Isaac Albéniz Walter Aaron Clark, 2002 Walter Aaron Clark's detailed and accurate account of the first in English of one of the most intriguing figures of the Romantic period is now available in paperback. Isaac Albéniz (1860-1909) a renowned concert pianist created a national style of Spanish piano music and also fostered the growth in Spain of the concerto, orchestral music and opera. His career was to become the stuff of legend: a touring child prodigy who supposedly stowed away on a steamer to the New World; he later studied with Liszt and eventually became ensnared in a Faustian pact with the wealthy English librettist Frances Burdett Money Coutts. Based on a wealth of new and previously overlooked documentary evidence, this biography debunks the mythology surrounding Albéniz's career, much of it spun by the composer himself, and reveals a complex individual who was able to capture the mystery of Spain in his music, yet who in reality felt estranged from his homeland.

Paraguayan Musical Nationalism in the Symphonies of Florentín Giménez Alfredo Colman, 2025-09-30 This study of the music and career of Florentín Giménez discusses the various ways in which he expressed his Paraguayan cultural identity and musical nationalism through his symphonies. Florentín Giménez (1925-2021) stands as one of the most prolific Paraguayan composers of both concert and folk music style works. Colman argues that not only Giménez's musical nationalism was a lens to reflect an ideal Paraguayan cultural identity but indeed a means to develop it. Topics are approached with a threefold goal in mind: to provide a biography of the composer; to consider the various cultural themes associated with his compositions; and to give an overview of his symphonies. A chronological list of his compositions, including the dates of their premieres, soloists, ensembles, and conductors, appears in the Appendix as a reference guide.
