Science in a Free Society Paul Feyerabend, 2017-11-10 No study in the philosophy of science created such controversy in the seventies as Paul Feyerabend's *Against Method* In this work Feyerabend reviews that controversy and extends his critique beyond the problem of scientific rules and methods to the social function and direction of science today In the first part of the book he launches a sustained and irreverent attack on the prestige of science in the West The lofty authority of the expert claimed by scientists is he argues incompatible with any genuine democracy and often merely serves to conceal entrenched prejudices and divided opinions with the scientific community itself Feyerabend insists that these can and should be subjected to the arbitration of the lay population whose closest interests they constantly affect as struggles over atomic energy programs so powerfully attest Calling for far greater diversity in the content of education to facilitate democratic decisions over such issues Feyerabend recounts the origin and development of his own ideas successively engaged by Brecht Ehrenhaft Popper Mill and Lakatos in a spirited intellectual self portrait *Science in a Free Society* is a striking intervention into one of the most topical debates in contemporary culture and politics

Tell My Mother I'm Not Dead Trevor Hamilton, 2012-10-08 This book divides into two parts The first is a personal narrative of the impact of the death of the author's son Ralph on him and his family and his efforts to see if there was any evidence for his continued existence generated largely through visits to mediums that a thinking person could take seriously The second is an

attempt to evaluate that evidence objectively based on an extensive survey of current and past scientific research in the UK and the USA The title reflects the inevitable tension between emotion and intellect in such an enquiry **Capturing the Aura 'Integrating Science, Technology, and Metaphysics** C. E. Lindgren, 2008 The aura has been given many names over the centuries chi i prana karnaeem and Illiaster In fact it has been documented for over 5 000 years Astral lights alluded to by ancient Eastern Indians Chinese and Jewish mystics are attributed to a universal energy permeating all matter The aura was described in early esoteric writings and later in those of the Rosicrucians Zen Buddhists Christian mystics even in the oral traditions of the American Indians Now Capturing the Aura brings the science technology and metaphysics of auric investigation into a concise and readable book for the 21st century a century that will see continuing integration of science and metaphysics into the MetaScience of the future *Science and the Reenchantment of the Cosmos* Ervin Laszlo, 2006-01-12 Presents a revolutionary new theory that bridges the divide between science and spirituality Discloses the ramifications of non localized consciousness and how the physical world and spiritual experience are two aspects of the same reality Includes contributions from Jane Goodall Ed Mitchell Stanislav Grof Ralph Abraham and Christian de Quincy among others What scientists are now finding at the outermost frontiers of every field is overturning all the basic premises concerning the nature of matter and reality The universe is not a world of separate things and events but is a cosmos that is connected coherent and bears a profound resemblance to the visions held in the earliest spiritual traditions in which the physical world and spiritual experience were both aspects of the same reality and man and the universe were one The findings that justify this new vision of the underlying logic of the universe come from almost all of the empirical sciences physics cosmology the life sciences and consciousness research They explain how interactions lead to interconnections that produce instantaneous and multifaceted coherence what happens to one part also happens to the other parts and hence to the system as a whole The sense of sacred oneness experienced by our ancestors that was displaced by the unyielding material presumptions of modern science can be restored and humanity can once again feel at home in the universe A Detailed Survey On Religiosity And Paranormal Experiences JACKSAN JUDAN FERNANDES, 2020-10-24 This study is about people in their formative years It is about their beliefs and practices It is about their personality and how it relates to their beliefs It involves empirical investigation of 1800 college going men 882 and women 918 with an average age of about 20 years The subjects are predominantly Hindu 85% with 12% Christian and 3% Muslim student attending colleges in Visakhapatnam urban area Data were collected from them using the Myers Briggs Type Indicator MBTI and the two specially developed questionnaires that survey religiosity and paranormal beliefs and experiences Paranormal beliefs and experiences surveyed included sacred as well as secular beliefs experiences and practices While several studies in the West attempted to explore the relationships between personality paranormal beliefs and religious practices and experiences there are hardly any investigations in non Judeo Christian cultures The present study can help by throwing light on the cross cultural

Wartofsky, 2012-12-06 The death of Imre Lakatos on February 2 1974 was a personal and philosophical loss to the worldwide circle of his friends colleagues and students This volume reflects the range of his interests in mathematics logic politics and especially in the history and methodology of the sciences Indeed Lakatos was a man in search of rationality in all of its forms He thought he had found it in the historical development of scientific knowledge yet he also saw rationality endangered everywhere To honor Lakatos is to honor his sharp and aggressive criticism as well as his humane warmth and his quick wit He was a person to love and to struggle with PAUL K FEYERABEND ROBERT S COHEN MARX W WARTOFSKY TABLE OF CONTENTS Preface VII JOHN WORRALL Imre Lakatos 1922 1974 Philosopher of Mathematics and Philosopher of Science JOSEPH AGASSI The Lakatosian Revolution 9 23 D M ARMSTRONG Immediate Perception w W BAR TLEY III On Imre Lakatos 37 WILLIAM BERKSON Lakatos One and Lakatos Two An Appreciation 39 I B COHEN William Whewell and the Concept of Scientific Revolution 55 L JONATHAN COHEN How Can One Testimony Corroborate Another 65 R S COHEN Constraints on Science 79 GENE D AMOUR Research Programs Rationality and Ethics 87 YEHUDA ELKANA Introduction Culture Cultural System and Science 99 PA UL K Devices for Monitoring Nonphysical Energies William A. Tiller, 2016-05-01 Significant advances in the psychoenergetics field will be delayed until devices and techniques are developed for monitoring nonphysical energies One general category of useful devices is that of a conventional electromagnetic nature that responds to such energies via interaction with an intermediary living transducer human animal or plant This paper chapter 21 of *Psychic Exploration* is largely devoted to a discussion of two such devices a high voltage Kirlian photography device and an acupuncture point monitoring device The full volume of *Psychic Exploration* can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com The Force Is With Us Thomas Walker, 2014-03-17 Inspired by encounters with his son from beyond the grave Tom Walker went searching for answers He discovered that paranormal phenomena have not only been exhaustively studied but that scientific evidence exists to support it He uncovered numerous scientific studies involving telepathy clairvoyance precognition and psychokinesis as well as government funded scientists who proved their validity Through his research Walker eventually came to the belief that there is a force in the world that makes things happen The force an energy field that permeates the universe forms and sustains all things and is the basis behind paranormal phenomena and alternative forms of healing He describes his provocative conclusions in this book Making compelling connections between ideas like the Great Void and dark matter between Ch i and quantum fields Walker argues that it is our connection with the higher planes of consciousness the fundamental quantum reality that truly makes up the world **Parapsychology Today** Rhea A. com *Cosmic Conversations* Stephan Martin,2009-10-01 Some of the most compelling cutting edge ideas about who we are and what kind of world we live in This is a daring book and a great read Glenn Hartelius PhD coeditor of the International Journal of Transpersonal Studies Have you ever looked up at the night sky and wondered What is the universe In this lively and engaging collection of interviews astronomer Stephan Martin talks with some of today s most innovative and cutting edge thinkers on the nature of the universe and our relationship to it Scientists mystics indigenous elders and cultural creatives all share their unique voices on the nature of reality the interplay of science and religion the future of humanity and the role of each person in a mysterious and evolving universe Filled with rich insight dynamic discussion and penetrating wisdom Cosmic Conversations asks the fundamental questions about the universe many of us have wondered about yet few have explored in depth questions such as Do time space and matter really exist Can the universe be inside us outside us or both Is the universe alive conscious and intelligent Where are we in the cosmic evolutionary picture A compelling journey from the farthest reaches of outer space to the innermost realms of the human heart Cosmic Conversations will change the way you look at the universe and yourself forever An excellent contribution to the philosophical revival that is taking place in the marketplace of ideas Stephan s searching and heartfelt questions bring out the best of the authors he interviews Steve McIntosh author of *The Presence of the Infinite* **Precognition and Retrocognition** E. Douglas Dean,2016-05-01

Precognition is the hardest aspect of parapsychology for us to understand yet the easiest to experience and to test scientifically in the laboratory Retrocognition occurs but is reported much more rarely Hundreds of studies have been made of spontaneous precognition experiences and of controlled experiments in the laboratory The use of modern electronic instruments has confirmed this Even dreams have been shown to come true in the laboratory This essay chapter 6 from *Psychic Exploration* studies precognition and retrocognition The full volume of *Psychic Exploration* can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com **The Future of Post-Human**

Unconsciousness Peter Baofu,2009-03-26 Why should anomalous experience in a general sense be proven to exist before they can be taken seriously Contrary to the conventional wisdom held by many scholars in human history hitherto existing the imaginative exploration of anomalous phenomena even if all of them were merely the fabricated products of psychological con artists will have tremendous implications for the future of intelligent life both on earth and in deep space unto multiverses For the critics this is a bold or outrageous claim for sure So a good question to ask is Why should the conventional wisdom on anomalous experience be challenged in this way This question is all the more fascinating when related to the nature of unconsciousness Although unconscious experience does not necessarily imply anomalous experience the two are closely intertwined since an individual may not exactly know how and why an anomalous phenomenon he claims to encounter happens in the way that it does and this constitutes the unconscious dimension of anomalous experience which has remained the most controversial in the scientific community This book thus focuses on this relationship between the

nature of unconsciousness and the controversial aspects of anomalous experience so understood To understand this the book is organized into four main parts that is in relation to nature the mind culture and society together with the introductory and concluding chapters The Emergence of Paraphysics: Theoretical Foundations Brendan O' Regan,2016-05-01 Success in the formal scientific investigation of phenomena has always required that man learn to speak formally about the phenomena under investigation Psychic phenomena are considered in terms of the unresolved problem of the relation between mind and matter with paraphysics being defined as the physics of paranormal processes This essay chapter 19 of Psychic Exploration explores why modern science has been unable to deal with highly complex systems and has therefore been able to address only certain kinds of problems The full volume of Psychic Exploration can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com
