**No Idle Hands** Anne L. MacDonald,2010-11-17 Fascinating What is remarkable about this book is that a history of knitting can function so well as a survey of the changes in women s rolse over time The New York Times Book Review An historian and lifelong knitter Anne Macdonald expertly guides readers on a revealing tour of the history of knitting in America In No Idle Hands Macdonald considers how the necessity and the pleasure of knitting has shaped women s lives Here is the Colonial woman for whom idleness was a sin and her Victorian counterpart who enjoyed the pleasure of knitting while visiting with friends the war wife eager to provide her man with warmth and comfort and the modern woman busy creating fashionable handknits for herself and her family Macdonald examines each phase of American history and gives us a clear and compelling look at life then and now And through it all we see how knitting has played an important part in the way society has viewed women and how women have viewed themselves Assembled from articles in magazines knitting brochures newspaper clippings and other primary sources and featuring reproductions of advertisements illustrations and photographs from each period No Idle Hands capture the texture of women s domestic lives throughout history with great wit and insight Colorful and revealing vivid This book will intrigue needlewomen and students of domestic history alike The Washington Post Book World      **POINTers** ,1998      **Algorithms and Data Structures** Pat Morin,Subhash Suri,2023-07-27 This book constitutes the refereed proceedings of the 18th International Symposium on Algorithms and Data Structures WADS 2023 held during July 31 August 2 2023 The 47 regular papers presented in this book were carefully reviewed and selected from a total of 92 submissions They present original research on the theory design and application of algorithms and data structures

**Mind-Society** Paul Thagard,2019-01-30 How do minds make societies and how do societies change Paul Thagard systematically connects neural and psychological explanations of mind with major social sciences social psychology sociology politics economics anthropology and history and professions medicine law education engineering and business Social change emerges from interacting social and mental mechanisms Many economists and political scientists assume that individuals make rational choices despite the abundance of evidence that people frequently succumb to thinking errors such as motivated inference Much of sociology and anthropology is taken over with postmodernist assumptions that everything is

constructed on the basis of social relations such as power with no inkling that these relations are mediated by how people think about each other Mind Society displays the interdependence of the cognitive and social sciences by describing the interconnections among mental and social mechanisms which interact to generate social changes ranging from marriage patterns to wars Validation comes from detailed studies of important social changes from norms about romantic relationships to economic practices political institutions religious customs and international relations This book belongs to a trio that includes Brain Mind From Neurons to Consciousness and Creativity and Natural Philosophy From Social Brains to Knowledge Reality Morality and Beauty They can be read independently but together they make up a Treatise on Mind and Society that provides a unified and comprehensive treatment of the cognitive sciences social sciences professions and humanities

**Innovating** Luis Perez-Breva, 2018-08-28 Discover the MIT developed doer s approach to innovation with this guide that reveals you don t need an earth shattering idea to create a standout product service or business just a hunch that you can scale up to impact Innovation is the subject of countless books and courses but there s very little out there about how you actually innovate Innovation and entrepreneurship are not one and the same although aspiring innovators often think of them that way They are told to get an idea and a team and to build a show and tell for potential investors In Innovating Luis Perez Breva describes another approach a doer s approach developed over a decade at MIT and internationally in workshops classes and companies He shows that innovating doesn t require an earth shattering idea all it takes is a hunch Anyone can do it By prototyping a problem and learning by being wrong innovating can be scaled up to make an impact As Perez Breva demonstrates nothing is new at the outset of what we only later celebrate as innovation In Innovating the process illustrated by unique and dynamic artwork is shown to be empirical experimental nonlinear and incremental You give your hunch the structure of a problem Anything can be a part Your innovating accrues other people s knowledge and skills Perez Breva describes how to create a kit for innovating and outlines questions that will help you think in new ways Finally he shows how to systematize what you ve learned to advocate communicate scale up manage innovating continuously and document you need a notebook to converse with yourself he advises Everyone interested in innovating also needs to read this book **The**

Strawn, 2011-05-13 Enhanced with more than three hundred images a comprehensive history of knitting in America includes twenty historical knitting patterns *Showroom City* John Joe Schlichtman, 2022-06-07 A unique and engaging account of local urban decision making within the globalizing world High Point North Carolina is known as the Furniture Capital of the World Once a manufacturing stronghold most of its furniture factories have closed over the past forty years with production shipped off to low wage countries Yet as manufacturing left the city tightened its hold on a biannual global exposition that serves as the world's furniture fashion runway At the High Point Market visitors from more than one hundred nations traverse twelve million square feet of meticulous design Downtown buildings once courthouses movie theaters post offices and gas stations are now chic showroom spaces even as many sit empty between each exposition In *Showroom City* John Joe Schlichtman applies an ethnographic lens to the global exposition's relationship with High Point after it defeated rival Chicago in the 1960s and established itself as the world's dominant furniture center In recent decades following trends in global finance private equity firms were increasingly behind downtown High Point's real estate transactions coordinated by

buyers far removed from the region Then in one massive transaction in 2011 a firm funded by Bain Capital purchased every major showroom building and the majority of downtown real estate was under one owner Showroom City is a story of exclusionary growth and unchecked development of a city flailing to fill the void left by its dwindling factories But beyond that Schlichtman engages the general lessons behind both High Point s deindustrialization and its stunning reinvention as a furniture fashion merchandising and design node With great nuance he delves deeply to reveal how power operates locally and how citizens may affirm exploit influence and resist the takeover of their community **Field and Stream** ,1924
