Monks, Miracles and Magic Helen L. Parish, 2016-04-29 Helen L Parish presents an innovative new study of Reformation attitudes to medieval Christianity revealing the process by which the medieval past was rewritten by Reformation propagandists This fascinating account sheds

light on how the myths and legends of the middle ages were reconstructed reinterpreted and formed into a historical base for the Protestant church in the sixteenth century Crossing the often artificial boundary between medieval and modern history Parish draws upon a valuable selection of writings on the lives of the saints from both periods and addresses ongoing debates over the relationship between religion and the supernatural in early modern Europe Setting key case studies in a broad conceptual framework Monks Miracles and Magic is essential reading for all those with an interest in the construction of the Protestant church and its medieval past Folklore, Magic, and Witchcraft Marina Montesano, 2021-08-19 This volume offers 18 studies linked together by a common focus on the circulation and reception of motifs and beliefs in the field of folklore magic and witchcraft The chapters traverse a broad spectrum both chronologically and thematically yet together their shared focus on cultural exchange and encounters emerges in an important way revealing a valuable methodology that goes beyond the pure comparativism that has dominated historiography in recent decades Several of the chapters touch on gender relations and contact between different religious faiths using case studies to explore the variety of these encounters Whilst the essays focus geographically on Europe they prefer to investigate relationships over highlighting singular local traits In this way the collection aims to respond to the challenge set by recent debates in cultural studies for a global history that prioritises inclusivity moving beyond biased or learned attachments toward broader and broadening foci and methods With analysis of sources from manuscripts and archival documents to iconography and drawing on writings in Latin Hebrew Arabic and other languages this volume is essential reading for all students and scholars interested in cultural exchange and ideas about folklore magic and witchcraft in medieval and early modern Europe
