Making Enemies War And State Building In Burma:

Making Enemies Mary Patricia Callahan, 2004 Sets out to explain the extraordinary durability of the Burmese military regime by examining the history of relations between the junta and society in Burma The authors unparalleled access to the military and its leaders allows her to correct existing explanations of Burmese authoritarianism and to supply new information about the coups of 1958 and 1962

Making Enemies Mary Patricia Callahan, 2018 The Burmese army took political power in Burma in 1962 and has ruled the country ever since The persistence of this government even in the face of long term nonviolent opposition led by activist Aung San Suu Kyi who was awarded the Nobel Peace Prize in 1991 has puzzled scholars In a book relevant to current debates about democratization Mary P Callahan seeks to explain the extraordinary durability of the Burmese military regime In her view the origins of army rule are to be found in the relationship between war and state formation Burma s colonial past had seen a large imbalance between the military and civil sectors That imbalance was accentuated soon after formal independence by one of the earliest and most persistent covert Cold War conflicts involving CIA funded Kuomintang incursions across the Burmese border into the People s Republic of China Because this raised concerns in Rangoon about the possibility of a showdown with Communist China the Burmese Army received even more autonomy and funding to protect the integrity of the new nation state The military transformed itself during the late 1940s and the 1950s from a group of anticolonial guerrilla bands into the professional force that seized power in 1962 The army edged out all other state and social institutions in the competition for national power Making Enemies draws upon Callahan s interviews with former military officers and her archival work in Burmese libraries and halls of power Callahan s unparalleled access allows her to correct existing explanations of Burmese authoritarianism and to supply new information about the coups of 1958 and 1962

New Frontiers of Land Control Nancy Lee Peluso, Christian Lund, 2013-09-13 Questions about land control have invigorated thinkers in agrarian studies and economic history since the nineteenth century Exclusion alienation expropriation dispossession and violence animate histories of land use property rights and territories More recently agrarian environments have been transformed by processes of de agrarianization urbanization migration and new forms of primitive accumulation Even the classic agrarian question of how the social relations of agriculture will be influenced by capitalism has been reformulated at critical historical moments reviving or producing new debates around the importance of land control The authors in this volume focus on new frontiers of land control and their active creation These frontiers are sites where established power relationships are challenged by new enclosures and property regimes producing new social and environmental dynamics in their stead Contributors examine labor and production processes engaged by new configurations of actors new agrarian and environmental subjects and the networks connecting them and new legal and violent means of challenging established or imminent land controls Overall we find that land control still matters though in changed degrees and manners Land control will continue to inspire struggles for

in Myanmar Nick Cheesman,2018-12-07 Myanmar s recovery from half a century of military rule has been fraught As in other religiously culturally and linguistically heterogeneous countries where a dictatorship has loosened a tight grip people there have wanted for democratic institutions to express and manage conflict Under these circumstances mundane and seemingly apolitical events sometimes unfold into moments of intense violence Interpreting Communal Violence in Myanmar

addresses one such violent chapter in Myanmar's recent past the communal violence that shook the country between 2012 and 2014. The violence most of it involving Buddhists attacking Muslims ranged from localised fleeting inter group melees to large scale apparently well organised state supported killing and destruction of property of a targeted community running over a number of days. The book's seven chapters comprise a response to the violence by a group of Myanmar and Southeast Asia experts. Their contributions trace the histories and contemporary features of the violence and the legal and political arrangements that made it possible. Their interpretations while specific to Myanmar also contribute to broader debate about the characteristics causes and consequences of communal violence generally. The chapters were originally published as a special issue in the *Journal of Contemporary Asia*. *Constitutional Foundings in Southeast Asia* Kevin YL Tan, Ngoc Son Bui, 2019-05-30. This volume focuses on the making nature and role of the first modern constitutions at the founding of the modern nation states in Southeast Asia. These historical essays add richly to our understanding and appreciation of the founding moments and to the theory and practice of constitutionalism in these states. This volume makes three significant contributions. First it helps plug the wide knowledge gap in comparative constitutional history in Southeast Asia. Second it furthers our understanding of contemporary constitutional practice and also anticipates possible developmental trajectories in light of the foundational values embedded in and manifested through these constitutions. Third through the comparative historical study of these early constitutions plausible theoretical insights may be gained to further our understanding of Southeast Asia's constitutional history. The book is essential reading for those wishing to obtain a deeper understanding of the constitutional foundations of Southeast Asia. **Southeast Asia Views the United States** Ann Marie Murphy, 2025-01-28. This book is a comprehensive study of Southeast Asian views of their respective countries' foreign policies towards the United States. The Southeast Asian contributors are all individuals who bridge both academia and foreign policy circles in their countries in Southeast Asia, the Indo Pacific more broadly and globally. There is a dearth of theoretically informed empirically rich literature on the foreign policies of Southeast Asian states. This volume with eight chapters written by some of Southeast Asia's leading analysts is therefore important, timely and fills a large gap in the literature. *Autonomy and Armed Separatism in South and Southeast Asia* Michelle Ann Miller, 2012. Armed separatist insurgencies have created a real dilemma for many national governments of how much freedom to grant aggrieved minorities without releasing territorial sovereignty over the nation state. This book examines different approaches that have been taken by seven states in South and Southeast Asia to try and resolve this dilemma through various offers of autonomy. Providing new insights into the conditions under which autonomy arrangements exacerbate or alleviate the problem of armed separatism, this comprehensive book includes in depth analysis of the circumstances that lead men and women to take up arms in an effort to remove themselves from the state's borders by creating their own independent polity. **Rule of Law Intermediaries** Kristina Simion, 2021-05-06. Scholars puzzle over the conditions that make rule of law development in authoritarian settings

successful In this significant contribution focusing on the decade of Myanmar's political transformation Kristina Simion explores rule of law assistance through the practice and experience of intermediaries their capital strategies and challenges How do intermediaries influence the field and the ways in which the rule of law is brokered transnationally And why do they matter Simion relates her research to law and sociology to bring to light these neglected players focusing on who they are the influence they have their double agency and their crucial importance in establishing trust and translating rule of law Relying on rich empirical data collected in Myanmar the book shares the voices of the individuals that help to steer societal change within authoritarian confines This socio legal work offers some insights into why rule of law change in authoritarian settings often does not go expected ways one of the development field's long unresolved issues *Subverting Empire* Will Jackson, Emily Manktelow, 2015-07-15 Across their empire the British spoke ceaselessly of deviants of undesirables ne'er do wells petit tyrants and rogues With obvious literary appeal these soon became stock figures This is the first study to take deviance seriously bringing together histories that reveal the complexity of a phenomenon that remains only dimly understood **New Answers to Old Questions** Aaron Connelly, Shona Loong, 2024-06-26 Outside Myanmar the 2021 coup d'état has often been portrayed as the end of a hopeful period for the country In this Adelphi book however Aaron Connelly and Shona Loong argue that the Aung San Suu Kyi government that preceded it was a false dawn unlikely to fulfil the international community's aspirations for a stable peaceful and strong Myanmar Instead the movement opposing the 2021 coup holds much greater promise despite the bloody conflict that dominates the news today Connelly and Loong survey three fundamental relationships that have shaped Myanmar before and after the coup between the military and the state between the majority Burmese and ethnic minorities and between Myanmar and the world to explain how opposition to the coup has shifted all of them in a more liberal pluralist and cosmopolitan direction Historical Dictionary of Human Rights Jacques Fomerand, 2014-02-18 This dictionary has more than 1000 cross referenced entries on terminology conventions treaties intergovernmental organizations in the United Nations family or regional bodies and the constantly expanding universe of non governmental organizations as well as some of the pioneers and defenders of human rights **Religion and Conflict in South and Southeast Asia** Linell E. Cady, Sheldon W. Simon, 2006-09-27 This is a major new contribution to comparative and multidisciplinary scholarship on the alignment of religion and violence in South and Southeast Asia Myanmar's Rohingya Genocide Ronan Lee, 2021-01-28 The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations forced migrations and extra judicial killings on an enormous scale This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of the disaster Casting new light on Rohingya identity history and culture this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide This book adds convincingly to the body of evidence that the government of Myanmar has enabled a genocide in Rakhine State

and the surrounding areas **Secrets and Power in Myanmar** Andrew Selth, 2019-09-06 No external observer knows more about Myanmar's security and intelligence apparatus than Andrew Selth. In this book he presents an account of the structure and functions of Myanmar's deep state along with a tale of personal ambition rivalry and ruthless power politics worthy of John Le Carré. A thoroughly educative entertaining and intriguing read. Professor Michael Wesley Dean College of Asia and the Pacific The Australian National University. Andrew Selth has once again amply illustrated the depth and penetration of his study of Myanmar/Burma and its institutions. This work on the more recent aspects of the country's intelligence apparatus goes beyond a masterful and comprehensive analysis of the Burmese intelligence community and probes the social and institutional bases of the attitudes giving rise to that critical aspect of power. We are once again in Dr Selth's debt. This is required reading for serious observers of the Burmese scene. David I. Steinberg Distinguished Professor of Asian Studies Emeritus Georgetown University. By lifting the lid on a pervasive yet secretive intelligence apparatus Andrew Selth makes an outstanding contribution to Myanmar Studies. For scholars and practitioners alike this book provides an essential history of a security state that remains powerful even during the transition away from overt authoritarian rule. Professor Ian Holliday Vice President Teaching and Learning The University of Hong Kong **The History of Myanmar** William J. Topich, Keith A. Leitich, 2013-01-09 This text provides a thorough examination of the history of Myanmar from Neolithic times to the present. Myanmar has experienced a seemingly endless series of conquerors dating from prehistoric times through the reign of Kublai Khan's Mongol forces beginning in the late 1200s all the way through the modern era when it was subject to both British colonial control and invasion by the Japanese during World War II. The History of Myanmar provides a detailed historical overview of the key people places and events in this often overlooked country's past and present. It examines the history of Myanmar from Neolithic times to all of its ruling dynasties to the modern era in a chronological manner providing a contextual framework for the further exploration of its complex history. This text pays special attention to the unique circumstances that led to the formation of the modern nation of Myanmar. *Extracting Natural Resources* United States Congress. Senate. Committee on the Judiciary. Subcommittee on Human Rights and the Law, 2009 **Colonizing Animals** Jonathan Saha, 2021-11-11 A pathbreaking history of British imperialism in Myanmar from the early nineteenth century to 1942 populated by animals **The Kings of Buddhism** Robert Edward Sterken Jr., 2023-05-08 The Kings of Buddhism explores the consequences of state regulation and protection of a country's majority religion. Sterken argues that religious liberty or the lack thereof results from rational interest-based calculations of both religious and state actors. Using insights dating back to Adam Smith John Locke and Thomas Jefferson Sterken argues that centuries of state support for Theravada Buddhism has corrupted the Myanmar religious marketplace. At the expense of religions and the society Myanmar's kings and military rulers have protected and regulated religion to enhance their own political survival. The consequences of state and religion entanglement include 1 a state-supported religious monopoly 2 corruption regulation and repression of

Theravada Buddhists 3 repression and violence against religious minorities 4 perpetual conflict and violence 5 a corrupt religious economy and 6 a corruption of truth The consequences of state control are stark and should serve as a warning to all who would seek to entangle religion and the state
