Elemental Magic Mercedes Lackey, 2012-12-04 Among Mercedes Lackey's many novels few are as critically acclaimed and beloved as those about the Elemental Masters The novels in this series are loosely based on classic fairy tales and take place in a fantasy version of turn of the century London where magic is real and Elemental Masters control the powers of

Fire Water Air and Earth Now other authors join Mercedes Lackey to add their own special touches to this delightful alternate history in a world where magic is always just around the corner *Steadfast* Mercedes Lackey, 2025-09-23 The eighth novel in Mercedes Lackey's magical Elemental Masters series reimagines the fairy tale The Steadfast Tin Soldier in a richly detailed alternate Victorian England Katie Langford had been part of her family's acrobatic troupe working in a small traveling circus until a terrible fire killed her parents Years later still with the circus but stuck in an abusive marriage Katie fled from her increasingly dangerous husband to Brighton As a seaside resort town Brighton's music halls meant no circus needed to visit It was as safe a place as she could find Lionel Hawkins was a professional magician who had a permanent job at the Palace Music Hall in Brighton His shows never failed to enchant the ever changing crowds for his magic was more than just tricks Lionel was an Air Magician and he wasn't the only one at the Palace who had magical abilities Jack Prescott the Palace doorman who had lost a leg in the Boer Wars had preternatural awareness of all flame which had saved the Palace from burning on more than one occasion When Katie answered the Palace's call for a new assistant with stage experience it seemed like all her problems were solved But it soon became clear that Katie was a Fire Magician like Jack and that something had blocked Katie's access to her own abilities a dangerous situation for everyone around her Fire the most volatile of all the elements was a power that could easily turn deadly when fueled by strong emotion And Lionel and Jack could tell that Katie was hiding something Something that frightened her Something that could set their whole world ablaze if they couldn't help her master her Element in time **From a High Tower** Mercedes Lackey, 2025-09-23 The tenth novel in Mercedes Lackey's magical Elemental Masters series reimagines the fairy tale Rapunzel in a richly detailed alternate Victorian world Giselle had lived fourteen years of her life in an abandoned tower Her mother kept Giselle a young Air Master still growing into her abilities isolated for the sake of herself and others This life left her unprepared when a handsome young man appeared at the base of her tower But when the young stranger entered her window he tried to force himself on her She was saved by Mother an Earth Master who hurled the man out the window he had climbed in The Foresters of the Black Forest were Earth Masters whose job it was to cleanse the ancient forest of evil elementals and over the next four years they shared their fighting expertise to teach Giselle self defense By the age of twenty Giselle was an expert markswoman and it was this skill that she used to survive when Mother died Cutting her long hair she masqueraded as a boy to enter shooting competitions and used the prize money to support herself But she could not forget the first man who assaulted her for when that stranger had fallen from her tower long ago his body had never been found In Giselle's heart she was certain his magic had helped him to survive the fall Surely it was only a matter of time before he found her and sought revenge Was she prepared to stand against him **Technē** Gerald Hiestand, Todd A. Wilson, 2022-11-18 Christians have an increasingly complex and often conflicted relationship with technology As Genesis 1 succinctly and profoundly declares God created humanity in his image and as part of that vocation we are called to make something of the world

Technology is one of the most important and powerful ways that human beings exercise this dominion But while technology can extend our humanity in powerful and exciting ways many of us feel that it can compromise or fracture our humanity at its core As a result questions quickly emerge What does it mean to be human How does our creation in the image of God affect the way we use design and understand technology Should our general posture toward technology be cautious or optimistic This collection of scholarly and pastoral essays drawn from the 2019 annual theology conference of the Center for Pastor Theologians offers substantive Christian reflection on a wide range of issues pertinent to a distinctly Christian vision of technology today and in the future
