Magic in the Web Robert Bechtold Heilman,1977 *Magic in the Web* Robert B. Heilman,1977 Magic in the Web Robert Bechtold Heilman,1956 The author traces out literal and symbolic meanings he analyzes plot relationships he examines characters in terms of both their psychological and their moral situations and style in relation to both character and meaning He traces some effects due to historical meanings which have now been lost by certain words and he tries to measure the impact of the drama upon and its significance for the modern consciousness Amazon com *Inwardness and Theater in the English Renaissance* Katharine Eisaman Maus,1995-06 This text explores the perceived discrepancy between outward appearance and inward disposition which it argues influenced the work of many English Renaissance dramatists and poets The author examines various connections between religious legal sexual and theatrical ideas of inward truth **A Jungian Study of Shakespeare** M. Fike,2009-02-02 Employing the analytical psychology of Carl Jung Matthew A Fike provides a fresh understanding of individuation in Shakespeare This study of the visionary mode Jung s term for literature that comes through the artist from the collective unconscious combines a strong grounding in Jungian terminology and theory with myth criticism biblical literary criticism and postcolonial theory Fike draws extensively on the rich discussions in the Collected Works of C G Jung to illuminate selected plays such as A Midsummer Night s Dream The Merchant of Venice The Henriad Othello and Hamlet in new and surprising ways Fike s clear and thorough approach to Shakespeare offers exciting original scholarship that will appeal to students and scholars alike **Shakespeare's Universal Wolf** Hugh Grady,1996 Shakespeare was neither a Royalist defender of order and hierarchy nor a consistently radical champion of social equality but rather simultaneously radical and conservative as a critic of emerging forms of modernity Hugh Grady argues that Shakespeare s social criticism in fact often parallels that of critics of modernity from our own Postmodernist era that the broad analysis of modernity produced by Marx Horkheimer and Adorno Foucault and others can serve as a productive enabling representation and critique of the emerging modernity represented by the image in Troilus and Cressida of an universal wolf of appetite power and will The readings of Troilus and Cressida Othello King Lear and As You Like It in Shakespeare s Universal Wolf demonstrate Shakespeare s keen interest in what twentieth century theory has called reification a term which designates social systems created by human societies but which confronts those societies as operating beyond human control according to an autonomous systems logic in nascent mercantile capitalism in power oriented Machiavellian politics and in the scientific value free rationality which Horkheimer and Adorno call instrumental reason **From Chaucer's Pardoner to Shakespeare's Iago** Maik Goth,2009 In The Western Canon The Books and School of the Ages the American critic Harold Bloom claims that Shakespeare drew on Chaucer s Pardoner when creating the villain Iago for his Othello This book turns Bloom s observation of influences within the canon of Western literature into a more complex intermedial analysis of dramatic and literary traditions at the waning of the Middle Ages and the dawn of the

Renaissance The discussion of verbal and non verbal codes in Chaucer s presentation of the Pardoner and Shakespeare s depiction of Iago sheds light on the various strands of the Vice s development and shows that Chaucer s pilgrim who descends obliquely from the stage Vices stands at the very beginning of the Vice tradition while Iago is a late development of him who adapts his role to new dramatic challenges *Shakespeare's Villains* Maurice Charney,2012 Shakespeare s Villains is a close reading of Shakespeare s plays to investigate the nature of evil Charney closely considers the way that dramatic characters are developed in terms of language imagery and nonverbal stage effects With chapters on Iago Tarquin Aaron Richard Duke of Gloucester Shylock Claudius Polonius Macbeth Edmund Goneril Regan Angelo Tybalt Don John Iachimo Lucio Julius Caesar Leontes and Duke Frederick this book is the first comprehensive study of the villains in Shakespeare

Douglas Rabb, J. Michael Richardson, 2014-12-04 Drawing on the works of Shakespeare and American screenwriter Joss Whedon this study in narrative ethics contends that Whedon is the Shakespeare of our time The Bard wrote before the influence of the modern moral philosophers while Whedon is writing in the postmodern period It is argued that Whedon's work is more in harmony with the early modern values of Shakespeare than with modern ethics which trace their origin to 17th and 18th century moral philosophy This study includes a detailed discussion of representative works of Shakespeare and Whedon showing how they can and should be read as forms of narrative ethics **Sea-mark** Philip Edwards, 1997-01-01 An original study of the use made by a number of major writers in sixteenth and seventeenth century England of the metaphor of the voyage showing how powerfully it operated and how fundamental it is for our proper understanding of some of the best known works of Renaissance literature This well written and jargon free book is recommended for academic libraries supporting both undergraduates and advanced students and scholars Choice an interesting and worthwhile read for both scholars and students Early Modern Literary Studies *Shakespearean Sensations* Katharine A. Craik, Tanya Pollard, 2013-02-07 This strong and timely collection provides fresh insights into how Shakespeare's plays and poems were understood to affect bodies minds and emotions Contemporary criticism has had surprisingly little to say about the early modern period's investment in imagining literature's impact on feeling Shakespearean Sensations brings together scholarship from a range of well known and new voices to address this fundamental gap The book includes a comprehensive introduction by Katharine A Craik and Tanya Pollard and comprises three sections focusing on sensations aroused in the plays sensations evoked in the playhouse and sensations found in the imaginative space of the poems With dedicated essays on Hamlet Macbeth Othello and Twelfth Night the collection explores how seriously early modern writers took their relationship with their audiences and reveals new connections between early modern literary texts and the emotional and physiological experiences of theatregoers **Biblical References in Shakespeare's Plays** Naseeb Shaheen, 1999 Analyzes the biblical references that Shakespeare makes in his plays surveying the different English Bibles available to Shakespeare and pointing out which of these he referred to most often the King James version only appeared near the end of his career Also examines biblical references found in literary source material used by Shakespeare to determine whether he used or adapted these or added others from his own memory and what these allusions would have meant to audiences of the time From publisher description Materialist Shakespeare Ivo Kamps, 1995 Receptive to influences of such diverse theorists as Derrida Jameson Foucault Irigaray Kristeva Lacan and Althusser materialist Shakespeare criticism has long since left behind the days of vulgar

Double Vision Tzachi Zamir, 2012-06-24 Hamlet tells Horatio that there are more things in heaven and earth than are dreamt of in his philosophy In Double Vision philosopher and literary critic Tzachi Zamir argues that there are more things in Hamlet than are dreamt of or at least conceded by most philosophers Making an original and persuasive case for the philosophical value of literature Zamir suggests that certain important philosophical insights can be gained only through literature But such insights cannot be reached if literature is deployed merely as an aesthetic sugaring of a conceptual pill Philosophical knowledge is not opposed to but is consonant with the literariness of literature By focusing on the experience of reading literature as literature and not philosophy Zamir sets a theoretical framework for a philosophically oriented literary criticism that will appeal both to philosophers and literary critics Double Vision is concerned with the philosophical understanding induced by the aesthetic experience of literature Literary works can function as credible philosophical arguments not ones in which claims are conclusively demonstrated but in which claims are made plausible Such claims Zamir argues are embedded within an experiential structure that is itself a crucial dimension of knowing Developing an account of literature's relation to knowledge morality and rhetoric and advancing philosophical literary readings of Richard III Macbeth Romeo and Juliet Othello Antony and Cleopatra Hamlet and King Lear Zamir shows how his approach can open up familiar texts in surprising and rewarding ways
