Crafted in Britain Anthony Burton,Rob Scott,2017-02-09 Crafted in Britain is a celebration of Britain s traditional crafts and industries that have survived into the modern world not as museums but on their merits In an age of increasing automation and standardisation it is a joy to find such places where craftsmanship and personal skills are still valued Their

world is recreated in Rob Scott's dramatic photographs while the processes and history of the different industries is described in the accompanying text by Anthony Burton. They have travelled the country from the Spey valley in Scotland where they recorded the workers in a traditional distillery and a cooperage to Cornwall and the studio of a specialist pub sign painter. They have gone underground with a Free Miner of the Forest of Dean and seen molten metal being poured to create majestic church bells. The book delights in the variety and individuality of the different industries. For both author and photographer it has been a revelation to see some of these processes at work to watch a craftsman take a strip of silver and work it by hand into a spoon or to find clocks being made in a workshop that looks as if it has scarcely changed for a hundred years. Now readers have the opportunity to share these experiences and delight in the discovery of these magnificent survivors. **Work**, 1897 **Library of Congress Subject Headings**, 2009 Astronomical observations made of the
