persons **Challenging the Modern World** Samuel Gregg, 2002-10-01 Moral theologian Samuel Gregg addresses issues surrounding the Pope's personal influence on developments in Catholic social teaching. He compares the treatment of industrial relations, capitalism, and relations between developed and developing countries in John Paul's three social encyclicals with the handling of these three topics in the teachings of the Council and Paul VI, arguing that John Paul's critical engagement with the modern world has contributed significantly to Catholic social teaching, particularly its moral anthropological dimensions. Annotation copyrighted by Book News Inc. Portland, OR *Religion, Economics, and Public Policy* Andrew D. Walsh, 2000-06-30 As Americans seem bent on dismantling the safety net of the New Deal era, the most popular version of the culture wars thesis paints an arguably cosmic battle between defenders of religious orthodoxy who embrace laissez-faire capitalism and secular elites who have imposed a Marxist welfare state upon an unsuspecting populace. Walsh shows that this thesis ignores the role of religious leaders in legitimizing the types of programs embodied in America's approach to the welfare state. Walsh explores the arguments of William Jennings Bryan, America's foremost fundamentalist who opposed Social Darwinism often associated with the defense of laissez-faire capitalism; John Ryan, the Catholic priest whose writings foreshadowed Roosevelt's New Deal legislation; Reinhold Niebuhr, the influential mainstream Protestant leader who defended America's Cold War strategy of containment while opposing laissez-faire capitalism; and the arguments of influential African American Protestant and Jewish leaders. Finally, he looks at the role of religious leaders in the contemporary debates over issues such as health care and welfare reform. Whenever possible, the relationship between the official views of the religious leaders is analyzed in light of the opinions and voting patterns of their constituents. The opinions and voting patterns of secular Americans are also contrasted to those of religious Americans. Of particular interest to scholars, students, and general readers concerned with the role of religion in American politics Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so. These include a number of recent edited volumes, each covering a range of topics and consolidating many of the emerging insights in ecological theology. The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature, also in South Africa **Christ, Power and Mammon** Scott Thomas Prather, 2013-08-15 This book examines the role of the New Testament concept of the principalities and powers in the thought of Karl Barth and John Howard Yoder, showing how this biblical concept of power is central to the fundamental theological convictions of each thinker. Prather offers a scholarly account of the underexplored theological and ethical import of a major biblical theme, and the book addresses questions and concerns from a wide range of academic and lay theological interest. He brings Barth and Yoder into dialogue here and examines the three crucial areas: the confessional distinction of church and world, the demonization of political power, and the intrinsic relation between the political and economic powers. While other theologians have rightly identified a Christocentric connection between the

thought of Barth and Yoder no attempt has been made to bring them together through the sustained analysis of a single doctrinal or ethical issue this book does just that **Violence, Religion, Peacemaking** Douglas Irvin-Erickson, Peter C. Phan, 2016-09-09 This volume explores how religious leaders can contribute to cultures of peace around the world The essays are written by leading and emerging scholars and practitioners who have lived taught or worked in the areas of conflict about which they write Connecting the theory and practice of religious peacebuilding to illuminate key challenges facing interreligious dialogue and interreligious peace work the volume is explicitly interreligious intercultural and global in perspective The chapters approach religion and peace from the vantage point of security studies sociology ethics ecology theology and philosophy A foreword by David Smock the Vice President of Governance Law and Society and Director of the Religion and Peacebuilding Center at the United States Institute of Peace outlines the current state of the field

Introducing Protestant Social Ethics Brian Matz, 2017-03-14 Despite their rich tradition of social concern Protestants have historically struggled to articulate why whether and how to challenge unethical social structures This book introduces Protestants to the biblical and historical background of Christian social ethics inviting them to understand the basis for social action and engage with the broader tradition It embraces and explains long standing Christian reflection on social ethics and shows how Scripture and Christian history connect to current social justice issues Each chapter includes learning outcomes and chapter highlights **Less Than Two Dollars a Day** Kent A. Van Til, 2007-03-02 Christian tradition demands basic sustenance for all as a human right Yet the contemporary capitalist economy makes no such demands and the free market is not designed to provide basic human sustenance As Western Christians how ought we to solve this conundrum Kent Van Til maintains that the gulf between the two calls for an alternative system of distribution In this constructively critical work Van Til takes a hard look at the realities of life in a free market system including illuminating examples from his own experience in Latin America He considers how the contemporary capitalist economy guides the distribution of goods around the world and he examines the inadequacies of this system Drawing heavily on the ideas of political theorist Michael Walzer and nineteenth century theologian statesman Abraham Kuyper Van Til proposes an alternative system of distributive justice equalizing the claims to both burdens and benefits

Personalism in John Paul II Kleetus K. Varghese, 2005 Study on the social doctrines of John Paul II Pope 1920 2005 The Genius of John Paul II Richard A. Spinello, 2006-11-08 In this exciting new book renowned ethicist Richard

Spinello offers the first comprehensive presentation of the late John Paul II's great moral vision. Here admirers may read and understand the essential teachings of the pope in his own words as Spinello draws on his extensive research into John Paul II's writings and talks. Subjects covered include reverence for life, concern for the poor and suffering, moral law, conscience, moral choice, intrinsically evil acts, freedom and goodness. The purpose of this book is two-fold: it not only persuasively presents the late pope's vital teachings but also defends them against his critics. This important new work preserves and promotes the extraordinary legacy of John Paul II by focusing on his championing of universal human dignity and objective moral truths.

Eclipse of Justice George E. McCarthy, Royal W. Rhodes, 2008-12-21 A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All, the American bishops' pastoral letter on Catholicism and the U.S. economy. McCarthy and Rhodes examine the letter's focus on poverty, inequality, and powerlessness in American society. They review classical concepts of social ethics and economic justice as applied by the bishops to analyze the social, political, and economic institutions of America. By examining reactions to the letter from both the political left and right, *Eclipse of Justice* opens up the full range of debate about the nature of social ethics. The first part of *Eclipse of Justice* presents the moral dilemma created by the bishops' critique of liberalism; they pronounced it a social and moral scandal and explores the antecedents, papal, episcopal, and lay, that provided the ideas and vocabulary for the bishops' letter. The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism. The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues and probes the contributions of liberation theology and dependency theory.
