## **Making Art Pay:**

**Making Foreign People Pay** Ali Cem Budak, 2019-05-29 First published in 1999 Making Foreign People Pay deals with the recovery of monetary claims in cross border legal relations and contains the results of a comparative empirical research of debt recovery procedures of three countries with different socio legal environments Germany England and Turkey In order to analyse judicial debt recovery of cross border claims court statistics and files have been evaluated The data show an infrequent use of the courts in all three countries It seems that legal efforts aiming at facilitating international procedures have not been successful But court procedures for the recovery of monetary claims are now to a large extent interchangeable with what may be called privatised methods of debt collection including modern financial services such as factoring forfaiting and commercial debt collection Empirical evidence shows that such privatization of debt collection is a strong trend in cross border debt collection The book is an empirical contribution to the ongoing discussion of globalization processes and describes an important field of the globalization of law

**How Artists Make Money and How Money Makes Artists** David Berry, 2025-10-14 How artists make a living and how money changes art It may not be the worst time in history to get paid to make art but it certainly is the strangest The institutions and markets that have been supporting the arts are undergoing massive changes some even disappearing Meanwhile the tools to make art and find audiences have never been more accessible and there are more people than ever making art How Artists Make Money and How Money Makes Artists is an attempt to reckon with the history of money in the arts from Titian to Taylor Swift and how that complicated relationship is changing David Berry analyzes past and present financial dynamics in the arts to show the practicalities of how artists make a living and how that in turn affects the reception and perception of artists and their work the impacts art has on wider society how economic realities affect aesthetic judgements of art what kind of people are able to work as artists and how political and cultural ideas about the nature of art affect what kind of resources are made available to it David Berry explores how art has become central to our understanding

of humanity by tying art to what makes the world go round money Along the way he challenges popular ideas of what constitutes a successful artistic career and considers what our treatment of artists says about us **Mystery of Making IT** Jack White,2010-03-19 Mystery of Making IT destroys all the myths learned in art school that have been passed down from generation to generation and will transform your career Written for the seasoned pro as well as those just starting to market their art Over a thousand artists have read this book and say it has dramatically changed their lives Learn the secrets guarded by the professionals and find the path to your own success Jack White has been a successful artist for over 40 years and freely shares his experience **The Death of the Artist** William Deresiewicz,2020-07-28 A deeply researched warning about how the digital economy threatens artists lives and work the music writing and visual art that sustain our souls and societies from an award winning essayist and critic There are two stories you hear about earning a living as an artist in the digital age One comes from Silicon Valley There s never been a better time to be an artist it goes If you ve got a laptop you ve got a recording studio If you ve got an iPhone you ve got a movie camera And if production is cheap distribution is free it s called the Internet Everyone s an artist just tap your creativity and put your stuff out there The other comes from artists themselves Sure it goes you can put your stuff out there but who s going to pay you for it Everyone is not an artist Making art takes years of dedication and that requires a means of support If things don t change a lot of art will cease to be sustainable So which account is true Since people are still making a living as artists today how are they managing to do it William Deresiewicz a leading critic of the arts and of contemporary culture set out to answer those questions Based on interviews with artists of all kinds The Death of the Artist argues that we are in the midst of an epochal transformation If artists were artisans in the Renaissance bohemians in the nineteenth century and professionals in the twentieth a new paradigm is emerging in the digital age one that is changing our fundamental ideas about the nature of art and the role of the artist in society **Chryssa & New York** Megan Holly Witko,Sophia Larigakis,Michelle White,2023-03-21 The first major publication in more than thirty years on contemporary artist Chryssa an innovator of light art Chryssa New York offers a timely reassessment of Greek born artist Chryssa Chryssa Vardea Mavromichali 1933 2013 Chryssa was a leading figure in the postwar New York art world and in the use of signage text and neon yet her work which bridges Pop Conceptual and Minimalist approaches to art making remains under recognized Focusing on the artist s early career in particular her time in New York from the 1950s to the 1970s this book charts the emergence of her singular aesthetic especially her formal innovations with neon and culminates in the development of her monumental and rarely seen installation The Gates to Times Square 1964 66 Essays situate Chryssa s art alongside that of other New York based practitioners in the 1950s and 1960s consider her work through the lenses of queer theory and the Greek diaspora and uncover her crucial influence on light art today Rounding out the volume a conversation on the technical aspects of her practice and a comprehensive chronology make this the definitive publication on Chryssa for years to come Distributed for Dia Art Foundation and the Menil Collection
