**Perspectives on Igwebuike Philosophy:** Chiugo C. Kanu Ph.D,Kanayo L. Nwadiolor Ph.D,Philip Adah Idachaba PhD,2019-10-18 The study of African philosophy like all great philosophical enquiries around the world is fraught with the wrecks of words wrenched from their original meaning widened or narrowed and forced into a bewildering variety of vessels that chum their ways in seas of semantic confusion African philosophical studies has acquired and added to the many philosophical verbal transmogrifications that came originally from the Igbo of south eastern Nigeria In its turn it has produced its own eccentric philosophical etymology of which perhaps the most striking example is Igwebuike philosophy A reflection on Igwebuike philosophy reveals that it is a product of a meticulous and critical study of African philosophy It is in this light that the scrupulous researcher would dissect the profound thinker behind the Igwebuike philosophy In this book scholars of different hues and academic endeavours have made excursus into the origin originator meaning and relevance of Igwebuike philosophy to contemporary African philosophical scholarship and African societies Research shows that the brain behind Igwebuike philosophy that is gradually becoming a major part of African philosophical engagement is incontestably Prof Ikechukwu Anthony Kanu O S A Igwebuike itself is a philosophical principle that is drawn from African primordial practice of solidarity and complementarity the works of professional African philosophers African proverbs African folk tales African mythology African symbols African names and African songs Kanayo L Nwadiolor Ph D Nnamdi Azikiwe University Awka      *Transforming Education for Peace* Jing Lin,Edward J. Brantmeier,Christa Bruhn,2008-06-01 Currently peace education remains marginalized in our education system however a united front can be formed and powerful paradigms can empower educators to play a critical role in peace building through scholarship practice and activism Indeed educators around the world are developing effective strategies to transform education as a powerful force for global peace The diverse array of contributors in the book demonstrate that educators as peace makers can be and have been instrumental in transforming social forces the self and others for the construction of global peace The book aims to broaden the educational discourse in order to make room for new visions to educate future generations for peace Local and global efforts to build a long lasting peace are presented through the lens of education The timeliness of peace education surely renders this book relevant to educators and the general public alike as individuals communities and organizations struggle to find pathways to peace in a global world In other words this book will interest scholars and the general public concerned about the building of global peace The book can be source book for educators at elementary secondary and postsecondary institutions to explore multiple ways to conduct effective peace education at all levels of education The book may also be used as a textbook by instructors of multicultural education of comparative international education and of undergraduate and graduate peace education courses      *Peacebuilding with Women in Ukraine* Maureen

Flaherty,2012-07-23 Twenty years post independence Ukraine remains split still floundering toward viable democracy Active participation in civic affairs required for democracy is unfamiliar for most Ukrainian citizens having internalized centuries of divisive oppression under a series of authoritarian regimes Democracy building and peace building require participant agency and voice rising out of oppression people often need support to speak about and transform their lived experiences Peacebuilding with Women in Ukraine Using Narrative to Envision a Common Future by Maureen P Flaherty explores the roles women s shared narrative dialogue and group visioning play in the support of personal empowerment and bridge building between diverse communities Despite participants initial beliefs that their regional counterparts shared little in common with them in the process of telling their personal life stories women were able to reflect upon their own values and strengths and with this rooting they were then able to reach out to others Rather than looking for differences participants sought ways to express a shared vision for an inclusive functional peace building future for themselves their families and Ukraine as a whole Peacebuilding with Women in Ukraine is a model for emancipatory social action and social change while the women s stories offer a window into the formative years and present day lives of eighteen women born and raised in the Soviet Union This study is a unique contribution to peace studies and to the history and building of a country that has most often had its history written for it

**The Political Economy of Transitions to Peace** Galia Press-Barnathan, 2009-07-05 Much attention has focused on the ongoing role of economics in the prevention of armed conflict and the deterioration of relations In The Political Economy of Transitions to Peace Galia Press Barnathan focuses on the importance of economics in initiating and sustaining peaceful relations after conflict Press Barnathan provides in depth case studies of several key relationships in the post World War II era Israel and Egypt Israel and Jordan Japan the Philippines and Indonesia Japan and South Korea Germany and France and Germany and Poland She creates an analytical framework through which to view each of these cases based on three factors the domestic balance between winners and losers from transition to peace the economic disparity between former enemies and the impact of third parties on stimulating new cooperative economic initiatives Her approach provides both a regional and cross regional

comparative analysis of the degree of success in maintaining and advancing peace of the challenges faced by many nations in negotiating peace after conflict and of the unique role of economic factors in this highly political process Press Barnathan employs both liberal and realist theory to examine the motivations of these states and the societies they represent She also weighs their power relations to see how these factor into economic interdependence and the peace process She reveals the predominant role of the state and big business in the initial transition phase cold peace but also identifies an equally vital need for a subsequent broader societal coalition in the second normalizing phase warm peace Both levels of engagement Press Barnathan argues are essential to a durable peace Finally she points to the complex role that third parties can play in these transitions and the limited long term impact of direct economic side payments to the parties **Rediscovering**
