Psychiatric Treatment Crisis Clinic Consultation:

Psychiatric Treatment C. Peter Rosenbaum, John E. Beebe, 1975 Psychiatric Treatment John E Beebe, 2025-07-15
Beginning therapists often find themselves in a paradox while supervision seminars and consultation are available to support their development the immediacy of the clinical encounter demands responses before training can fully prepare them The patient and their predicament are there from the start urgent complex and unpredictable Clinical situations frequently challenge the therapist in ways no supervisor can entirely anticipate A central task of clinical teaching is to help new therapists navigate this threshold to guide them into therapeutic work with a balance of support and independence One traditional method has been to recommend reading materials yet we found that no single book adequately addressed the full spectrum of situations new clinicians are likely to encounter In *Psychiatric Treatment Crisis Clinic and Consultation* we have attempted to fill that gap Drawing on years of clinical experience we present a range of theoretical approaches and treatment strategies across three critical settings crisis intervention clinical care and psychiatric consultation Through case examples and reflective commentary this book illuminates the complex interplay between patient therapist and institution It is a resource designed not only to inform but also to accompany therapists as they begin to make their own clinical decisions Whether you re a psychiatrist psychologist social worker or student entering the field this classic text offers a practical and enduring guide to the art and complexity of psychiatric treatment Handbook of Emergency Psychiatry for Clinical Administrators Gail M.
