The Unknown Reality, Volume One Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don t realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth *ESP Power* Jane Roberts,2000 **Rough Metaphysics** Peter Skafish,2023-04-25 A powerful case for why anthropology should study outsiders of thought and their speculative ideas What sort of thinking is needed to study anomalies in thought In this trenchantly argued and beautifully written book anthropologist Peter Skafish explores this provocative question by examining the writings of the medium and rough metaphysician Jane Roberts 1929 1984 Through a close interpretation of her own published texts as well as those she understood herself to have dictated for her cohort of channeled personalities including one named Seth who would inspire the New Age movement Skafish shows her intuitive and dreamlike work to be a source of rigorously inventive ideas about science ontology translation and pluralism Arguing that Roberts s writings contain philosophies ahead of their time he also asks How might our understanding of speculative thinking change if we consider the way untrained writers occult visionaries and their counterparts in other cultural traditions undertake it What can outsider thinkers teach us about the limitations of even our most critical intellectual habits Rough Metaphysics is at once an ethnography of the books of a strange and yet remarkable writer a commentary on the unlikely philosophy contained in them and a call for a new way of doing and undoing philosophy through anthropology and vice versa In guiding the reader through Roberts s often hallucinatory world of concepts Skafish also develops a series of original interpretations of thinkers from William James to Claude L vi Strauss to Paul Feyerabend who have been vital to anthropologists and their fellow travelers Seductively written and surprising in its

turns of thought Rough Metaphysics is a feast for anyone who wants to learn how to think something new especially about thought

Towards a Science of Belief Systems E. Griffiths, 2014-09-29 People believe in a great many things and yet most of us know almost nothing about why other people believe what they do or indeed about how it feels to believe it This book presents an objective method for understanding and comparing belief systems irrespective of whether the investigator happens to agree with them

It's About You! Chris W. E. Johnson, 2020-01-31 The ultimate guide to understanding your magnificent multi dimensional Self so that you can begin living a fearless fulfilling life of contentment Why are you here in the physical world at this crucial and chaotic time for humanity What if you were aware of your higher self s spiritual reasons for being here What if you could fearlessly pursue those things that excite your passions without worrying about money or whether you are worthy of doing so What does it take to fully express your Self It s About You Know Your Self is the first book in a trilogy that integrates profound insights from a wide variety of physical and nonphysical sources of knowledge into a set of experiential workbooks The primary aim of the

trilogy is to make the reader consciously aware of the subconscious spiritual impulses that steer one's experiences in life. Such awareness brings clarity on the purpose of our current lifetime and why our Essence higher self presents us with certain challenges along the way. Essentially our Essence self has a few learning goals for this lifetime all of which contribute to the overall expansion and evolution of our personal expression within Consciousness. Know Your Self through its series of exercises initiates a journey of gentle self transformation that releases emotional and psychological obstructions on the way to consciously managing the key issues that affect our lives: self worth, health, relationships and our flow of abundance, enabling us to live a more fun filled altruistic way of life. In this newly edited revised edition you will discover the totality of your indivisible Self from the fabulous resources of your Essence self to the foibles, fears and wayward beliefs of your ego self and learn how to deal with your ego self's challenges in a compassionate and forgiving manner. Know Your Self presents a new model of the Self incorporating psychological aspects and layers to the Self offered in the Seth material and other channeled sources of wisdom. This new model allows the reader to understand better the nature of your spiritual existence, how this provides the source energy for your physical existence, to feel more confident of your continued existence after physical death and open a reconnection to the inner guidance of your Essence self. As the metaphysical character Seth reminds us, 'The ego then is only part of a much larger self but because consciously you do not perceive the whole self you arbitrarily make it a unit from a truly indivisible identity and call this the I.' You succeed in cutting off in theory one portion of the self from the whole self. Seth in Roberts J 1998 The Early Sessions Book 3 of The Seth Material Manhasset NY New Awareness Network Inc p 266. Know Your Self gives a clearer understanding of the root causes of the challenges and problematic events occurring in one's life and crucially how to address such problems. A review of the first edition. Our long dominant worldview of materialism is giving way in a shift in our individual and collective psyches awakening to a more spiritual knowing. Therefore now more than ever before we humans need teachers and guides grounded in an emerging truth we can trust. Johnson provides us here with an outstanding 21st century metaphysical textbook to empower us to use more consciously our intention to change and enrich our lives and the reality we are manifesting. Professor Jon Klimo author of Channeling Investigations on Receiving Information from Paranormal Sources. Order your ego self a copy now and begin awakening to your whole Self's magnificence. The Publishers Weekly, 1976-07 **Seth Speaks (A Seth Book)** Jane Roberts, 2012-04-01. One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness. Deepak Chopra: Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life. Marianne Williamson: I would like to see the Seth books as required reading for anyone

on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay
