## **Psychic Politics:**

*Psychic Politics* Jane Roberts, 1999-11 The ego rises from the civilization of the psyche just as a leader rises from the masses of the people appointed chosen or taking control according to an inner politics first existing within the greater inner mind Jane Roberts *Psychic Politics* *Psychic Politics* is Jane Roberts's search for the rules that govern our inner life the links between daily subjective experience and the greater Reality that nourishes all of our existence This is not only her most challenging book but a very personal investigation in which the sources of dream and myth and the creative wellsprings of sex and spirituality appear in their full and breathtaking relationship to daily life And here for the first time Roberts introduces her theories of counterparts the library and the codicils concepts that are key to understanding her entire body of work

Popular Tyranny Kathryn A. Morgan, 2013-10-11 The nature of authority and rulership was a central concern in ancient Greece where the figure of the king or tyrant and the sovereignty associated with him remained a powerful focus of political and philosophical debate even as Classical Athens developed the world's first democracy This collection of essays examines the extraordinary role that the concept of tyranny played in the cultural and political imagination of Archaic and Classical Greece through the interdisciplinary perspectives provided by internationally known archaeologists literary critics and historians The book ranges historically from the Bronze and early Iron Age to the political theorists and commentators of the middle of the fourth century B C and generically across tragedy comedy historiography and philosophy While offering individual and sometimes differing perspectives the essays tackle several common themes the construction of authority and of constitutional models the importance of religion and ritual the crucial role of wealth and the autonomy of the individual Moreover the essays with an Athenian focus shed new light on the vexed question of whether it was possible for Athenians to think of themselves as tyrannical in any way As a whole the collection presents a nuanced survey of how competing ideologies and desires operating through the complex associations of the image of tyranny struggled for predominance in ancient cities and their citizens

**The Myth of the Great Ending** Joseph M. Felser, 2011-04-01 From Christian believers in the Apocalypse and the Rapture to New Age enthusiasts of prophecies concerning the year 2012 Doomsday lore has been a part of culture a myth that colors how we perceive the world Why do we remain obsessed with Doomsday myths even when they fail to materialize What if we haven't recognized the true message of these myths Blending history psychology metaphysics and story philosopher and author Joseph Felser explores the spiritual questions raised by these enduring myths Along the way he consults the work of Joseph Campbell Carl Jung Marie Louise von Franz Black Elk Wovoka Itzhak Bentov Jane Roberts Seth Hermann Hesse Ingo Swann David Bohm Fred Alan Wolf J Allen Boone William James and Robert Monroe through ever widening circles of understanding Felser suggests that our obsession with The End of the World hides a repressed healthy longing for reconciliation with our inner and outer worlds with nature and our own natural spirituality He urges us to recognize and act upon that longing When we begin to listen to nature's voice and pay heed to our own dreams

including visions intuitions and instinctive promptings the greatest revolution in all history will unfold We can create a future of our own choosing a beginning rather than an ending      The Nature of the Psyche Jane Roberts,2011-07-08 Seth speaking exclusively through Jane Roberts reveals a startling new concept of self answering questions about the secret language of love human sexuality the real origins and incredible powers of dreams and how we choose our physical death sometimes years in advance For the first time Seth explains Why love is the basic language from which all others spring The bisexual nature of humanity and its biological and spiritual importance The true basis of homosexuality and lesbianism along with their private and social effects The benefits of recalling our dreams and consciously participating in them How dreams can prevent chronic illnesses by providing important therapeutic information Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential The psyche is a gestalt of aware energy in which your own identity resides inviolate yet ever changing as you fulfill your potentials You are your psyche s living expression its human manifestation Yet you allow yourselves often to become blind to brilliant aspects of your own existence Jane Roberts Speaking for Seth      The Unknown Reality, Vol 2 Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche s greater magic Jane Roberts Speaking for Seth      The Magical Approach (A Seth Book) Jane Roberts,2011-08-01 In The Magical Approach Seth invites us to look at the world through another lens a magical one Seth reveals the true magical nature of our deepest levels of being and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking The Magical Approach teaches us how to live our lives spontaneously creatively and according to our own natural rhythms It helps us to discover and tune into our natural instinctive behavior By applying the principles in this book readers will learn to trust their impulses and discover the highest expression of their creativity We are speaking about an approach to life a magical or natural approach to life that

is man's version of the animal's natural instinctive behavior in the universe Jane Roberts Speaking for Seth **Moments** Daniel J. Perin, 2009-12-20 This book is about some of my personal moments but more it is a book about ways in which we all can face our challenges and overcome them It is my goal to place in your hands tools for understanding how you build a successful happy life I believe that no challenge comes our way without also an equivalent source of strength and understanding to meet it Through the use of self help articles interspersed with personal biographical information I hope to demonstrate steps you can take to transform challenges into successful outcomes Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of Dreams Evolution and Value Fulfillment Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth's system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth Everyday Telepathy, Clairvoyance and Precognition Mary Barton, 2010-08-23 Latest research and examples of telepathic clairvoyant and precognitive abilities Learn how to develop your extrasensory perception **Walled States, Waning Sovereignty** Wendy Brown, 2010-09-01 Why just two decades after international celebrations of the fall of the Berlin Wall are so many nation states building elaborate walls at or near their borders Why walls now given growing global connectedness and given the general imperviousness of late modern powers from capital to religion to terror to physical blockading How do walls shore up an image of sovereign statehood and to what extent do they fortify reactionary national imaginaries What do the new walls perform symbolically materially psychically In Walled States Waning Sovereignty Wendy Brown reflects on the proliferation of nation state walls in a time of eroded nation state sovereignty and intensifying transnational powers unleashed by globalization A leading theorist of neoliberalism Brown argues that although the new walls may demarcate existent or aspirational nation state boundaries they do not arise as fortresses against invading national armies or even as articulations of sovereign statehood Rather in a post Westphalian context of increasing nonstate transnational actors and powers the new walls consecrate the very boundary

corruption they would contest as well as signify the contemporary limitations of national and global governance by law or political dictate Even as walls theatrically display nation state sovereignty they index with equal force the decline of sovereign state power In a rare combination of powerful theory and precise historical political and economic analysis *Walled States Waning Sovereignty* provides a new indeed the first account of nation state walling as a distinctive contemporary phenomenon For Brown the frenzy of wall building today reveals crucial predicaments of political power and desire emerging from the waning of sovereignty including new political legitimacy deficits new citizen anxieties and new fusions of state and non state violence

*Fiction, Intuition, & Creativity* Angela Hague,2003 This is a search for the origins of fiction and for an understanding of how these origins influence the finished work of art The text examines the connection between the creative process and fictional form by discussing intuitive consciousness **Rough Metaphysics** Peter Skafish,2023-04-25 A powerful case for why anthropology should study outsiders of thought and their speculative ideas What sort of thinking is needed to study anomalies in thought In this trenchantly argued and beautifully written book anthropologist Peter Skafish explores this provocative question by examining the writings of the medium and rough metaphysician Jane Roberts 1929 1984 Through a close interpretation of her own published texts as well as those she understood herself to have dictated for her cohort of channeled personalities including one named Seth who would inspire the New Age movement Skafish shows her intuitive and dreamlike work to be a source of rigorously inventive ideas about science ontology translation and pluralism Arguing that Roberts s writings contain philosophies ahead of their time he also asks How might our understanding of speculative thinking

change if we consider the way untrained writers occult visionaries and their counterparts in other cultural traditions undertake it What can outsider thinkers teach us about the limitations of even our most critical intellectual habits Rough Metaphysics is at once an ethnography of the books of a strange and yet remarkable writer a commentary on the unlikely philosophy contained in them and a call for a new way of doing and undoing philosophy through anthropology and vice versa In guiding the reader through Roberts s often hallucinatory world of concepts Skafish also develops a series of original interpretations of thinkers from William James to Claude L vi Strauss to Paul Feyerabend who have been vital to anthropologists and their fellow travelers Seductively written and surprising in its turns of thought Rough Metaphysics is a feast for anyone who wants to learn how to think something new especially about thought [Plato on the Limits of Human Life](#) Sara Brill,2013-06-03 A book that is an ambitious well researched and provocative scholarly reflection on soul in the Platonic corpus Polis By focusing on the immortal character of the soul in key Platonic dialogues Sara Brill shows how Plato thought of the soul as remarkably flexible complex and indicative of the inner workings of political life and institutions As she explores the character of the soul Brill reveals the corrective function that law and myth serve If the soul is limitless she claims then the city must serve a regulatory or prosthetic function and prop up good political institutions against the threat of the soul s excess Brill s sensitivity to dramatic elements and discursive strategies in Plato s dialogues illuminates the intimate connection between city and soul Sara Brill takes on at least two significant issues in Platonic scholarship the nature of the soul and especially the language of immortality in its description and the relationship between politics and psychology She treats each one of these topics in a fresh and nuanced way Her writing is beautiful and fluid Marina McCoy Boston College **Utopia Limited** Marianne DeKoven,2004-05-10 The end of the modern and the emergence of the postmodern in 1960s philosophy literature and popular culture *Reading Postcolonial Theory* Bibhash Choudhury,2016-02-26 This book is an essential introduction to significant texts in postcolonial theory It looks at seminal works in the moments of their making and delineates the different threads that bind postcolonial studies Each chapter presents a comprehensive discussion of a major text and contextualises it in the wake of contemporary themes and debates The volume Studies major texts by foremost scholars Edward W Said Chinua Achebe Albert Memmi Gayatri Chakravorty Spivak Paul Carter Homi Bhabha Frantz Fanon Ashis Nandy Robert J C Young Ngugi wa Thiongo and Sara Suleri Shifts focus from colonial experience to underlying principles of critical engagement Uses accessible jargon free language Focused engaging and critically insightful this book will be indispensable to students and scholars of literary and cultural studies comparative literature and postcolonial studies **Channeling** Joel Bjorling,2019-06-19 Originally published in 1992 Channeling is a comprehensive bibliography on the subject of channeling The book defines channeling as any message received or conveyed from transcendent entities and covers material on the history of channeling those that have claimed to transcend death contact with UFOs and contemporary channeling groups The book acts as a research guide and seeks to outline the historical roots of channeling

explaining its major teachings and considers its significance as a spiritual movement. It provides sources from books, booklets, articles, and ephemeral material and offers a comprehensive list of both primary and secondary materials related to channeling. The bibliography takes the most diverse and useful sources of the time. This volume, although published almost 30 years ago, still provides a unique and insightful collection for academics of religion, in particular those researching spiritualism and the occult.

**Dreams, Evolution, and Value Fulfillment, Volume Two** Jane Roberts, 2011-07-08. The Seth books present an alternate map of reality with a new diagram of the psyche useful to all explorers of consciousness. Deepak Chopra, M.D., author of *The Seven Spiritual Laws of Success* from the bestselling author of *Seth Speaks* and *The Nature of Personal Reality*. In the first volume of *Dreams, Evolution, and Value Fulfillment*, Seth presented an in-depth picture of the origin of all life from the inner dream world to the vast display of material creation. Here in Volume Two, Seth continues his explanation of the physical world as an ongoing self-creation, a direct and intentional outgrowth of the wisdom of the life forms that inhabit it, including humanity. He expands upon his vision of a thoroughly animate universe where virtually every possibility not only exists but is constantly encouraged to achieve its highest potential. In his typical awe-inspiring manner, Seth sheds light on many controversial and complex subjects, including the ways in which our religions have stifled the human spirit. Surprising insight into life's meaning and purpose. The genetic basis of faith, hope, and charity. The pursuit of pleasure as a fundamental human need. How each species keeps millions of characteristics within its genetic bank for various contingencies. Dreams are mental work and play combined, psychic and emotionally rich creative dramas. They also involve you in the most productive of enterprises as you begin to play with versions of events that are being considered for physical actualization. Jane Roberts, *Speaking for Seth*.
