Davies, Geoffrey L. Hudson, 2024-07-15 Although Canadian history has no shortage of stories about disasters and accidents the phenomena of risk upset and misfortune have been largely overlooked by historians Disasters get their due but not so the smaller scale accident where fate is more intimate Yet such events often have a vivid afterlife in the communities where they happen and the way in which they are explained and remembered has significant social cultural and political meaning *An Accidental History of Canada* brings together original studies of an intriguing range of accidents stretching from the 1630s to the 1970s These include workplace domestic childhood and leisure accidents in colonial Indigenous rural and urban settings Whether arising from colonial power relations urban dangers perils in resource extraction or hazardous recreations most accidents occur within circumstances of vulnerability and reveal precarity and inequities not otherwise apparent Contributors to this volume are alert to the intersections of the settler agenda and the elevation of risk that it brings Indigenous and settler ways of understanding accidents are juxtaposed with chapters exploring the links between accidents and the rise of the modern state *An Accidental History of Canada* makes plain that whether they are interpreted as an intervention by providence a miscalculation an inevitability or the result of observable risk accidents and our responses to them reveal shared values
