The future of television news is now Are you ready for it Television news which has played a crucial role in the world's most momentous events from wars and royal weddings to mankind's first steps on the Moon is in the midst of a digital fuelled revolution In its early years TV news was monopolised by large corporations and state broadcasters who controlled what went on air and when Then technological advances in the 1980s enabled billionaires like Ted Turner and Rupert Murdoch to muscle in and beam 24 hour news channels across the world via cable and satellite Today we are living through a third turbulent iteration streaming over the internet is radically changing how television is produced watched and delivered It has so dramatically lowered the costs of entry into what was once the exclusive domain of governments multinationals and tycoons that almost anyone can now set up their own global news channel But in such a fragmented world awash with fake news who and what can we trust In this stimulating and authoritative study Zafar Siddiqi who has launched and run four news channels across three continents discusses the profound implications of this new era Aimed at entrepreneurs media students industry insiders and anyone interested in TV news and its effect on humankind it serves as a step by step guide for launching a news channel in the digital age They say that revolutions do not come with a manual This one does *The Business of TV Production* Craig Collie,2007-08-06

Television is the dominant mass medium of the current era Its lifeblood in whatever form it takes is content the programs it broadcasts to the public This book is an insider's view of the business of production of TV programs for university level courses and for those in the industry wanting to upgrade their skills It is the story of the TV producer and the leadership of creative people the management of resources of production including funding and the guiding of the production process Covering all genres of television drama and comedy documentary and current affairs infotainment and reality TV it goes step by step through the journey from program idea to program delivery and beyond *International News in the Digital Age* Judith Clarke,Michael Bromley,2012-01-25 The new research presented in this volume suggests that general perceptions cultural psychological geographical allied to the customs and values of journalism and underpinned by the uses of technology significantly shape international news This gives rise to a blend of the old and the new traditions of cultural centredness and innovative practices anchorages of place

and the rootlessness of globalization Technology per se has not swept all before it On the other hand its uses have altered the means and methods of international news sourcing construction and dissemination Consequently the uptake of technology has contributed to fundamental changes in style and form and has greatly facilitated cross cultural exchanges The category international news is now more of a hybrid as recognized by the BBC and others The chapters in this book demonstrate that this hybridity is unevenly distributed across geo political domains and often across time Nevertheless as the contributors to this volume show the concept of international news relies on tightly interwoven elements of orthodox journalism social media civic expression and public assembly
