*Making a Killing* Ernie Regehr,1975      **Military Development In Africa** Bruce E. Arlinghaus,2019-03-04 Increases in the number and improvements in the quality of arms transferred to sub Saharan African nations clearly will affect those nations economic development and political stability both immediately and in the long term Problems of technology absorption manpower development and the diversion of financial and human resources occasioned by such transfers become more and more critical as the demand for military modernization by African governments grows and the industrial nations compete to meet the demand Dr Arlinghaus evaluates conflicting assessments of the costs and benefits of military development from the perspective that it would be best for African nations to allocate resources for defense on the basis of socioeconomic considerations as well as their military and political goals

**Arms Canada** Ernie Regehr,1987 First published in 1987 Arms Canada paints a disturbing picture of the Canadian arms industry an industry whose sales then totalled 3 billion annually      Essays on the Quality of Life Alex C. Michalos,2013-04-17 Since initiating the journal Social Indicators Research in 1974 Alex C Michalos has been a pioneer in social indicators and quality of life research This collection of nineteen articles provides an overview of nearly 30 years of work including papers drawn from diverse sources and papers never published before Topics range over quality of life investigations connected to the problems of combining social economic and environmental indicators measuring the status of women in Canada housing and migration health and human well being older peoples well being leisure activities and health impact of public services police services criminal victimization feminism and ethnic relations on the quality of life The final paper on multiple discrepancies theory MDT is the author s unique contribution to an empirically testable new foundation for theories of utility satisfaction and happiness

**North American Social Report** Alex C. Michalos,2012-12-06 For readers who intend to read this volume without reading the first some introductory remarks are in order about the scope of the work and the strategy used in all five volumes to measure the quality of life In the first chapter of Volume I I reviewed the relevant recent literature on social indicators and social reporting and explained all the general difficulties involved in such work It would be redundant to repeat that discussion here but there are some fundamental points that are worth mentioning Readers who find this account too brief should consult the longer discussion The basic question that will be answered in this work is this Is there a difference in the quality of life in Canada and the United States of America and if so in which country is it better Alternatively one could put the question thus If one individual were randomly selected out of Canada and another out of the United States would there be important qualitative differences and if so which one would probably be better one To simplify matters I often use the terms Canadian and American as abbreviations for a randomly selected resident of Canada or the United States respectively      *Canada : Selected References* ,1981      *A Guide to Canadian Policies on Arms Control, Disarmament, Defence and Conflict Resolution* ,1985      Religion and Culture in Canada Peter Slater,2006-01-01 No detailed description

available for Religion and Culture in Canada      A Pragmatic Approach to Business Ethics Alex C. Michalos, 1995-02-23 A pragmatic approach to business ethics is argued for in this volume which demonstrates the usefulness of the approach by applying it to a variety of issues These issues are broad and far reaching and include the relations between rational and moral ethical decision making the limits of loyalty to employers the impact of trust on business and the role of commercial public opinion polling during elections The author also covers advertising tobacco promotion manufacture and marketing of armaments concentration and taxation of wealth and the North American Free Trade Agreement      **In Whose Interests** M. Patricia Marchak, 2011 A comprehensive entry into the literature of political economy      **Liberal Dreams and Nature's Limits** James T. Lemon, 2008-05-14 On the agricultural frontier and through technological progress Europeans and others and their descendants have sought to fulfill their dreams of improvement Through businesses governments and other bodies city dwellers expedited these desires by organizing settlements communications trade finance and manufacturing In turn cities grew mightily To assess the present condition of cities Liberal Dreams and Nature's Limits focuses on five large North American cities at various times in the past Philadelphia about 1760 New York 1860 Chicago 1910 Los Angeles 1950 and Toronto 1975 Life inside these cities specifically the economy society and politics public services land development and the geographies of circulation workplaces and residential districts is the central concern of this book Another concern is drawing contrasts and similarities between the American and Canadian urban experiences North Americans most now living in cities face the challenge of a social frontier how to maintain civility in a near stagnant economy Despite recent advances in cyberspace nature has imposed limits on technical progress defined by speed convenience and comfort Promethean gains through creative destruction are no longer possible Increased preoccupation with money status and safety suggests that the striving inspired by liberalism is still appealing Yet without growth liberal dreams cannot be fulfilled To ensure work income equity and a degree of freedom in thought and action citizens and leaders in both countries will have to commit themselves as never before to managing fairness through social democracy Sustainable cities are not possible otherwise      *The Canadian Military Experience 1867-1967* O. A. Cooke, 1979      **Seeking Places of Peace** Royden Loewen, 2012-09-01 Perhaps the most inclusive sweeping and insightful history ever written about the North American Mennonite saga Both authors are eminent historians Royden Loewen is Professor of History with a chair in Mennonite Studies at the University of Winnipeg Steven M Nolt is Professor of History at Goshen IN College Both authors of this book bring to the task the insights of social history As such they focus on people in many geographical environments rather than on institutional development and theological controversy Readable understandable and incisive Appeals to all ages and all groups      **The Economics of Defence, Disarmament, and Peace** Keith Hartley, Nick Hooper, 1990 This major reference work is a comprehensive critical guide to the large and growing literature on the economics of defence disarmament and peace It covers the cost of defence spending and its effects on growth investment unemployment technical change and other aspects of a nation's economic

performance It includes material on the determinants of defence spending namely defence budgets programme budgeting and procurement policy It also deals with the economic impact of arms limitation disarmament and the conversion from military production to products with peaceful uses      To Set the Captives Free Oscar L. Arnal,1998 Oscar Cole Arnal is Professor of Church History at the Waterloo Lutheran Seminary      The Black Book of Canadian Foreign Policy Yves Engler,2009 This book could change how you see Canada Most of us believe this country s primary role has been as peacekeeper or honest broker in difficult to solve disputes But contrary to the mythology of Canada as a force for good in the world The Black Book of Canadian Foreign Policy sheds light on many dark corners from troops that joined the British in Sudan in 1885 to gunboat diplomacy in the Caribbean and aspirations of Central American empire to participation in the U N mission that killed Patrice Lumumba in the Congo to important support for apartheid South Africa Zionism and the U S war in Vietnam to helping overthrow Salvador Allende and supporting the Pinochet dictatorship in Chile to Haiti Iraq and Afghanistan today We bear responsibility for what governments do in the world primarily our own but secondarily those we can influence our allies in particular Yves Engler s penetrating inquiry yields a rich trove of valuable evidence about Canada s role in the world and poses a challenge for citizens who are willing to take their fundamental responsibilities seriously GoogleBooks      **Selected Problems in Formulating Foreign Economic Policy** Denis Stairs,Gilbert R. Winham,1985 *Canadian Defence Policy* Queen's University (Kingston, Ont.). Centre for International Relations,1982      Bibliographie de la Vie Militaire Au Canada, 1867-1983 O. A.
