Congress. House. Committee on Banking and Currency,1947 Eetoo Robby Charters,2009-11-10 His mission is to leave this planet and search for answers that can only be found on the planet of humanity s birth But nobody he knows has ever seen a ship that can sail to the stars the kind their forefathers arrived on Eetoo is an orphan caring for the small flock of sheep he inherited from his parents The only one he s close to Venerable Too Dah who taught him to read the ancient tablets now tells him he must find his way to the planet of Humanity s birth and find the golden tablets that will complete their knowledge of truth His own dreams also confirm it But how He unexpectedly meets someone who gives him a lift off his planet and his journey begins On his search he discovers how evil the ancient humans were who first left Earth to colonise the stars Though the ancient Nephteshi Human Empire is a thing of the past some alien species have painful memories of their atrocities and would rather see humanity extinct The paradox keeps Eetoo searching for answers taking him to first century Earth Other galactic species are more friendly to humanity and Eetoo gains the friendship of both humans and non humans including some romance Think Ben Hur of Science Fiction The parts of the narrative set on Earth are influenced by readings of first century history in light of the Dead Sea Scrolls the Pseudepigrapha Rabbinical sources as well as readings of Shalom Asch s The Nazarene Some study of Quantum Mechanics also helped Such a combination of rabbis Essenes and aliens could only exist in a historical space opera *Take This Job and Ship It* Byron L. Dorgan,2015-06-09 Our trade deficit increases by 2 billion a day Pharmaceutical companies and their lobbyists have such influence in Washington that Medicare by current law is not allowed to negotiate lower drug prices We import oil on an ever increasing scale putting ourselves into debt with the Saudis the Kuwaitis and other Middle Eastern nations With their windfall profits they continue to buy American assets China s booming economy and abundance of cheap labor are threatening our economic survival We have mortgaged our fortunes our principles and our way of life In this comprehensive look at the real human toll of America s unsound trade policy Senator Byron Dorgan exposes the myth of free trade Indeed free trade is not free it is something that is slowly but surely draining away American prosperity Sure Chinese labor can drive down prices at Wal Mart at the same time however those saved wages dollars that would have gone to buy these cheaper goods are gone Too soon it will all come crashing down Major U S corporations continue to ship jobs overseas by the millions and because of their influence in Washington avoid

paying a king's ransom in taxes. Many billions of dollars that these companies fleece from the government and the American people go overwhelmingly to investments in expanding production capabilities overseas. In short, our government is in the grip of corporate and foreign interests and the American worker has borne the brunt of this culture of corruption. How can we stem the tide of outsourcing? Why has the White House done nothing? Will the middle class survive? From describing corporate profiteering to calling to action a lethargic inactive government, Byron Dorgan exposes the truth about the destructive relationship between corporations and Congress and proposes strategies for what can really be done to preserve America's preeminence in the world.

The Life-Boat; or Journal of the National Life-Boat Institution, 1868. **Making It in America** Rachel Slade, 2024-01-09. A moving and eye-opening look at the story of manufacturing in America, whether it can ever successfully return to our shores and why our nation depends on it, told through the experience of one young couple in Maine as they attempt to rebuild a lost industry ethically. From the best-selling author of *Into the Raging Sea*, Ben Waxman spent a decade organizing workers in Pennsylvania, Ohio, and Wisconsin fighting for men and women at a time when national support for unions had sunk to an all-time low. Frustrated with the state of the world, he lands back in his hometown of Portland, Maine, to rethink his life. There he meets Whitney Reynolds, a restless bartender eager for a challenge. In each other, they see a better future, a version of the American dream they can build together. Ben and Whitney set out to prove that union-made, all-American sourced apparel manufacturing is possible in the twenty-first century. Their quest takes us across the nation and across time, from the cotton fields of Mississippi to the hollowed-out garment district in New York City, to a family-owned zipper company in Los Angeles, to the enormous knit and dye houses in North Carolina. While battling anti-immigrant hostility, trade wars, and a global pandemic, they grapple with the

true meaning of made in USA in our globalized world Making It in America offers a fascinating new take on free trade economics and manufacturing history Woven through the Waxmans journey is the essential story of textiles and their critical role in shaping capitalism It was the demand for cheap cloth that sparked the industrial revolution It was the brutal conditions in New England s textile mills that first drove workers to organize Making It in America is a deeply personal account of how individual choices shape a nation Each touchpoint casts a rare compassionate look at what came before where we are now and where we re going through the people places and ecologies that produce the fabric of our lives
