Making Of Central And Eastern Europe 2nd Edition

Farah Huzair, Peter T. Robbins

Making Of Central And Eastern Europe 2nd Edition:

Constitutional Review in Central and Eastern Europe Kálmán Pócza, 2024-02-13 Recent confrontations between constitutional courts and parliamentary majorities in several European countries have attracted international interest in the relationship between the judiciary and the legislature Some political actors have argued that courts have assumed too much power and politics has been extremely judicialized This volume accurately and systematically examines the extent to which this aggregation of power may have constrained the dominant political actors room for manoeuvre To explore the diversity and measure the strength of judicial decisions the contributors to this work have elaborated a methodology to give a more nuanced picture of the practice of constitutional adjudication in Central and Eastern Europe between 1990 and 2020 The work opens with an assessment of the existing literature on empirical analysis of judicial decisions with a special focus on the Central and Eastern European region and a short summary of the methodology of the project This is followed by ten country studies and a concluding chapter providing a comprehensive comparative analysis of the results A further nine countries are explored in the counterpart volume to this book *Constitutional Review in Western Europe Judicial Legislative Relations in Comparative Perspective* The collection will be an invaluable resource for those working in the areas of empirical legal research and comparative constitutional law as well as political scientists interested in judicial politics Chapters 1 5 and 12 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Jerusalem and the Cross in the Life and Writings of Ademar of Chabannes Daniel F. Callahan, 2016-03-11 The tenth and eleventh centuries are pivotal for the history of the West The writings of Ademar of Chabannes many of which are still unpublished offer numerous insights into why these changes were occurring Because his promotion of the cult of St Martial of Limoges contains much that is exaggerated or even untrue his writings have been viewed with suspicion What this book seeks to do is make clear that such distrust is justified but that there is much material in those manuscripts throwing light on the origins of the crusades the rise of heresy the great feudal warfare and the reality of apocalyptic fear

East Central Europe Lawrence D. Orton, 1989 *Exploring Central and Eastern Europe's Biotechnology Landscape* Farah Huzair, Peter T. Robbins, 2011-08-13 At a time when the human genome has been sequenced advances in the life sciences seem to have great potential for human health industry and the environment throughout Central and Eastern Europe CEE Still for some potential risks and ethical dilemmas remain surrounding issues such as the appropriate use of GM crops stem cells genetic information the nature of intellectual property and other challenges that come with EU accession This book is the first of its kind to bring together experts from across Europe to explore the landscape of current life science policy and industrial development in CEE including implications for economies regulatory and legal frameworks health care ethics and human rights It will be essential reading for researchers and students in science and technology studies development sociology politics and law and those interested in life science

development in transition economies **The Czech Reader** Jan Bažant, Nina Bažantová, Frances Starn, 2010-12-13 Frances Starn is a writer living in Berkeley California Book Jacket **The Judiciary in Central and Eastern Europe** Zdenek Kühn, 2011-10-28 One of the most widespread problems in post Communist countries is the quality of the judiciary The book argues that these problems are intimately linked to the legal culture of Communist law that an understanding of post Communist judges necessarily requires an understanding of their Communist predecessors There seems to be a deep continuity in the methods of legal reasoning employed by lawyers in the region of East Central Europe starting in the era of Stalinism of the 1950s up to the current post Communist period which continuity is manifested in the problems of 1990s and 2000s Communist legal culture and its aftermath provide an interesting analysis of the development of legal culture in a long lasting system which was intellectually almost completely separated from the outside world The book targets the judicial ideology the conception of law and the judicial self perceptions which are phenomena most likely to be contained in the deepest level of legal culture that most resistant to change *The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century* Włodzimierz Borodziej, Sabina Ferhabd begović, Joachim von Puttkamer, 2020-04-21 Statehood examines the extending lines of development of nation state systems in Eastern Europe in particular considering why certain tendencies in state development found a different expression in this region compared to other parts of the continent This volume discusses the differences between the social developments political decisions and historical experience that have influenced processes of state building with a focus on the structural problems of the region and the different paths taken to overcome them The book addresses processes of building social orders and examines the contribution of state institutions to social and cultural integration and disintegration It analyses institutional and personnel continuities that have outlasted the great political changes of the twentieth century and addresses the expansion of state activity in shaping property relations in agriculture and industry as well as in social security and family politics Taking a comparative approach based on experiential history allowing individual experience to be detached from specific national references the volume delineates a transnational comparison of problems shared within the region as they have been passed down through history providing definition to the specificity of Eastern Europe and situating the historical experience of the region within a pan European context The second in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in statehood and state building in this complex region *Developments in Central and East European Politics 2* Stephen White, Judy Batt, Paul G. Lewis, 1998 **The Routledge Companion to Central and Eastern Europe since 1919** Adrian Webb, 2008-04-16 The Routledge Companion to Central and Eastern Europe since 1919 is a compact and comprehensive reference guide to the area from the Treaty of Versailles to the present day With particular focus on the early nationalist and subsequent fascist and communist periods Adrian Webb provides an essential guide to the events people and ideas which have shaped and continue to shape central and eastern Europe since the re ordering of Europe at the end of the First World

War Covering cultural economic political and environmental issues this broad ranging and user friendly volume explores both the common heritage and collective history of the region as well as the distinctive histories of the individual states Key features include wide ranging political and thematic chronologies maps for clear visual reference special topics such as the economy the environment and culture full list of office holders and extensive biographies of prominent people in all fields glossary of specialist terms With a wealth of chronological statistical and tabular data this handy book is an indispensable resource for all those who wish to understand the complex history of central and eastern Europe *Central and Eastern Europe* Mary E. Lassanyi,1993

Developments in Central and East European Politics 3 Stephen White,Judy Batt,Paul G. Lewis,2003

Central and East European Politics Sharon L. Wolchik,Jane Leftwich Curry,2008 This long needed text explores the other half of Europe the new and future members of the European Union along with the problems and potential they bring to the region and to the world stage Clear and comprehensive it offers an authoritative and up to date analysis of the transformations and realities in Central and Eastern Europe the Baltics and Ukraine Divided into two parts the book presents a set of comparative country case studies as well as thematic chapters on key issues including EU and NATO expansion the economic transition and its social ramifications the role of women persistent problems of ethnicity and nationalism and political reform Leading scholars provide the historical context for the current situation of each country in the region They explain how communism ended and how democratic politics has emerged or is struggling to emerge in its wake how individual countries have transformed their economies how their populations have been affected by rapid and wrenching change and how foreign policy making has evolved For students and specialists alike this book will be an invaluable resource on the newly democratizing states of Europe The Unknown Europe James R. Payton Jr.,2021-11-03

The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression But we in the West don t know much about Eastern Europe or its history this book helps us see why We got interested when the region became a threat during the Cold War but what we learned focused on the Communist period after World War II not Eastern Europe itself or its deep history a history that continues to live in the hearts of its peoples James Payton offers an accessible treatment of the history of the region an opportunity to learn about Eastern Europeans as they are He overviews that story from pre history to the present examining eleven turning points that profoundly shaped Eastern European history His treatment considers the backgrounds to the turning points the events and the long lasting impacts they had for the various Eastern European nations This helps us understand how Eastern Europeans themselves see their history the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves their neighbors and their place in the world Gender Equality Policy in the European Union Ingrid Bego,2015-07-14

One of the solutions proposed by the European Union to remedy the effects of the 2008 economic crisis is to increase female labour participation This book explores the policy changes in four new member states that may reduce the

gender employment gap and improve women's equal participation in the labour force *Eastern Europe Bibliography*, 1993

A selective work that documents the formative impact of the region's earlier history Includes reference aids and bibliographies general and descriptive histories of the land peoples and economies and works depicting intellectual and cultural life *Social Policy in Central and Eastern Europe* Alfio Cerami, 2006 By explaining the path of extrication from state socialism this book clarifies the patterns of the welfare state's transformation in Central and Eastern Europe It identifies the emergence of a peculiar Eastern European welfare regime through the fusion of pre communist communist and post communist features *The Capacity of Central and East European Interest Groups to Participate in EU Governance* Daniela Obradovic, Heiko Pleines, 2012-02-24 The integration of ten Central and East European countries CEEC into the EU as part of the 2004 and 2007 enlargements poses new challenges to EU governance as the number of countries involved has thereby increased dramatically However the actors coming from the new member states also face challenges as they attempt to integrate themselves into EU decision making processes This book analyses the attempts of civil society organisations from the Czech Republic and Poland to engage in EU governance in four policy fields The guiding question is whether civil society organisations from the Central and East European member states have or can gain the capacity for meaningful participation in EU governance After an introductory part which outlines the analytical framework and offers a review of the literature the actors and rules of EU governance are profiled The third and fourth parts of the book then present case studies The case studies address the civil society organisations most actively involved in EU governance namely typical NGOs trade unions employers organisations and business associations *The Routledge History of East Central Europe Since 1700* Irina Livezeanu, Arpad von Klimó, 2017-03-16 Covers territory from Russia in the east to Germany and Austria in the west exploring the origins and evolution of modernity in this region Provided by the publisher *Central Banks in the Age of the Euro* Kenneth Dyson, Martin Marcussen, 2009-07-30 Both studies of political power and Europeanization studies have tended to neglect central banks As the age of the euro reaches its 10th anniversary it is timely to reflect on what it means for central banks which have been at the forefront of the establishment of Economic and Monetary Union in the European Union Central banks have been caught up in a major historic political project What does it mean for them What does the age of the euro tell us about the power of central banks their Europeanization and whether they are coming to resemble each other more closely This book brings together a range of recognized academic specialists to examine the main political aspects of this question How and in what ways has the euro Europeanized central banks members and non members of the Euro Area What have been its effects on the power of central banks and their use of power Has the euro generated convergence or divergence in central banking The book offers the first in depth and systematic political analysis of central banks in the first decade of the euro It places the euro in its global and European contexts including the US Fed and the Australasian central banks patterns of differentiated integration in European central banking and the European Central Bank It offers a set of case studies of its

effects on a representative sample of EU central banks euro insiders and outsiders and looks at four main thematic areas monetary policy financial market supervision accountability and transparency and research The book contributes to Europeanization studies comparative political economy and studies of Economic and Monetary Union It will be of major interest to students of the European Union and European integration comparative European politics and area and country studies More generally it will interest all those interested in central banking and their pivotal and problematic position between politics and markets

Party Organization and Electoral Volatility in Central and Eastern Europe Sergiu Gherghina, 2014-10-17 Political parties in post communist countries have very high levels of electoral volatility In these environments political factions fail to establish long term connections with the electorate and thus regularly rise and fall from the political arena This book provides an organizational explanation for the variations in party level electoral volatility It looks comparatively at 29 political parties in six Central and Eastern European democracies between 1990 and 2008 to examine how political parties can influence their electoral environment Using empirical evidence Gherghina tests the effect of candidate selection procedures membership organizations and re nomination of incumbent MPs on voters loyalty and in doing so demonstrates how party organization greatly affects electoral stability Including case studies from Bulgaria Czech Republic Hungary Poland Romania and Slovakia this book will be of interest to students and scholars of comparative politics party politics democratization elections and Central and Eastern European politics

Making Of Central And Eastern Europe 2nd Edition Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever.
