Sign Crimesroad Kill From Mediascape To Landscape:

Sign Crimes/Road Kill Joyce Nelson,1992 **Tangled Routes** Deborah Barndt,2008 Now in a thoroughly revised and updated edition Tangled Routes offers a vivid interdisciplinary examination of the global food system through the journey of a corporate tomato Through case studies in the three NAFTA countries Mexico the United States and Canada Deborah Barndt examines the dynamic relationships between production and consumption work and technology biodiversity and cultural diversity and health and environment The compelling stories of women workers along the tomato trail humanize her analysis of globalization taking into account the intersections of gender race class family status and north south relations

Cultural Studies Lawrence Grossberg,Janice Radway,2005-08-08 First published in 1994 Routledge is an imprint of Taylor Francis an informa company **Secret Agents** Marjorie Garber,Rebecca Walkowitz,2013-10-18 When the American Bar Association recreated the trial of Ethel and Julius Rosenberg on the fortieth anniversary of their execution the jury acquitted the mock Rosenbergs finding that in today s courts they would not have been convicted of espionage The 1950s trial of the Rosenbergs on charges of Atomic Spying and stealing the secrets of the Atomic bomb was a major event of Cold War America galvanizing public opinion on all sides of the question Secret Agents presents essays by lawyers cultural critics social historians and historians of science as well as a reconsideration of the Rosenbergs by their younger son Robert Meeropol Secret Agents gives new resonance to a history we have for too long been willing to forget **Mass Media** James B. Martin,2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes **Mediated Associations** Daniel O'Connor,2002-12-17 Rather than focusing on the abstract and individualizing character of cinema Mediated Associations elucidates the collective character of cinematic objects O Connor argues that social theory must come to terms with the new mobilities and speed of cinema and the various ways in which the affect as a virtual moment of collective experience is inserted into the flow of movement and structures cinematic events In considering the primacy of the affect to cinematic forms of power he examines the way in which cinema controls our associations reconstituting our manners and habits of sociality and sociability in subtle and complex ways **NFB Kids** Brian J. Low,2006-01-01 Imagine a society that exists solely in cinema this book explores exactly that Using a half century of films from the archival collection of the National Film Board NFB Kids Portrayals of Children by the National Film Board of Canada 1939 1989 overcomes a long standing impasse about what films may be credibly said to document Here they document not reality but social images preserved over time the NFB Society an evolving cinematic representation of Canadian families schools and communities

During the postwar era this society in cinema underwent a profound change in its child rearing and schooling philosophies embracing modern notions based upon principles espoused by the American mental hygiene movement Soon after the introduction of these psychological principles into NFB homes in 1946 and schools in 1956 there was a subtle transformation in adult child relations which progressively over time narrowed the gulf of power between generations and diminished the socializing roles of the NFB parents and teachers NFB Kids is a pioneering study within a new field of academic research cinema ethnography It adds to the growing body of knowledge about the function and the considerable impact of psychiatry and psychology in the post war social reconstruction of Canadian society and social history It will be of interest to academics over a broad spectrum of disciplines and to anyone thinking about the advancing arbitrary power of the cinematic state
