Patterns Of Soviet Thought The Origins Development Of Dialectical Historical Materialism:

Patterns of Soviet Thought Richard T. De George, 1966 Marxism Leninism as a way of thinking is foreign to most Westerners but it permeates the thought of nearly a third of educated mankind Patterns of Soviet Thought traces the development of the Marxist Leninist philosophy clarifies its meaning in theory and practice and emphasizes its position in the Soviet Union Based on the writings of Marx Engels and Lenin and on contemporary Soviet writings this book reveals the basic patterns that make up the modern Soviet worldview How can both the Chinese and the Soviets quote Lenin to support opposing positions How could an educated Soviet citizen accept the official about face concerning Stalin How can the same citizen condemn the United States morally while admiring many of its citizens and emulating its standard of living To answer questions like these we need to understand the ambiguities and contradictions of Soviet thought They are its philosophical Achilles heel but they also help to shape it and give it resiliency in the face of facts Written for the intelligent general reader Patterns of Soviet Thought summarizes the works of major and minor philosophers from Marx to the present and offers a detailed critique of their important ideas It provides the basis for an understanding of present day Soviet policies and of the developments that are to mold the future course of the Soviet Union *Patterns of Soviet Thought; the Origins and*

Development of Dialectical and Historical Materialism [by] Richard T. DeGeorge Richard T. De George, 1970 Mao Tse-Tung's Theory of Dialectic F.Y.K. Soo, 2012-12-06 The year 1979 ushered in a new phase in China's long and continuous revolution Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations Agriculture Industry Science and Technology and Military Defense Such an all encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long term goals of the Chinese Revolution national independence and modernization or industrialization The former would make China strong the latter wealthy For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949 China has always pursued these two revolutionary goals though with different emphases at different times This has been especially true during the past three decades as this twofold goal has dictated all of China's important policies both domestic and foreign In other words while the concrete policies may have appeared to be lacking in unity at times they have been formulated with the specific intent of achieving national independence and modernization From this perspective the New Long March marks the passage of post Mao China beyond the transition of succession toward the continued pursuit of the same revolutionary goals

USSR: Strategic Survey United States. Department of the Army, 1969 *Soviet Historiography of Philosophy* Evert van der Zweerde, 2013-06-29 Scientific history of philosophy was one of the professional branches of Soviet philosophy and a place where philosophical culture was preserved in an often hostile environment Situated between the ideological exigencies

of the Soviet system with its Marxist Leninist theoretical foundation and the need for an objective account of philosophy's past Soviet history of philosophy displays the characteristic features of Soviet philosophy as a whole including a forceful reappearance of its Hegelian background This book is the only Western monograph on this important part of Soviet philosophy thus filling the last main gap in Western Philosophical Sovietology At the same time it offers the first survey of Soviet philosophy after the disappearance of the Soviet system itself embarking on an historical and meta philosophical investigation of Soviet philosophical culture The book will be of interest to students of Soviet and Russian philosophy historians of philosophy and specialists in Soviet studies *Beyond Marx and Mach* K.M. ALEKSANDR BOGDANOV On April 7 1928 the career of one of the most extraordinary figures of Russian and early Soviet intellectual life came to an abrupt and premature end In the process of an experiment on blood transfusion Aleksandr Aleksandrovich Malinovsky better known as Bogdanov had exchanged his blood with that of a critically ill malaria victim in hopes of saving both the patient and his blood The outcome of this may be guessed both doctor and patient died forthwith Although an extraordinary venture on Bogdanov's part for it was part of a search for the means to immortality the transfusion experiment was only one of a host of startling things he had done in his thirty years in Russian politics and public life In actuality the activities and achievement of his two years as director of the Soviet Union's first institute for the study of blood transfusion seem virtually insignificant beside the events of earlier years It would be fair to say that Aleksandr Bogdanov stood in a singularly prominent position in the political and intellectual life of Russia from the turn of the century to 1930 Politically he had been Lenin's only serious rival for leadership among the Bolsheviks before 1917 In the early years of the Soviet regime Bogdanov stood head and shoulders above any other public figure operating outside the ranks of the Party Only a handful of men i e

American intellectual history The New Labor Radicalism and New York City's Garment Industry Leigh David Benin, 2019-02-21 First published in 2000 This study examines how Progressive Labor an antirevisionist offshoot of the Communist Party USA attempted to revolutionize the labor front in New York City's garment industry during the 1960s An ideologically driven group whose founders were loyal to Stalinism and attracted by Maoism Progressive Labor set out in 1962 to become the vanguard of the American working class *Intl Biblio Pol SC 1966* Blpes, 1968-02 First published in 1968 Routledge is an imprint of Taylor Francis an informa company Professional Journal of the United States Army , 1968-07

An Annotated Bibliography of Selected Unclassified Materials Published During 1967 on Problems of Development and Internal Defense , 1968* **Philosophy and Politics in China** Werner Meissner, 1990 A Stanford University Press classic **Review of Current Military Literature** , 1968 **Science and Ideology in Soviet Society** George Fischer, 2017-07-28 Set within the context of an era referred to as the age of science as well as the age of ideologies this volume explores how the Soviet Union responded to the impacts and interactions of both science and ideology between 1917 and 1967 Non specialists as well as experts are apt to disagree sharply about or to be ignorant of the mutual relationship But even if the system is defunct the issues remain This book divides its attention among four different fields of science cybernetics economics philosophy and sociology The authors believe that the disciplines discuss revealing trends in Soviet science in general and its interaction with an established though not immutable ideology in particular The authors conducted a pioneering examination of the mutual influence of ideology and science and the problems and opportunities created for government by the new scientific revolution Specifically they hold that in the 1960s Soviet science or at least the disciplines covered here helped sustain the established system and its ideology rather than weaken them This volume is of historical interest and provides insight into how one may explore the ways science and ideology interact **The Soviet Polity** John Stephen Reshetar, 1978 Li Da And Marxist Philosophy In China Nick Knight, 2018-02-23 Scholars of Marxism will be in Nick Knight's debt for this pioneering study of one of the most important figures in the development of Marxism in China Knight makes an important case about the relationship of Chinese Marxist thought to Marxist thought in general with particular attention to Soviet Marxism The book makes available to readers not just important texts of Chinese Marxism but a whole series of texts of Marxism that were crucial to the political discourse of the thirties Knight displays impressive erudition and command of these texts In spite of the strong case he makes for his thesis he retains throughout an admirable critical self awareness that enhances the plausibility of his argument Arif Dirlik Duke University **International Socialist Review** , 1967 Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be

considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the *Dictionary of Modern American Philosophers* offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought. *Slavic Review*, 1986
