The Heaviest Blow Patrick A. Smythe, 2004 The author examines responses within the international Catholic community to the annexation and rule of East Timor by Indonesia from 1975 1999 Theoretically the Catholic Church is committed to prioritise the needs of the poorest and weakest members of the human family but the evidence put forward here reveals that there were significant

shortcomings in its reaction to the plight of the East Timorese Yet the Church also played a crucial role in their eventual achievement of independent nationhood This study scrutinises the disposition of the Catholic community in several countries closely involved in the issue of East Timor Indonesia Portugal Australia Japan Britain the United States and of the Vatican and calls upon the Church to live up to its own social doctrine Bishop Carlos Belo Apostolic Administrator emeritus of the Diocese of Dili East Timor comments in an Afterword to the book This excellent study carries concrete lessons for the global community as we face the many challenges of the new millennium In essence how can we best help our brothers and sisters who often suffer in silence This book helps to answer that question

Comparative Democratization and Peaceful Change in Single-Party-Dominant Countries M. Rimanelli,2016-01-26 One of the more positive international trends as of late has been the transformation of several countries from authoritarian based dictatorships and single party systems into multi party democracies characterized by peaceful political transitions In this volume a group of experts are gathered to analyse this progression on a comparative level The scholars examine previously right wing regimes in Brazil Argentina and South Africa former Communist states in Russia Poland Hungary and Czechoslovakia and single party dominant democracies in Italy Japan Mexico and Israel The essays reveal how the dramatic collapse of the USSR functioned as a crucial catalyst in allowing pent up domestic pressures for change to emerge in a less charged international environment In addition the chapters study the historical and current

evolution of these countries focusing on their success in developing long term pluralistic structures and gauging whether these recent trends are more overnight fads than long lasting advancements

The Struggle for Europe William I. Hitchcock, 2008-11-26 From the ashes of World War II to the conflict over Iraq William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability tolerance democracy and prosperity Exploring the role of Cold War politics in Europe s peace settlement and the half century that followed Hitchcock

reveals how leaders such as Charles de Gaulle Willy Brandt and Margaret Thatcher balanced their nations interests against the demands of the reigning superpowers leading to great strides in economic and political unity He re creates Europeans struggles with their troubling legacy of racial ethnic and national antagonism and shows that while divisions persist Europe stands on the threshold of changes that may profoundly shape the future of world affairs **Trust in the Capacities of the People, Distrust in Elites** Kenneth Good,2014-10-15 Democratization is a sociopolitical process and the society that may grow out of it where people make decisions on matters affecting them It is an unending struggle to win such rights and power to hold and to extend them The contending classes are essentially the poor and weak majority of the people and the elite of wealth status and power This book begins with the study of politics in democratic Athens 508 322 BCE and how it revolved around the divisions between an uneducated poor majority of citizens and a small wealthy elite All citizens were deemed equally capable of holding political office and life in democratic Athens was itself an education through the wide political experience a citizen necessarily acquired The second study is of Britain s centuries long and profoundly incomplete democratization polarizing usually the urban poor unequally against the Grandees the oligarchy and subsequent elites A third exemplifier is South Africa beginning in the 1970s 80s when two big processes were going on simultaneously an external armed struggle led by the African National Congress ANC and a path breaking domestic democratization represented by the United Democratic Front and the trade unions The democratization that emerges here is a matter of aspiration and impulse by determined men and women which fail more often than they succeed yet appear again in other times and places Two main models of democracy are in contention A representative form revolving around free elections in which competing elites get themselves elected utilizing their wealth and celebrity The liberal form achieved preeminence in Britain and the United States over some 150 years but is now under serious threat from its own dysfunctionalities and the alienation of its citizens from its institutions and their elitist self serving values And there is the participatory model now being approached again since the mid 1970s in many places from Portugal Poland and Czechoslovakia to South Africa Tunisia Egypt and Iceland Many such impulses will fail but they offer hope and on the record immense satisfaction to their participants *The First Global Village* MARTIN PAGE,2011-08-01 Portugal is Europe s south western extremity washed by the Atlantic and warmed by the Mediterranean sun Alone among iberia s ancient kingdoms in its independence from Spain it is a nation about half the size of Florida with two thirds the population Yet over centuries it has influenced the lives of the rest of us far more than many much larger and more powerful countries **Lisbon rising** Pedro Ramos Pinto,2015-11-01 Lisbon rising explores the role of a widespread urban social movement in the revolutionary process that accompanied Portugal s transition from authoritarianism to democracy It is the first in depth study of the widest urban movement of the European post war period an event that shook the balance of Cold War politics by threatening the possibility of revolution in Western Europe Using hitherto unknown sources produced by movement organisations themselves it challenges long established views of civil

society in Southern Europe as weak arguing that popular movements had an important and autonomous role in the process that led to democratisation inviting us to rethink the history and theories of transitions in the region in ways that account for popular agency Lisbon rising will be of interest not only to students of twentieth century European history but across disciplines to students of democratisation social movements and citizenship in political science and sociology **Barbarism and Civilization** Bernard Wasserstein, 2009 History **Rethinking Democratisation in Spain, Greece and Portugal** Maria Elena Cavallaro, Kostis Kornetis, 2019-04-23 This edited collection explores the ways in which the 2008 2009 social and economic crisis in Southern Europe affected the interpretation of the transitional past in Spain Greece and Portugal Discussing topics such as public memory Europeanism and uses of the past by grassroots movements the volume showcases how the crisis challenged consolidated perceptions of the transitions as success stories It revisits the dominant historical narratives around Southern European transitions to democracy more than forty years since the demise of authoritarian regimes bringing together contributors from history cultural studies political science and sociology
