**Gauguin's 'nirvana'** Paul Gauguin, Wadsworth Atheneum Staff, Stephen H. Kornhauser, Wadsworth Atheneum Museum of Art, Wadsworth Atheneum, 2001-01-01 Shortly before Gauguin made his first Tahitian journey in 1891 he spent nearly two years in the remote Breton fishing village of Le Pouldu Seeking creative isolation in a primitive setting he pursued his art accompanied by several followers One of them was the Dutch painter Meyer de Haan who was able to pay the living expenses in Le Pouldu and was also knowledgeable in literary and philosophical matters that fascinated Gauguin Their association resulted in some of Gauguin's most remarkable works including the Wadsworth Atheneum's symbolist portrait of de Haan inscribed *Nirvana* This and the rich variety of paintings and sculpture by Gauguin produced in 1889-90 are the focus of this beautiful book Gauguin and de Haan settled into an inn at Le Pouldu run by an attractive unwed mother named Marie Henry who began a liaison with de Haan despite the fact that he was a sickly hunchback The intensity of relations between Gauguin and de Haan is reflected in many of the works including frescoes which they installed in the inn Gauguin's time in Le Pouldu was crucial to the advancement of his art and the vivid Breton subjects and personality of Meyer de Haan remained in his imagination to reappear even during his later Tahitian period In this book several distinguished experts draw on previously unavailable sources to examine in depth the history of this period Gauguin's relationship with de Haan their interest in religion and exotic cultures and the meaning of the many innovative symbolist works they produced

**History of a Shiver** Jed Rasula, 2016-02-26 An abrupt break in the prevailing modes of artistic expression for many marks the advent of modernism in the early twentieth century but revisionary attempts to pin down a precise moment of its emergence remain disputed *History of a Shiver* proffers a different

approach tracing the first inkling of modernism instead to the nineteenth century's fascination with music. As Jed Rasula deftly shows, melomania, the passion for music, gave rise to concepts like Richard Wagner's endless melody and the Gesamtkunstwerk or total work of art, which in turn infused the arts of the fin de siècle with an aura of expectancy, challenging them to induce musical effects by their own means. With each art aspiring to produce the effects of another artistic medium, a synesthetic yearning ran like a shiver through the body of art that would emerge over the next half century. Rasula traces this pan-arts polyphony from German Romantic theory to early experiments in visual music encompassing such diverse phenomena as American fixation on Arcadia, early film theory, and the lure of the fourth dimension. All the while, he keeps focus on the paramount historical consequence in elevating music to a new universal aesthetic standard, arguing that Wagnerism was first among modernisms. In surveying this momentous interplay among arts, *History of a Shiver* ranges from literature, music, and painting to theatre, cinema, dance, photography, and civic pageantry. It retells the story of modernism by recovering not an idea but a feeling, the hair-raising potential for each painting, literary text, or musical composition to herald an unprecedented domain of human enterprise. The Routledge Companion to Music and Visual Culture Tim

Shephard, Anne Leonard, 2013-07-31 As a coherent field of research, the field of music and visual culture has seen rapid growth in recent years. *The Routledge Companion to Music and Visual Culture* serves as the first comprehensive reference on the intersection between these two areas of study, an ideal introduction for those coming to the field for the first time as well as a useful source of information for seasoned researchers. This collection of over forty entries from musicologists and art historians from the US and UK delineates the key concepts in the field in five parts: Starting Points, Methodologies, Reciprocation, the musical in visual culture and the visual in musical culture, Convergence in metaphor in conception and in practice, Hybrid Arts. This reference work speaks to the important questions concerning this burgeoning field of research: what are the established approaches to studying musical and visual cultures side by side? What have been the major points of contact between these two areas, and what kind of questions can this interdisciplinary research address moving forward? *The Routledge Companion to Music and Visual Culture* is an indispensable guide for anyone interested in the field of music and visual culture. **Years of Ferment** UCLA Art Council, 1965 *Gauguin* Paul Gauguin, 1992 I am leaving to Tahiti where I shall hope to end my days. My art I regard as no more than a tender shoot, though one that I hope to develop into a wild and primitive growth. The European Gauguin has ceased to exist, and nobody will ever see any of his works here again. With these words, Paul Gauguin set off on a voyage that would not only irrevocably change his own life and work but also the entire course of modern art. This volume combines for the first time the artist's public expressions of his world, his paintings, with his private correspondence to his estranged wife, his agent, and his illustrious contemporaries such as Strindberg and van Gogh. Gauguin vividly describes his creative movements as well as the details of his daily life, most poignantly his consuming worries about health and finances. The book is illustrated throughout with many of Gauguin's most ambitious and beautiful

canvases Watercolors and pencil sketches illuminate the early stages of these major works and illustrated journal pages and rare vintage photographs reveal the people and places he knew An invaluable insight into Gauguin s life this volume is equally important for its determined look at the transgressive spirit of those artists who challenge the conventions of their time to create an art of the future

Edward Elgar Christopher Grogan,2020-12-02 The first full length study of the English composer s complex interaction with his physical environment and its new relevance in the 21st century More perhaps than any other composer Edward Elgar 1857 1934 has gained the status of an icon of locality his music seemingly inextricably linked to the English landscape in which he worked This the first full length study of Elgar s complex interaction with his physical environment explores how it is that such associations are formed and whether it is in any sense true that Elgar alchemized landscape into music It argues that Elgar stands at the apex of an English tradition going back to Blake in which creative artists in all media have identified and warned against the self harm of environmental degradation and that following a period in which these ideas were swept away by the swift but shallow tide of Modernism in the decades after the First World War they have since resurfaced with a new relevance and urgency for twenty first century society Written with the non specialist in mind yet drawing on the rich resources of post millennial scholarship on Elgar as well as geographical studies of place the book also includes many new insights relating to such aspects of Elgar s output as his use of landscape typology in *The Apostles* and his encounter with Modernism in the late chamber music It also calls on the resources of contemporary social commentary poetry and especially English landscape art to place Elgar and his thought in the broader cultural milieu of his time A survey of recent recordings is included in the hope that listeners both familiar and unfamiliar with Elgar s music will feel inspired to embark on a voyage of re discovery of its endlessly rewarding treasures
