will recover Arguing passionately for a future of mental health treatment that focuses as much on patients as individuals as on the brain itself this is a book set to redefine our understanding of the treatment of madness in the twenty first century **Desperate Housewives, Neuroses and the Domestic Environment, 1945-1970** Ali Haggett,2015-10-06 Although the figure of the desperate housewife is familiar to us Haggett suggests that many women in the 1950s and 60s led satisfying lives and that gender roles while very different were often seen as equal Critiquing the Psychiatric Model Eric Maisel,Chuck

Ruby,2023-11-25 Critiquing the Psychiatric Model is the first Volume of the Ethics International Press Critical Psychology and Critical Psychiatry Series Understanding the current systems of psychology and psychiatry is profoundly important So is exploring alternatives The Critical Psychology and Critical Psychiatry Series presents solicited chapters from international experts on a wide variety of underexplored subjects This is a series for mental health researchers teachers and practitioners for parents and interested lay readers and for anyone trying to make sense of anxiety depression and other emotional difficulties Critiquing the Psychiatric Model sets out to present a clear picture of the current mental disorder paradigm one that claims an ability to diagnose and treat mental disorders and that provides medication as its primary treatment Critiquing the Psychiatric Model traces the history of the psychiatric model and its diagnostic manual and identifies its flaws and problem areas by presenting more than twenty solicited chapters from experts worldwide Psychiatric and Mental Health Nursing Ruth Elder,Katie Evans,Debra Nizette,2013 The new edition of Psychiatric and Mental Health Nursing focuses on practice in mental health and psychiatric care integrating theory and the realities of practice Mental wellness is featured as a concept and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders The holistic approach helps the student and the beginning practitioner understand the complex causation of mental illness its diagnosis effective interventions and treatments and the client s experience of mental illness Psychiatric and Mental Health Nursing Phil Barker,2017-07-20 The concept of the craft of caring dictates that the basis of good nursing practice is a combination of both art and science encouraging nurses to take a holistic approach to the practice of psychiatric and mental health nursing Supported by relevant theory research policy and philosophy this volume reflects current developments in nursing practice and the understanding of mental health disorders The book includes case studies of patients with anxiety schizophrenia and bipolar disorder as well as victims of sexual abuse those with an eating disorder homeless patients and those with dementia and autism **European Psychiatric/Mental Health Nursing in the 21st Century** José Carlos Santos,John R. Cutcliffe,2018-02-01 This groundbreaking first volume of the Series has a number of features that set it apart from other books on this subject Firstly it focuses on interpersonal humanistic and ecological views and approaches to P MH nursing Secondly it highlights patient client centered approaches and mental health service user involvement Lastly it is a genuinely European P MH nursing textbook the first of its kind largely written by mental health scholars from Europe although it also includes contributions from North America and Australia New Zealand Focusing on clinical practical issues theory and empirical findings it adopts an evidence based or evidence informed approach Each contribution presents the state of the art of P MH nursing in Europe so that it can be transferred to and implemented by P MH nurses and the broader mental health care community around the globe As such it will be the first genuinely 21st century European Psychiatric Mental Health Nursing book Theories for Mental Health Nursing Theo Stickley,Nicola Wright,2013-11-19 An understanding of the theories that shape and define mental health policy and practice is essential for

every mental health nurse This book gives you the knowledge you need to understand those complex and varying theories concepts and approaches It helps you to deconstruct mental health and become a critical practitioner by drawing on a wealth of literature and research Topics covered include cognitive behavioural therapy recovery risk and critical theories Every Chapter includes Learning objectives and chapter summaries which highlight the key points A detailed case study which challenges you to relate theory to practice An explanation of the advantages and disadvantages of each approach It will be essential reading for all students of mental health nursing at pre registration and practitioner level It will also be valuable reading for those taking broader courses in mental health Theo Stickley is Associate Professor of Mental Health at the University of Nottingham Nicola Wright is Lecturer in Mental Health at the University of Nottingham

Advanced Practice Psychiatric Nursing, Second Edition Kathleen Tusaie, PhD, APRN-BC, Joyce J. Fitzpatrick, PhD, MBA, RN, FAAN, 2016-10-14 This text reinvigorates the emphasis on the therapeutic relationship that is the core of nursing practice It also relies on our strong history as therapists and introduces a need for integration of all aspects of care a true holistic approach that characterizes the nursing perspective The book should serve as a review for nurses who are studying for certification exams and is very useful for coursework in DNP programs as well as the masters programs in psychiatric mental health nursing Grayce M Sills PhD RN FAAN Professor Emerita Ohio State University From the Foreword Now in its second edition this groundbreaking text and reference continues to be the only resource for APRNs to focus on integrative interventions for individuals with mental health problems across the lifespan Combining theory and practice it provides a clear framework for integrating psychopharmacology psychotherapy and Complementary and Alternative Medicine CAM into advanced practice nursing The second edition is thoroughly updated to reflect current research new classifications in DSM 5 genetic testing and increased use of telemental health delivery It builds upon its lifespan focus and updates quick access pediatric pointers and aging alerts Additionally the resource incorporates the 2014 publication of the ANA Scope and Standards of Practice for Psychiatric Nurses offers a new focus on QSEN requirements and responds to the need to reduce health disparities and address cultural considerations Organized around psychiatric syndromes the text covers neurobiology theory and research evidence related to psychopharmacology psychotherapy and CAM interventions It provides a virtual buffet of clear treatment options in the form of well designed decision trees and accompanying explanatory narratives The text also includes a section on such special considerations as substance misuse medical problems pregnancy and forensic issues that often co occur with psychiatric syndromes Concise clear language and abundant charts graphs and algorithms enhance the books value in supporting sound clinical reasoning New to the Second Edition Thoroughly updated evidence based content Encompasses new research Presents three completely new chapters on Integrative Management of Impulse Control Telehealth and Quality Improvement and Evidence Based Practice Includes the expertise of new contributors Reflects DSM 5 updates ANA Standard of Practice for Psychiatric Nurses and QSEN standards Updates quick access Pediatric

Pointers and Aging Alerts Key Features Integrates theory and practice Simplifies complex concepts using clear language while retaining depth of information Supports clinical decision making skills through easy to follow Decision Trees Organized around psychiatric syndromes Edited by internationally acclaimed practitioner educators **Psychiatric-Mental Health Nursing** Sheila Videbeck, PhD RN, 2013-07-29 Succeed in your course and prepare for effective practice with Psychiatric Mental Health Nursing 6th Edition Focused throughout on helping you develop the skills and knowledge you ll need on the job this practical book explores the full psychiatric nursing curriculum and gives you opportunities to practice specific nursing interventions build therapeutic communication skills and apply content within the framework of the nursing process A study guide built into every chapter helps you master key concepts and build critical reasoning skills Publisher s description **Mosby's Pocketbook of Mental Health** Eimear Muir-Cochrane, Patricia Barkway, Debra Nizette, 2010-04-20 Mosby s Pocketbook of Mental Health is a convenient user friendly resource for all health professionals The potency of this text is in its easily accessible format which offers clear concise guidance to students on clinical placements and practitioners In sum a one stop shop for essential knowledge and skills backed up by the latest scientific evidence The text is consumer centred and context specific with practical advice supported by internationally accepted standards of evidence Dot points diagrams and tables are used to provide straightforward readable accessible hands on material Mosby s Pocketbook of Mental Health will complement a core text and offer a quick reference in clinical practice Bullet point layout for easy readability Clear concise presentation of information Pocket book sized to be taken on clinical rotation Case Studies derived from a clinical setting to assist the reader link theory and practice Figures and tables to clearly communicate current trends within the mental health sector Multidisciplinary approach to illustrate the breadth and context of mental issues Provides a framework for informative clinical decisions *Nursing and Mental Health Care* Steve Trenoweth, Terry Docherty, Joseph Franks, Reuben Pearce, 2011-08-30 Improving mental health for all is increasingly important in nursing as more people suffer from mental health issues ranging from stress through to diagnosed illnesses It is crucial that all nurses not just mental health nurses are aware of mental health problems and the impact these have on patients families and carers This book gives a clear overview of mental health in nursing relevant for all fields of practice It explains the core features of the mental health nursing field and explores aspects of mental health that every nurse should understand in order to provide holistic care to their patients *Think You're Crazy? Think Again* Anthony P. Morrison, Julia Renton, Paul French, Richard Bentall, 2014-01-02 Are you troubled by hearing voices or seeing visions that others do not Do you believe that other people are trying to harm you or control you Do you feel that something odd is going on that you can t explain or that things are happening around you with a special meaning Do you worry that other people can read your mind or that thoughts are being put in your head Think You re Crazy Think Again provides an effective step by step aid to understanding your problems making positive changes and promoting recovery Written by experts in the field this book will help you to understand how

your problems developed and what keeps them going use questionnaires and monitoring sheets to identify and track changes in the links between your experiences how you make sense of these and how you feel and behave learn how to change thoughts feelings and behaviour for the better practice skills between sessions using worksheets Based on clinically proven techniques and filled with examples of how cognitive therapy can help people with distressing psychotic experiences Think You re Crazy Think Again will be a valuable resource for people with psychosis **Problem-based Psychiatry** Ben Green,2009 Intro Half Title Title Page Copyright Page Contents Preface to the second edition About the author 1 The fundamentals of psychiatry 2 Organic psychiatry 3 Mood disorders 4 Anxiety disorders 5 Schizophrenia 6 Eating disorders 7 Addiction 8 Post traumatic stress disorder 9 Suicide and deliberate self harm 10 Psychiatry in old age 11 Child and adolescent psychiatry 12 Personality 13 Physical treatments 14 Psychotherapy 15 Mental retardation 16 The history of psychiatry 17 Sexual aspects of psychiatry 18 Psychiatry ethics and the law Index
