A BROADBAND COMPANY combines Internet, telecommunications, and cable television to “deliver your world to you.” A home appliances company advertises its new washer and dryer as products beautifully designed not only to carry out their basic uses but also to decorate the home and function with minimal environmental impact. These companies do more than simply mass produce products and make a profit; their intention is to create meaningful experiences for their customers. According to *Making Meaning* by Steve Diller, Nathan Shedroff, and Darrel Rhea, a meaningful experience with a product does not occur when a consumer uses a product; a meaningful experience occurs when a product becomes part of and improves the consumer’s life. For a teenage girl, a meaningful experience might occur when a new service lets her and her friends download and listen to music together, thus developing a sense of community for her. A meaningful experience is apparent when, for example, a man talks about his relationship with a soft drink in the same way he talks about his wife.

*Making Meaning* establishes that the practice of creating meaningful products and services should be a deeply rooted corporate belief and that the practice should be pervasive throughout all departments of a corporation. In other words, a commitment to making meaning should be real, not just part of an image that is projected to the

## **Making Meaning How Successful Businesses Deliver Meaningful Customer Experiences:**

Making Meaning Steve Diller, Nathan Shedroff, Darrel Rhea, 2005-12-21 We're now hip deep if not drowning in the experience economy. Here's the smartest book I've read so far that can actually help get your brand to higher ground fast. And it's written by people who not only drew the map but blazed these trails in the first place. Brian Collins, Executive Creative Director, Ogilvy Mather Worldwide Brand Integration Group. In a market economy characterized by commoditized products and global competition, how do companies gain deep and lasting loyalty from their customers? The key, this book argues, is in providing meaningful customer experiences. Writing in the tradition of Louis Cheskin, one of the founding fathers of market research, the authors of *Making Meaning* observe, define, and describe the meaningful customer experience. By consciously evoking certain deeply valued meanings through their products, services, and multidimensional customer experiences, they argue, companies can create more value and achieve lasting strategic advantages over their competitors. A few businesses are already discovering this approach, but until now, no one has articulated it in such a persuasive and practical way. *Making Meaning* not only encourages businesses to adopt an innovation process that's centered on meaning; it also tells you how. The book outlines a plan of action and describes the attributes of a meaning-centric innovation team. With insightful real-world examples drawn from the Cheskin company's experience and from the authors' observations of the contemporary global market, this book outlines a plan of action and describes the attributes of a meaning-centric innovation team. Meaningful experiences, as distinct from trivial ones, reinforce or transform the customer's sense of purpose and significance. The authors' vision of a world of meaningful consumption is idealistic, but don't be fooled: this is a straightforward business book with an eye on the ROI. It shows how to bring R&D, design, and marketing together to create deeper and richer experiences for your customers. *Making Meaning: How Successful Businesses Deliver Meaningful Customer Experiences* is an engaging and practical book for business leaders explaining how their companies can create more meaningful products and services to better achieve their goals. **Making Meaning**, 2006

**Making Meaning how Successful Businesses Deliver Meaningful Customer Experiences** Steve Diller, 2006 **Contemporary Tourist Experience** Richard Sharpley, Philip Stone, 2014-06-23 This significant and timely volume aims to provide a focused analysis into tourist experiences that reflect their ever-increasing diversity and complexity and their significance and meaning to tourists themselves. Written by leading international scholars, it offers new insight into emergent behaviours, motivations, and sought meanings on the part of tourists based on five contemporary themes determined by current research activity in tourism: experience conceptualization of tourist experience, dark tourism experiences, the relationship between motivation and the contemporary tourist experience, the manner in which tourist experience can be influenced and enhanced by place, and how managers and suppliers can make a significant contribution to the tourist experience. The book critically explores these experiences from multidisciplinary perspectives and includes case studies from a wide range of geographical regions. By

analyzing these contemporary tourist experiences the book will provide further understanding of the consumption of tourism
