

The Making of a PHILOSOPHER

My Journey Through
TWENTIETH-CENTURY PHILOSOPHY

"The Making of a Philosopher is brilliantly written, devastatingly honest, often very funny, and tells a personal story as fascinating as the philosophical one."

—Oliver Sacks, M.D.

colin MCGINN

Making Of A Philosopher My Journey Through Twentieth Century Philosophy

Kate Bassett

Making Of A Philosopher My Journey Through Twentieth Century Philosophy:

The Making of a Philosopher Colin McGinn, 2011-08-09 Part memoir part study The Making of a Philosopher is the self portrait of a deeply intelligent mind as it develops over a life on both sides of the Atlantic The Making of a Philosopher follows Colin McGinn from his early years in England reading Descartes and Anselm to his years in the states first in Los Angeles then New York McGinn presents a contemporary academic take on the great philosophical figures of the twentieth century including Bertrand Russell Jean Paul Sartre and Noam Chomsky alongside stories of the teachers who informed his ideas and often became friends and mentors especially the colorful A J Ayer at Oxford McGinn s prose is always elegant and probing students of contemporary philosophy and the general reader alike will absorb every page

The Philosopher's Autobiography Shlomit C. Schuster, 2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change

The Cambridge Companion to Philosophical Methodology Giuseppina D'Oro, Søren Overgaard, 2017-02-16 The volume provides clear and comprehensive coverage of the main methodological debates and approaches within philosophy The book gives equal weight to analytical and continental approaches and pays attention to approaches that are often overlooked

Memoir Ethics Mike W. Martin, 2016-02-10 *Memoir Ethics Good Lives and the Virtues* is a philosophical study of moral themes in memoirs exploring how memoirists present and defend perspectives on good lives It pays particular attention to the interplay of the virtues including their interplay with additional non moral types of values in good lives More generally it explores the relevance of memoir to moral philosophy and in turn how moral philosophy enters into elucidating and critiquing memoirs Memoirs are understood as non fiction narratives written by oneself and significantly about oneself including full life autobiographies Mike W Martin explores perspectives on good lives as they are expressed in memoirs written by both philosophers and non philosophers Most of the chapters focus on one of the generic aspects of good lives moral goodness authenticity meaningfulness happiness health and self fulfillment The book clarifies how memoirists often employ life based arguments in defending value perspectives and it includes a discussion of whether philosophers memoirs are distinctive compared to memoirs by non philosophers and also compared to other forums for doing philosophy Martin highlights some parallels between features of good lives and features of memoirs for example both can be said to be meaningful authentic and having virtues such as wisdom and courage Demonstrating how memoirs are rich resources in exploring the good lives and exploring ways in which philosophical ethics provide tools for interpreting

memoirs Memoir Ethics will be of interest to a broad audience of students scholars and general readers including anyone interested in ethics or the connections between literature and philosophy *In Pursuit of the Inconceivable* Peter Jones,2025-09-30 A comprehensive explanation of the relationship between formal scholastic metaphysics and the philosophical foundation of mysticism and the Perennial philosophy **Philosophy , The Realist Turn** Douglas B. Rasmussen,Douglas J. Den Uyl,2020-08-05 Douglas B Rasmussen and Douglas J Den Uyl maintain that a realist turn namely one in which the natural order is the basis for individual rights is needed to bring about a proper understanding and defense of liberty They argue that the critical character of individual rights results from their being tethered to metaphysical realism After reprising their explanation and defense of natural rights Rasmussen and Den Uyl explain metaphysical realism and defend it against neo pragmatist objections They show it to be a formidable and preferable alternative to epistemic constructivism and crucial for a suitable understanding of ideal theory **The Power of Movies** Colin McGinn,2008-12-10 How is watching a movie similar to dreaming What goes on in our minds when we become absorbed in a movie How does looking into a movie screen allow us to experience the thoughts and feelings of a movie s characters These and related questions are at the heart of *The Power of Movies* a thoughtful invigorating and remarkably accessible book about a phenomenon seemingly beyond reach of our understanding Colin McGinn an ingenious philosopher who thinks like a laser and writes like a dream according to Steven Pinker enhances our understanding of both movies and ourselves in this book of rare and refreshing insight *Mindworlds* J. Andrew Ross,2015-10-06 Understanding consciousness is one of the central scientific challenges of our time This book presents Andy Ross s recent work and discusses a range of perspectives on the core issues The chapters are based on texts written for a variety of occasions and audiences Reading them in order one senses a growing clarity in the articulation of the new ideas some of which are deep and rather subtle and glimpses the outlines of a dynamic field Ross has taken pains to unify the collection and make the main thread clearly visible His new ideas are of fundamental importance and readers who grapple with them should gain insight that amply rewards the effort [Anatomy of Spirituality: Portrait of the Soul](#) Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and

eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul

Consciousness Anthony Freeman,2003-10-10 An exciting introduction to consciousness research and its applications to our waking and sleeping moments Once the domain of philosophers the study of consciousness is now an exciting branch of science Author Anthony Freeman managing editor of the Journal of Consciousness Studies opens Consciousness with a history of mind study from the ancient Greeks to the present and provides a multidisciplinary review of cognitive science Freeman untangles the conflicting theories on the working of the brain analyzing the techniques developed for its study over the years Seeing v believing mind body connections zombies and assembly line robots are just the beginning Even chaos theory and quantum physics are relevant with opposing approaches inciting disciplinary battles This illustrated and accessible volume introduces key researchers like Wilder Penfield who talked with his conscious sister while operating on her brain tumor

Redefining Reason Bradley W. Patterson,2018-11-16 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional nonliterate societies The issue was a question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species Redefining Reason offers the first in depth critical history of that debate and its repercussions in modern Western thought and society Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality a chapter itself in or in an aspect of a much larger story the story of what may be appropriately referred to as the hyperrationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers

In Two Minds Kate Bassett,2014-10-01 In Two Minds is the first comprehensive biography of Jonathan Miller the story of one of post war Britain s most intriguing polymaths Descended from immigrants who fled Tsarist anti Semitism to become shopkeepers in Ireland and London s East End Miller was born into an intellectual milieu between Bloomsbury and Harley Street the son of a novelist and a leading child psychiatrist Miller trained as a doctor but then forged a career as a stellar comedian and as a world renowned theatre and opera director He is a controversial humorist public intellectual and TV personality As a star in the groundbreaking satirical revue Beyond the Fringe he shot to fame alongside Peter Cook Dudley Moore and Alan Bennett His expertise and interests encompass many areas from medicine he wrote and presented the hugely acclaimed BBC documentary series The Body in Question to the history of art Mozart atheism and the nature of laughter Jonathan Miller is one of the most multi talented Britons of his generation celebrated for his dazzling intelligence and anti establishmentarian wit Drawing on in depth interviews this is an entertaining and illuminating portrait of a

fascinatingly complex man *More Book Lust* Nancy Pearl, 2009-09-29 Whether you're searching for the perfect read for yourself or for a friend *More Book Lust* offers eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling *Book Lust* popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job *Living Your Dream* offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef *Fiction For Foodies* includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe *Crime is a Globetrotter* features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book's introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I'm Nancy P and I'm a readaholic *Booklist* magazine plays off this obsession while echoing a sentiment of Nancy Pearl's fans everywhere A self-confessed readaholic Pearl lets us benefit from her addiction May she never seek recovery Indeed [Reading Sartre](#) Jonathan Webber, 2010-10-04 *Reading Sartre* is an indispensable resource for students of phenomenology existentialism ethics and aesthetics and anyone interested in the relationship between phenomenology and analytic philosophy Specially commissioned chapters examine Sartre's achievements and consider his importance to contemporary philosophy **Mind and Emergence** Philip Clayton, 2004-10-29 Strong claims have been made for emergence as a new paradigm for understanding science consciousness and religion Tracing the past history and current definitions of the concept Clayton assesses the case for emergent phenomena in the natural world and their significance for philosophy and theology Complex emergent phenomena require irreducible levels of explanation in physics chemistry and biology This pattern of emergence suggests a new approach to the problem of consciousness which is neither reducible to brain states nor proof of a mental substance or soul Although emergence does not entail classical theism it is compatible with a variety of religious positions Clayton concludes with a defence of emergentist panentheism and a Christian constructive theology consistent with the new sciences of emergence **The Limits of Dream** J. F. Pagel, 2010-07-28 *The Limits of Dream* focuses on what we currently know of the human central nervous system CNS examining the basic sciences of neurochemistry neuroanatomy and CNS electrophysiology as these sciences apply to dream then reaching beyond basic science to examine the cognitive science of dreaming including the processes of memory the perceptual interface and visual imagery Building on what is known of intrapersonal CNS processing the book steps outside the physical body to explore artificially created dreams and their use in filmmaking art and story as well as the role of dreaming in creative process and creative madness The limits of our scientific knowledge of dream frame this window that can be used to explore the border between body and mind What is known scientifically of the cognitive process of dreaming will lead the neuroscientist the student of cognitive science and the general reader down different paths than expected into an exploration of the fuzzy and complex horizon between mind and brain The clearest presentation of research and philosophy currently available relating to

the mind brain interface Discusses the cognitive processes of dreaming utilized in film and artificial intelligence Describes the functioning of dream in the creative process

Dream Science J. F. Pagel, 2014-02-05 Dreaming is the cognitive state uniquely experienced by humans and integral to our creativity the survival characteristic that allows for the rapid change and innovation that defines our species and provides the basis for our art philosophy science and humanity Yet there is little empiric or scientific evidence supporting the generally accepted dream based theories of neuroconsciousness Dream Science examines the cognitive science of dreaming and offers an evidence based view of the phenomenon Today such evidence based breakthroughs in the field of dream science are altering our understanding of consciousness Different forms of dreaming consciousness occur throughout sleep and dreamlike states extend into wake Each dream state is developed on a framework of memories emotions representational images and electrophysiology amenable to studies utilizing emerging and evolving technology Dream Science discusses basic insights into the scientific study of dreaming including the limits to traditional Freudian based dream theory and the more modern evidence based science It also includes coverage of the processes of memory and parasomnias the sleep disturbance diagnoses related to dreaming This comprehensive book is a scientific exploration of the mind brain interface and a look into the future of dream science Provides a more evidence based approach than any other work on the market Single source of integrated information on all aspects of dream science makes this a critical time saving reference for researchers and clinicians Authored by one of the leaders in the field of dream research

When Reason Goes on Holiday Neven Sesardic, 2016-11-15 Philosophers usually emphasize the importance of logic clarity and reason Therefore when they address political issues they will usually inject a dose of rationality in these discussions right Wrong This book gives a lot of examples showing the unexpected level of political irrationality among leading contemporary philosophers The body of the book presents a detailed analysis of extreme leftist views of a number of famous philosophers and their occasional descent into apology for and occasionally even active participation in totalitarian politics Most of these episodes are either virtually unknown even inside the philosophical community or have received very little attention The author tries to explain how it was possible that so many luminaries of twentieth century philosophy who invoked reason and exhibited rigor and careful thinking in their professional work succumbed to irrationality and ended up supporting some of the most murderous political regimes and ideologies The huge leftist bias in contemporary philosophy and its persistence over the years is certainly a factor but it is far from being the whole story Interestingly the indisputably high intelligence of these philosophers did not actually protect them from descending into political insanity It is argued that on the contrary both their brilliance and the high esteem they enjoyed in the profession only made them more self confident and less cautious thereby eventually making them blind to their betrayal of reason and the monstrosity of the causes they defended

Mediating Gender in African Social Media Shepherd Mpofu, Kealeboga Aiseng, 2025-09-18 Through African case studies this book explores how gender and sexuality are articulated on social media While the representation of gender

in mainstream media has been studied for many decades this book fills a gap by focusing on social media platforms like Facebook X Instagram and Tik Tok and examining representation commodification and sexuality on these platforms The contributors hold a mirror to society and reflect on the issues in our current world of empowerment where sexuality and gender preferences are respected and sexual rights are protected by constitutions in progressive democracies Through their research Shepherd Mpofu Kealeboga Aiseng and the contributors strive to alter the male gaze commercial benefits of commodification and African culture as benefited and influenced by patriarchal societies
