

A hand with a blue sleeve reaches from the left side of the frame towards a bright sun. The sun is low on the horizon, creating a lens flare effect. The background is a soft-focus landscape with a body of water and a hazy sky. The text is overlaid on the right side of the image.

the Berlin Wall and the collapse of the Soviet bloc it examines the historical significance and the world brought about by 1989 When the Cold War ended in Europe it ushered in a world in which the international agenda is set outside Europe in America or Asia The book critically examines and moves beyond some of the conveniently simple paradigms proposed in the nineties by leading political scientists such as Fukuyama and Huntington to show how the events of 1989 meant different things to different parties This was an anti utopian revolution a symbol of the possibility of non violent transitions to democracy which raised the hopes of world wide democratic changes Contributors show how 1989 can be seen as the founding moment of a globalized world but equal attention should be given to the dispersion of its meanings and the exhaustion of some of its main trends associated with the post 1989 era Europe was reunited yet it is in crisis Twenty years on global markets have brought about a global financial crisis The fall of the Berlin Wall was celebrated as the advent of free movement in a world without borders Now however we can see that new borders walls fences have since been built With an introductory essay by Vaclav Havel 1989 as a Political World Event will be of interest to scholars of European Politics and International Relations
