Watcha Thinkin? Tim Wascomb, 2022-11-03 It is funny how our mind works We have things happen to us every day that effects how our tomorrow is going to be So by knowing how we can deal with the unwanted changes that we all face hopefully later but sometimes sooner if we can understand how to make changes in our life that can assist in adapting to those changes whether it is our mind or physical health what we eat and drink and how we sleep it would be great to have the upper advantage on all these things Well you are reading about a great start that can shed some light on benefits to help to return or even keep you from not being able to do what you want to do because of the changes that are unwanted There is one exercise in the book that will change the rest of your life along with many more that can assist you in keeping a balance in fitness So you can do the things you want to do or used to do It all begins with a mind set and how do we get that kind of mind set It is between these two covers Do yourself a favor jump in and get the benefits of Whatcha Thinkin I would love to hear the benefits you are getting by reading and following the suggestions in this life changing adventure inside

Teaching Toward Freedom William Ayers, 2004 For William Ayers noted educator and activist the allure of teaching that ineffable magic drawing me back to the classroom again and again issues from an ideal that lies directly at its heart Teaching at its best is an enterprise that helps human beings reach the full measure of their humanity In *Teaching Toward Freedom* Ayers illuminates the hope as well as the conflict that characterize the entire project of education how it can be used in authoritarian and dehumanizing ways in the service of the state the church or a restrictive existing social order an idea he abhors or as he envisions it as an undertaking to help students become more fully human more engaged more participatory more free Drawing on his own classroom experiences and those of his many colleagues as well as on popular culture film poetry and novels Ayers redraws the lines concerning how we teach and why and the surprising things we uncover when we allow students to become visible vocal authors of their own texts and creators of their own lives Committed and aware teachers Ayers argues must endeavor to accomplish two crucial tasks One is to convince students that there is no such thing as receiving an education as a passive receptor or an inert vessel in that direction lies nothing but subservience indoctrination and worse All real education is and must always be self education The second task is to demonstrate to students that they are valued that their humanity is honored and that their growth enlightenment and liberation are the paramount concern We take the side of the student This lucid and inspiring book will help teachers at every level to realize that ideal
