Making European Masculinities Sport Europe Gender:

Making European Masculinities J. A. Mangan, 2013-10-08 As sport has grown progressively replacing religion in its power to excite passion provide emotional escape offer fraternal and increasingly sororital bonding it has come to loom larger and larger in the lives of Europeans and others It has become an inescapable reality linking public environment with intimate experience and thus offers the historian an opportunity to inspect and attempt to grasp all the dimensions of the recent past and their relative share in individual and collective experience This collection considers the evolution of modern sport in Europe and examines its role in shaping masculine identity **The Making of Sporting Cultures** John

Hughson, 2013-09-13 The Making of Sporting Cultures presents an analysis of western sport by examining how the collective passions and feelings of people have contributed to the making of sport as a way of life The popularity of sport is so pronounced in some cases that we speak of certain sports as national pastimes Baseball in the United States soccer in Britain and cricket in the Caribbean are among the relevant examples discussed Rather than regarding the historical development of sport as the outcome of passive spectator reception this work is interested in how sporting cultures have been made and developed over time through the active engagement of its enthusiasts This is to study the history of sport not only from below but also from within as a means to understanding the deep relationship between sport and people within class contexts the middle class as well as the working class Contestation over the making of sport along axes of race gender and class are discussed where relevant A range of cultural writers and theorists are examined in regard to both how their writing can help us understand the making of sport and as to how sport might be located within an overall cultural context in different places and times The book will appeal to students and academics within humanities disciplines such as cultural studies history and sociology and to those in sport studies programmes interested in the historical cultural and social aspects of sport This book was published as a special issue of Sport in Society Gender, Sport, Science J. A. Mangan, Patricia Vertinsky, 2013-10-18

Roberta J Park has been throughout her distinguished career a scholar with a mission to win academic recognition of the significance of the body in culture and cultures Her scholarship has earned her global esteem in the disciplines of Physical Education and Sports Studies for its penetrating insights This selection of her writings is a well deserved tribute to her interpretive originality her intellectual acuity and her ability to inspire colleagues and students To explore unexplored patterns has been her extraordinary strength The result has been continual originality of insight These writings are thus a unique compilation of scholastic creativity of major interest to scholars and students in Sports Studies Physical Education Health Studies Sociology and Social Psychology This book was published as a special issue of the International Journal of the History of Sport **International Sport: A Bibliography, 2000** Richard William Cox, 2013-10-23 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This

is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new

Women, Horse Sports and Liberation Erica Munkwitz, 2021-07-13 Shortlisted for the 2022 Lord Aberdare Literary Prize This book is the first full length scholarly examination of British women s involvement in equestrianism from the eighteenth through the twentieth centuries as well as the corresponding transformations of gender class sport and national identity in Britain and its Empire It argues that women s participation in horse sports transcended limitations of class and gender in Britain and highlights the democratic ethos that allowed anyone skilled enough to ride and hunt from chimney sweep to courtesan Furthermore women s involvement in equestrianism reshaped ideals of race and reinforced imperial ideology at the zenith of the British Empire Here British women abandoned the sidesaddle which they had been riding in for almost half a millennium to ride astride like men thus gaining complete equality on horseback Yet female equestrians did not seek further emancipation in the form of political rights This paradox of achieving equality through sport but not through politics shows how liberating sport was for women into the twentieth century It brings into question what emancipation meant in practice to women in Britain from the eighteenth through twentieth centuries This is fascinating reading for scholars of sports history women s history British history and imperial history as well as those interested in the broader social gendered and political histories of the nineteenth and twentieth centuries and for all equestrian enthusiasts

Globalised Football Nina Clara Tiesler, Joao Nuno Coelho, 2013-10-31 When studying the social phenomena in and around football five major aspects of globalisation processes become evident international migration the global flow of capital the syncretistic nature of tradition and modernity in contemporary culture new experiences of time and space and the revolution in information technologies In an exploration of these themes the collection provides insight into academic studies of football in Portugal Germany England Spain Brazil Angola Mozambique China Japan South Korea Russia and the USA At examining football related phenomena under the headings of nations and migration myths and business the city and the dream it shows how modernised football itself is object and subject in processes of both neo liberal globalisation and counter hegemonic globalisation While the contributions highlight characteristics of particular local and national contexts the volume focuses on global centre periphery relations and migration trajectories of football professionals by analysing recent developments in post colonial Portuguese speaking areas The high ranking of Portuguese football not only serves in nationalist discourses or in order to emancipate the country from a marginal position it also turns Portugal into a football talent exporter confronting it partly with the same ambiguous consequences as Brazil and the African countries who lose their football talents to the European centre The receiving countries again include Portugal This book was previously

published as a special issue of Soccer in Society **The Beijing Olympics: Promoting China** Kevin Caffrey,2013-09-13 The Beijing 2008 Olympic ceremonies were spectacular performances and technological accomplishments by the People's Republic of China. However, the audience in Beijing was only the most overt element of a global audience receiving the message of the Games. For this global audience, the Beijing performances were a harbinger of wider regional and international ambitions, a message of intent that pointed to a larger Chinese plan to a degree not seen since the Ming dynasty. New Chinese ambitions embrace both soft power and hard power. The actor in this political drama of international scope is the Chinese state and its political ambitions on the world stage. The Beijing Olympics can be seen as its opening act and the audience as global. Rather than the kind of morality play that is typically used in China to educate the people in politics, this new production, a production on many levels, was one aimed at audiences all around the world and one that was a calculated expression of realpolitik. This book was previously published as a special issue of the International Journal of the History of Sport.

Sex, Violence and the Body V. Burr, J. Hearn, 2008-10-30 This unique book examines the relationship between wounding and sexuality, bringing together issues around sexuality, gender, power, violence, and representations. Drawing on a range of disciplines including cultural and media studies, sociology, and psychology, it explores social practices such as S/M, cosmetic surgery, and extreme sports.

The Balkan Games and Balkan Politics in the Interwar Years 1929 - 1939 Penelope Kissoudi, 2013-10-18 The Balkan Games resulted on the one hand from the growth of modern European sport and the unsatisfactory performances of the Balkan athletes at national and international level, and on the other hand from a desire to bring the Balkan peoples together in peace and concord. The Games were initiated in Athens in 1929 and increasingly became an integral part of the political, cultural, and social life of the area. The common global reality is that when an athletic event is staged, attempted friendship seldom receives priority. In the 1930s, however, the Balkan Games provided a rare example of an international athletic event bringing antagonistic states together in friendship. This consideration of the significance of the Balkan Games as an instrument of political optimism provides clear evidence of the occasional positive influence of sport in politics. The work is a case study of interest to political and social scientists and to historians of Europe and sport. This book was previously published as a special issue of the International Journal of the History of Sport.

Militarism, Hunting, Imperialism J.A. Mangan, Callum McKenzie, 2013-10-18 The late Victorian and Edwardian officer class viewed hunting and big game hunting in particular as a sound preparation for imperial warfare. For the imperial officer, in the making, the bloody hunting ritual was a visible hallmark of stirring martial masculinity. Sir Henry Newbolt, the period poet of subaltern self-sacrifice, typically considered hunting as essential for the creation of a masculine sporting spirit necessary for the consolidation and extension of the empire. Hunting was seen as a manifestation of Darwinian masculinity that maintained a pre-ordained hierarchical order of superordinate and subordinate breeds. Militarism, Hunting, Imperialism examines these ideas under the following five sections: martial imperialism, the self-sacrificial subaltern, bloodying the middle

class martial male the imperial officer hunting and war martial masculinity proclaimed and consolidated martial masculinity adapted and adjusted This book was published as a special issue of the International Journal of the History of Sport

Emigrant Players Paul Darby, David Hassan, 2013-10-18 Ireland and its inhabitants have often been described as being sports mad As a relatively small geographical entity Ireland north and south has produced a disproportionately high number of world class sports men and women who have excelled at the highest levels of their chosen sport The significance of sport in Ireland though extends far beyond the achievements of such individuals Sport has historically assumed a centrality in the lives of the island s inhabitants a fact that can be measured by the numbers and commitment of participants as well as the emotional and financial investment of fans This book seeks to address the ways in which Irish aptitude and ebullience for sport has manifested itself in those parts of the world that have or have had relatively large Irish communities The first part of the book explores the diffusion of Gaelic games to a number of centres of Irish immigration and examines the social economic political and psychological impact that these games had in helping the Diaspora adjust to life in what were often inhospitable environs The second part of the book extends the analysis by examining the contribution of Irish sports men and women to the sports culture that they encountered in their new homes and assessing the ways in which their involvement in these sports allowed them to come to terms with and make their way in their new locales This book was previously published as a special issue of the journal Sport in Society

Cricket in Colonial India 1780 – 1947 Boria Majumdar, 2013-10-18 This is an exacting social history of Indian cricket between 1780 and 1947 It considers cricket as a derivative sport creatively adapted to suit modern Indian socio cultural needs fulfil political imperatives and satisfy economic aspirations Majumdar argues that cricket was a means to cross class barriers and had a healthy following even outside the aristocracy and upper middle classes well over a century ago Indeed in some ways the democratization of the sport anticipated the democratization of the Indian polity itself Boria Majumdar reveals the appropriation assimilation and subversion of cricketing ideals in colonial and post colonial India for nationalist ends He exposes a sport rooted in the contingencies of the colonial and post colonial context of nineteenth and twentieth century India Cricket to put it simply is much more than a game for Indians This study describes how the genealogy of their intense engagement with cricket stretches back over a century It is concerned not only with the game but also with the end of cricket as a mere sport with Indian cricket s commercial revolution in the 1930s with ideals and idealism and their relative unimportance with the decline of morality for reasons of realpolitik and with the denunciation once and for all of the view that sport and politics do not mix This book was previously published as a special issue of the International Journal of the History of Sport

Beijing 2008: Preparing for Glory J.A. Mangan, Dong Jinxia, 2013-09-13 Beijing 2008 Preparing for Glory Chinese Challenge in the Chinese Century brings together international scholars with an interest in sport and politics and sinologists with an interest in China past present and future to explore global reaction to the Beijing Olympics China s anticipated moment of glory on the world stage The Beijing Olympics was

first and foremost a political act of assertion. It was also a statement of national intent, the culmination of ideological effort going back to 1949 and the outcome of political, social, cultural and economic change. From the moment of the birth of the New China, sport has been viewed as a means of internal and external projection illustrating the capacity of the system and people to more than hold their own with those of other nations. In short, sport has been the chosen stage on which the Chinese perform in pursuit of world recognition, respect and esteem. This assertion is not hard to understand. China's century of humiliation at the hands of first the West and then Japan remains a traumatic experience. Beijing 2008 was to assist the restoration of China's national self-esteem. He Zhenliang, Chairman of the IOC Commission for the Culture of Olympic Education, has remarked pointedly that the most significant outcome of the Beijing Games will be the elevation of the self-confidence and sense of pride of the Chinese people. Beijing 2008 was an act of political self-renewal on the world stage. This Collection demonstrates that sport is inseparable from politics. This book was previously published as a special issue of the *International Journal of the History of Sport*. **Japanese Imperialism: Politics and Sport in East Asia** J.A.

Mangan, Peter Horton, Tianwei Ren, Gwang Ok, 2017-10-11. This cutting-edge collection presents a political reading of the power of modern sport in Asia. Providing an interdisciplinary study of political and cultural tensions in Asia past and present through the key case study of sport, it illuminates the complex practices and legacies of Japanese imperialism across East and Southeast Asia through the 20th century and beyond. Focusing on the deep background to contemporary dynamics of intraregional tensions, it examines sport both as a tool of imperialism and as an agent of reconciliation as the region gears up to the 2020 Olympics in Tokyo. Offering a unique contribution to East Asian Studies, Colonial and Postcolonial Studies and Sport Studies, this work represents key reading for students and scholars of East Asian studies, International Politics and Sports Diplomacy. **The World Cup as World History** William D. Bowman, 2019-10-31. The World Cup as World History

uses football's premier event to analyze modern sports and world history. William D. Bowman traces the history of a tournament that has become a global phenomenon that generates intense political, economic and cultural interest and profound discussions about racial, ethnic and gender identity in the contemporary era. By focusing on the World Cup, the book keeps a tight thematic focus that allows for an integrated discussion of the core issues of globalization, money and finance, sport as spectacle, race and gender and contemporary politics. *A Dictionary of Sports Studies*, *The 1940 Tokyo Games: The Missing Olympics* Sandra Collins, 2014-01-21. By representing their experience of modernity as different from the West in their respective Olympic Games, Asian nations reveal much about the ambitions and anxieties of being an Asian host in the continuing western Olympic hegemony. This original work explores the encounter between the East and the West by analyzing the deliberate self-presentational cultural diplomacy historically required of Asian Olympic hosts. Exploring the relationship between Modern Asia and the Olympic Games, it focuses on the forgotten history of the 1940 Tokyo Olympics to reveal the complex and fascinating encounter between Japan and the world in the 1930s. The book is the first full account of

this encounter and draws substantially on Japanese sources hitherto unknown in the English speaking world It argues that this encounter sets the scene and the tone for later Asian involvement in the Olympic Movement It includes chapters on Imperial Commemoration and Diplomacy the Japanese Fascist Olympics the Event Japanese Style the Spectre of 1940 in Later Asian Olympics This work fills a gap in the literature and provides an original addition to the history of Japanese culture Asian cultures and the Olympic Movement This book is a special issue of The International Journal of the History of Sport

The Lady Footballers James Lee, 2013-09-13 This book tells the story of the Lady Footballers It covers their 1895 and 1896 tours through the eyes of the largely unsympathetic British press It explains gender issues of the time and the financial problems that doomed this experiment Despite increasing opportunities in sport for British women during the late nineteenth century virtually every segment of society opposed the idea of women playing football In 1895 Nettie Honeyball and Florence Dixie formed the British Ladies Football Club BLFC intending to introduce the game to women and girls as a means of recreation and profit over 10 000 spectators crowded the football ground in London to watch the BLFC in its first match Nearly every London newspaper covered the event These women endured public ridicule They ignited the gender prejudice of the time and confronted it head on wearing men s kit and playing men s rules Football s mystique was that it was a manly sport for men thus these women footballers symbolized a paradox those playing well were gender freaks those not playing well proved it was a male game This book was published as a special issue of the International Journal of the History of Sport

American National Pastimes - A History Mark Dyreson, Jaime Schultz, 2016-04-14 When the colonies that became the USA were still dominions of the British Empire they began to imagine their sporting pastimes as finer recreations than even those enjoyed

in the motherland From the war of independence and the creation of the republic to the twenty first century sporting pastimes have served as essential ingredients in forging nationhood in American history This collection gathers the work of an all star team of historians of American sport in order to explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports These wide ranging essays analyze the claims of particular sports to national pastime status from horse racing hunting and prize fighting in early American history to baseball basketball and football more than two centuries later These essays also investigate the legal political economic and culture patterns and the gender ethnic racial and class dynamics of national pastimes connecting sport to broader historical themes American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation This book was published as a special issue of the International Journal of the History of Sport
