Major Works John Clare, 2004 After years of indifference and neglect John Clare 1793 1864 is now recognized as one of the greatest English Romantic poets Clare was an impoverished agricultural laborer whose genius was generally not appreciated by his contemporaries and his later mental instability further contributed to his loss of critical esteem But the extraordinary range of his poetical gifts has restored him to the company of contemporaries like Lord Byron John Keats and Percy Bysshe Shelley This authoritative edition brings together a generous selection of Clare's poetry and prose including autobiographical writings and letters and illustrates all aspects of his talent It contains poems from all stages of his career including love poetry and bird and nature poems Written in his native Northamptonshire Clare's work provides a fascinating reflection of rural society often underscored by his own sense of isolation and despair Clare's writings are presented with the minimum of editorial interference and with a new introduction by the poet and scholar Tom Paulin *Anselm of Canterbury: The Major Works* Saint Anselm (Archbishop of Canterbury), St. Anselm, 2008-05-08 Originally published Oxford New York Oxford University Press 1998 **Anselm of Canterbury: The Major Works** St. Anselm, 1998-09-10 For I do not seek to understand so that I may believe but I believe so that I may understand For I believe this also that unless I believe I shall not understand Does God exist Can we know anything about God's nature Have we any reason to think that the Christian religion is true What is truth anyway Do human beings have freedom of choice Can they have such freedom in a world created by God These questions and others were ones which Anselm of Canterbury c 1033 1109 took very seriously He was utterly convinced of the truth of the Christian religion but he was also determined to try to make sense of his Christian faith Recognizing that the Christian God is incomprehensible he also believed that Christianity is not simply something to be swallowed with mouth open and eyes shut For Anselm the doctrines of Christianity are an invitation to question to think and to learn Anselm is studied today because his rigour of thought and clarity of writing place him among the greatest of theologians and philosophers This translation provides readers with their first opportunity to read all of his most important works within the covers of a single volume ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *The Major Works* Francis Bacon, 2002 This authoritative edition was originally published in the acclaimed Oxford Authors series under the general editorship of Frank Kermode It brings together an extensive collection of Bacon's writing the major prose in full together with sixteen other pieces not otherwise available to give the essence of his work and thinking Although he had a distinguished career as a lawyer and statesman Francis Bacon's lifelong goal was to improve and extend human knowledge In *The Advancement of Learning* 1605 he made a brilliant critique of the deficiencies of previous systems of thought and proposed improvements to

Asian American Poets Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography
