Race and the Making of American Liberalism

Carol A. Horton, 2005-09-08 Race and the Making of American Liberalism traces the roots of the contemporary crisis of progressive liberalism deep into the nation s racial past Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color blind conception of individual rights is inaccurate and misleading In contrast American liberalism has alternatively served both to support and oppose racial hierarchy as well as socioeconomic inequality more broadly Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth power and status Revitalizing such equalitarian conceptions of American liberalism Horton suggests will require developing new forms of racial and class identity that support rather than sabotage this fundamental political commitment

Radical Volunteers

Katherine J. Ballantyne, 2024-05 Radical Volunteers tells the largely unknown story of southern student activism in Tennessee between the Brown decision in 1954 and the national backlash against the Kent State University shootings in

May 1970 As one of the first statewide studies of student activism and one of the few examinations of southern student activism it broadens scholarly understanding of New Left and Black student radicalism from its traditionally defined hotbeds in the Northeast and on the West Coast By incorporating accounts of students from both historically Black and predominantly white colleges and universities across Tennessee *Radical Volunteers* places events that might otherwise appear random and intermittent into conversation with one another This methodological approach reveals that students joined organizations and became activists in an effort to assert their autonomy and as a result student power became a rallying cry across the state Katherine J Ballantyne illuminates a broad movement comprised of many different sorts of students white and Black private and public western middle and east Tennesseans Importantly Ballantyne does not confine her analysis to just campuses Indeed *Radical Volunteers* also situates campus activism within their broader communities Tennessee student activists built upon relationships with Old Left activists and organizations thereby fostering their otherwise fledgling enterprises and creating the possibility for radical change in the politically conservative region But framing student activism over a long period of time across Tennessee as a whole reveals disjuncture as much as coherence in the movement Though all case studies contain particular and representative features Tennessee s diversity lends itself well to a study of regional variations While outnumbered Tennessee student activists secured significant campus reforms pursued ambitious community initiatives and articulated a powerful countervision for the South and the United States
