understanding of the act of translation and how we present our gender identity or identities In showing what translation and transgender identity can learn from one another Rose lays the foundation for future directions for research into the translation of trans identity making this book key reading for scholars in translation studies transgender studies and queer studies

Landmark Cases in the Law of Contract Charles Mitchell, Paul Mitchell, 2008-05-30 Landmark Cases in the Law of Contract offers twelve original essays by leading contract scholars As with the essays in the companion volume Landmark Cases in the Law of Restitution Hart 2006 each essay takes as its focus a particular leading case and analyses that case in its historical or theoretical context The cases range from the early eighteenth to the late twentieth centuries and deal with an array of contractual doctrines Some of the essays call for their case to be stripped of its landmark status whilst others argue that it has more to offer than we have previously appreciated The particular historical context of these landmark cases as revealed by the authors often shows that our current assumptions about the case and what it stands for are either mistaken or require radical modification The book also explores several common themes which are fundamental to the development of the law of contract for instance the influence of commercial expectations appeals to reason and the significance of particular judicial ideologies and techniques

The Progressive Poetics of Confusion in the French Enlightenment John C. O'Neal, 2011-03-14 In The Progressive Poetics of Confusion in the French Enlightenment John C O Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity Eighteenth century thinkers used the notion of confusion in a progressive way to reorganize social classes literary forms metaphysical substances scientific methods and cultural categories such as taste and gender In this new work O Neal explores some of the paradoxes of the Enlightenment's theories of knowledge Each of the chapters in this book attempts to address the questions raised by the eighteenth century's particular approach to confusion as a paradoxical reorganizing principle for the period's progressive

agenda Perhaps the most paradoxical thinker of his times Diderot occupies a central place in this study of confusion Other authors include Marivaux Crillon Voltaire and Pinel among others Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period's poetics of confusion as they complement it The final chapter on Sade combines contemporary discussions of politics society culture philosophy and science in an encyclopedic way that at once reflects the entire period's tendencies and establishes important differences between Sade's thinking and that of the mainstream philosophies Ultimately confusion serves O Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals

Epstein, Robert Gillett, 2017-01-06 As the field of translation studies has

developed translators and translation scholars have become more aware of the unacknowledged ideologies inherent both in texts themselves and in the mechanisms that affect their circulation This book both analyses the translation of queerness and applies queer thought to issues of translation It sheds light on the manner in which heteronormative societies influence the selection reading and translation of texts and pays attention to the means by which such heterosexism might be subverted It considers the ways in which queerness can be repressed ignored or made invisible in translation and shows how translations might expose or underline the queerness or the homophobic implications of a given text Balancing the theoretical with the practical this book investigates what is culturally at stake when particular texts are translated from one culture to another raising the question of the relationship between translation colonialism and globalization It also takes the insights derived from intercultural translation studies and applies them to other fields of cultural criticism The first multi focus in depth study on translating queer translating queerly and queering translation this book will be of interest to scholars working in the fields of gender and sexuality queer theory and queer studies literature film studies and translation studies The

When Churchill Slaughtered Sheep and Stalin Robbed a Bank Giles Milton,2016-11-01 More addictive and mind blowing true tales from history told by Giles Milton one of today s most entertaining and accessible yet always intelligent and illuminating historians In *When Churchill Slaughtered Sheep and Stalin Robbed a Bank* the second installment in his outrageously entertaining series *History s Unknown Chapters* Giles Milton shows his customary historical flair as he delves into the little known stories from history like when Stalin was actually assassinated with poison by one of his inner circle the Russian scientist dubbed the Red Frankenstein who attempted to produce a human ape hybrid through ethically dubious means the family who survived thirty eight days at sea with almost no water or supplies after their ship was destroyed by a killer whale or the plot that served as a template for 9 11 in which four Algerian terrorists attempted to hijack a plane and fly it into the Eiffel Tower

Alternative Histories of the Self Anna Clark,2017-12-14 *Alternative Histories of the Self* investigates how people re imagined the idea of the unique self in the period from 1762 to 1917 Some used the notion of the unique self to justify their gender and sexual transgression but others rejected the notion of the unique self and instead demanded the sacrifice of the self for the good of society The substantial introductory chapter places these themes in the cultural context of the long nineteenth century but the book as a whole represents an alternative method for studying the self Instead of focusing on the thoughts of great thinkers this book explores how five unusual individuals twisted conventional ideas of the self as they interpreted their own lives These subjects include The Chevalier de Eon a renegade diplomat who was outed as a woman Anne Lister who wrote coded diaries about her attraction to women Richard Johnson who secretly criticized the empire that he served James Hinton a Victorian doctor who publicly advocated philanthropy and privately supported polygamy Edith Ellis a socialist lesbian who celebrated the abnormal These five case studies are skilfully used to explore how the notion of the unique individual was used to make sense of sexual or gender non conformity Yet this queer reading will go beyond same sex desire to analyse the issue of secrets and privacy for instance what stigma did men who practiced or advocated unconventional relationships with women incur Finally Clark ties these unusual lives to the wider questions of ethics and social justice did those who questioned sexual conventions challenge political traditions as well This is a highly innovative study that will be of interest to intellectual historians of modern Britain and Europe as well as historians of gender and sexuality The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections.com Open access was funded by Knowledge Unlatched
