J. Withers, 2013-09-12 This volume of Geographers Biobibliographical Studies brings together essays on four Frenchmen a Czech and three Englishmen The lives of our subjects extend from the late Enlightenment and the era of polite science in Regency Britain to the first decade of the 21st century These geographers and their studies are linked not only in their regional expertise from Brazil French Indo China to Scandinavia and South Africa but also by their commitment to the development of geography as a science and as a discipline Here in different settings and at different times we can see how the lived experience of geographers lives shaped the contours of the subject *Merseypride* John Belchem, 2006 With a new introduction that takes account of the extraordinary renaissance that Liverpool is currently enjoying the second edition of this collection by one of the leading scholars of the city's history offers a timely and perceptive examination of the origins and persistence of Liverpool's exceptionalism **BOOK JACKET** [Routledge Revivals: Localities \(1989\)](#) Philip Cooke, 2016-09-19 First published in 1989 this book examines seven different localities ranging from the outer suburbs of large northern cities to small freestanding town which were prospering in the 1980s or struggling against the negative employment effects of restructuring Within the theoretical frame of industrial restructuring it traces the development of each locality exploring in depth the influence of several key elements deindustrialisation technological change the shift to the services in employment on social composition political change and local policy A major contribution to locality studies this book is essential reading for students of urban and regional studies and sociology [Urban Redevelopment and Modernity in Liverpool and Manchester, 1918-1939](#) Charlotte Wildman, 2016-09-22 This book is open access and available on www.bloomsburycollections.com It is funded by Manchester University Faced with economic decline unprecedented levels of unemployment and new forms of political extremism during Britain's last great economic crash politicians and planners in Liverpool and Manchester responded by investing in dramatic and ambitious programmes of urban regeneration Urban

Redevelopment and Modernity in Liverpool and Manchester 1918 1939 is the first book to provide the hitherto unknown story of the innovative transformation of these cities Charlotte Wildman challenges academic scholarship in British history which associates the post 1918 period with the emasculation of local government and the decline of civic culture She shows that local politicians planners architects businessmen and even religious leaders embraced innovative trends in creating distinct forms of urban modernities which particularly changed the way women experienced the transformed city Urban Redevelopment and Modernity in Liverpool and Manchester 1918 1939 offers a complex interactive and multipolar interpretation of the ways cities develop pointing to new methods and ways of understanding both interwar Britain and urban history more generally At a time of debate and discussion about devolution and decentralisation of government this book makes an opportune contribution to debates about urban governance and regionalism in contemporary Britain

The Structure of Nineteenth Century Cities James H Johnson, Colin Pooley, 2021-06-29 When this book was first published in 1982 despite considerable research on 19th Century towns in Britain and America there had been little attempt to search for links between these empirical studies and to relate them more to more general theories of 19th Century urban development The book provides an integrated series of chapters which discuss trends and research problems in the study of 19th Century cities It will be of value to researchers in urban geography social history and historical geography

City of Change and Challenge Chris Couch, 2017-11-22 This title was first published in 2003 Over the last 30 years Liverpool has undergone more economic restructuring and urban change than virtually any other city in Britain and Europe It has also been a testing ground for almost every experiment and innovation in modern urban policy City of Change and Challenge analyses the urban planning and regeneration experience in Liverpool over this period In doing so it considers the extent to which the pressure to create jobs has led to economic development aims consistently taking precedence over environmental and social concerns and the degree to which regeneration has been dominated by centralised and top down approaches without a strong strategic planning framework It also discusses why some policies and programmes have been more successful than others and what lessons might be learned not only by Liverpool's future policy makers but also by planners politicians and academics throughout the world

A Bibliography of British History, 1914-1989 Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index
