Paul Virilio John Armitage,2000-05-24 Paul Virilio is one of the most significant and stimulating French cultural theorists writing today Increasingly hailed as the archaeologist of the future Virilio is noted for his proclamation that the logic of ever increasing acceleration lies at the heart of the organization and transformation of the contemporary world The first book to afford a properly critical evaluation of Virilio s cultural theory it includes an interview with Virilio a recently translated example of his work and a select bibliography of his writings The commissioned contributions by leading cultural and social theorists examine Virilio s work from his early speculations on military and urban space to his current writings on dromology politics new communications technologies disappearance and the fallout from the information bomb **Paul Virilio** John Armitage,2000-11-13 Paul Virilio is one of the most significant and stimulating French cultural theorists writing today Increasingly hailed as the archaeologist of the future Virilio is noted for his proclamation that the logic of ever increasing acceleration lies at the heart of the organization and transformation of the contemporary world The first book to afford a properly critical evaluation of Virilio s cultural theory it includes an interview with Virilio a recently translated example of his work and a select bibliography of his writings The commissioned contributions by leading cultural and social theorists examine Virilio s work from his early speculations on military and urban space to his current writings on dromology politics ne Transmodern Literatures in the 21st Century Claus-Peter Neumann,Pilar Royo-Grasa,2025-09-30 Transmodern Literatures in the 21st Century Of f Limits offers an in depth examination of how transmodern literatures in English over the last two decades have addressed the phenomenon of the limit The 14 chapters that make up the volume examine how geographical racial ethnical sociocultural generical ontological epistemological and other limits are articulated transgressed and reconfigured in recent narratives by authors writing in a wide variety of transmodern trends such as Afro and Africanfuturism Young Adult feminist science fiction food fiction air travel fiction the networked novel and future narratives amongst others They thereby expose and challenge hierarchised binary dichotomies as Euro and Anthropocentric exclusionary discursive constructs that have kept non hegemonic voices off limits To counter the detrimental effects of the neoliberal grand narrative of globalisation the chapters as well as the narratives of the limit they analyse emphasise an urgent need for inclusiveness relationality and communality *Virilio Live* John Armitage,2001-08-21 Edited by one of the leading Paul Virilio authorities this book offers the reader a guide through Virilio s work Using the interview form Virilio speaks incisively and at length about a vast assortment of cultural and theoretical topics including architecture and speed space chronopolitics art and technoculture modernism postmodernism and hypermodernism the time of the trajectory and the information bomb His thoughts on Foucault Baudrillard Deleuze and Guattari the performance artist Stelarc the Persian War and the Kosovo War are also gathered together **Virilio for Architects** John Armitage,2015-06-26 Paul Virilio is an innovative figure in the study of architecture space and the city Virilio for Architects primes readers for their first encounter

with his crucial texts on some of the vital theoretical debates of the twenty first century including *Oblique Architecture* and *Bunker Archeology* *Critical Space* and the *Overexposed City* *The Ultracity* and *Very High Buildings* *Grey Ecology* and *Global Hypermovement* In exploring Virilio's most important architectural ideas and their impact John Armitage traces his engagement with other key architectural and scientific thinkers such as Claude Parent Benoit B Mandelbrot and Bernard Tschumi Virilio for Architects allows students researchers and non academic readers to connect with Virilio's distinctive architectural theories critical studies and fresh ideas

New Directions for Criminology Ronnie Lippens, Patrick van Calster, 2010 Criminology by its very nature as a non disciplinary field of research and scholarship has always relied on theoretical perspectives derived from external disciplines and bodies of literature for its constant renewal The editors of *New Directions for Criminology* chose to consult scholars from outside the criminological community to demonstrate how the latest theoretical work in their field can be made fruitful for criminology All contributors are familiar with the fundamentals of criminological theories and research and all are well placed to clearly make the connections between the cutting edge of their field of research and its potential for criminology *New Directions for Criminology* makes a distinction between papers that elaborate on the usefulness of particular theories and perspectives for criminology and papers that outline particular research themes which will be of interest to those working within the broader criminological community Contents include Why Criminal Law Why Break It If Broken Then What Criminology and Assemblage Theory Criminology and Deleuzoguattarism Criminology and Lacan's Psychoanalytical Approach Criminology and Forms of Life Foundations and Origins as Criminological Objects Criminological Conversations Criminological Tribes

Trauma, Postmodernism and the Aftermath of World War II P. Crosthwaite, 2009-01-29 The first sustained study of the relationship between Anglo American postmodernist fiction and the Second World War Crosthwaite demonstrates that postmodernism has not abandoned history but has rather reformulated it in terms of trauma that is traceable time and again to the catastrophes of the 1940s

From Agamben to Zizek Jon Simons, 2010-09-10 In these 15 taster essays you will discover the key concepts and critical approaches of the theorists who have had the most significant impact on the humanities since 1990

Routledge Handbook of Sport and New Media Andrew Billings, Marie Hardin, 2014-01-10 New media technologies have become a central part of the sports media landscape Sports fans use new media to watch games discuss sports transactions form fan based communities and secure minutiae about their favorite players and teams Never before have fans known so much about athletes whether that happens via Twitter feeds fan sites or blogs and never before have the lines between producer consumer enactor fan and athlete been more blurred The Internet has made virtually everything available for sports media consumption it has also made understanding sports media substantially more complex The *Routledge Handbook of Sport and New Media* is the most comprehensive and in depth study of the impact of new media in sport ever to be published Adopting a broad interdisciplinary approach the book explores new media in sport as a cultural social commercial economic and

technological phenomenon examining the profound impact of digital technologies on that the way that sport is produced consumed and understood There is no aspect of social life or commercial activity in general that is not being radically influenced by the rise of new media forms and by offering a state of the field survey of work in this area the Routledge Handbook of Sport and New Media is important reading for any advanced student researcher or practitioner with an interest in sports studies media studies or communication studies **The Natural Law Reader** Jacqueline A. Laing,Russell

Wilcox,2013-09-23 The Natural Law Reader features a selection of readings in metaphysics jurisprudence politics and ethics that are all related to the classical Natural Law tradition in the modern world Features a concise presentation of the natural law position that offers the reader a focal point for discussion of ancient and contemporary ideas in the natural law tradition Draws upon the metaphysical and ethical categories put forth and developed by Aristotle and Aquinas Points to the historical significance and contemporary relevance of the Natural Law tradition Reflects on a revival of interest in the tradition of virtue ethics and human rights The Video Game Theory Reader Mark J.P. Wolf,Bernard Perron,2013-10-08 In the early

days of Pong and Pac Man video games appeared to be little more than an idle pastime Today video games make up a multi billion dollar industry that rivals television and film The Video Game Theory Reader brings together exciting new work on the many ways video games are reshaping the face of entertainment and our relationship with technology Drawing upon examples from widely popular games ranging from Space Invaders to Final Fantasy IX and Combat Flight Simulator 2 the contributors discuss the relationship between video games and other media the shift from third to first person games gamers and the gaming community and the important sociological cultural industrial and economic issues that surround gaming The Video Game Theory Reader is the essential introduction to a fascinating and rapidly expanding new field of media studies

Spatial Ecologies Verena Andermatt Conley,2012-04-13 This book takes a new look at the spatial turn in French cultural and critical theory since 1968 It examines how key thinkers inc Henri Lefebvre Michel de Certeau Jean Baudrillard Marc Aug Paul Virilio Bruno Latour and Etienne Balibar reconsider the experience of space in the midst of considerable political and economic turmoil **Escape Into the Future** John Stroup,Glenn W. Shuck,2007 Escape into the Future analyzes the power

of pessimism showing links between present day religious pessimism and the nihilism of popular culture Stroup and Shuck rummage through an interesting and eclectic body of pop culture from Fight Club to X Files to the Left Behind series pointing out the presence of pessimistic themes throughout This volume identifies and illuminates the religious language used in these works to articulate America s need to escape from its present cultural path and ultimately provide hope that it might do so *Deleuze and Environmental Damage* Mark Halsey,2017-05-15 This book offers a post structuralist critique of the problems associated with modernist accounts of environmental harm and regulation Through a notably detailed micro political analysis of forest conflict the author explores the limits of academic commentary on environmental issues and suggests that the traditional variables of political economy race and gender need to be recast in light of four key modalities

through which the environment and environmental damage are re produced Focusing on vision speed lexicon and affect the book engages a new ethic for categorizing and regulating nature and challenges criminologists sociologists cultural theorists and others to reconsider what it is possible to say and do about environmental problems

Affect, Architecture, and Practice Akari Nakai Kidd,2021-05-17 Affect Architecture and Practice builds on and contributes to work in theories of affect that have risen within diverse disciplines including geography cultural studies and media studies challenging the nature of textual and representational based research Although numerous studies have examined how affect emerges in architectural spaces little attention has been paid to the creative process of architectural design and the role that affect plays in the many contingencies and uncertainties that arise in the process The book traces the critical philosophic and architectural theories to examine how affect architecture and practice are interlinked Through a series of conversations and reflections it examines three key contemporary architects their practices and projects all within a single coherent theme Reiser Umemoto RUR Architecture DPC USA Kerstin Thompson Architects Australia and Shigeru Ban Architects Japan are critically studied through the lens of different aspects of practice namely image making the design process and the making of an everyday object material Through this investigation author Akari Nakai Kidd demonstrates how affect theory allows a critical interrogation of the in between of practice its liminality and limits It questions the stability of objects the smooth temporality of practice and its often under conceptualised non human dimensions More significantly the book demonstrates architectural practice s contribution to the reconceptualisation of theories of affect

Grace and Gravity Lars Spuybroek,2020-11-26 How do we live well The first sentence of Grace and Gravity raises the fundamental question that constantly occupies our minds and of all those who lived before us Paradoxically the impossibility of answering this question opens up the very room needed to find ways of living well It is the gap where all disciplines fall short where architecture does not fit its inhabitants where economy is not based on shortage where religion cannot be explained by its followers and where technology works far beyond its own principles According to Lars Spuybroek the prize winning former architect this marks the point where the paradoxical machine of grace reveals its powers a point where we cannot say if we are moving or being moved Following the trail of grace leads him to a new form of analysis that transcends the age old opposition between appearances and technology Linking up a dazzling and often delightful variety of sources monkeys paintings lamp posts octopuses tattoos bleeding fingers rose windows robots smart phones spirits saints and fossils with profound meditations on living death consciousness and existence Grace and Gravity offers an eye opening provocation to a wide range of art historians architects theologians anthropologists artists media theorists and philosophers

The Winchester Guide to Keywords and Concepts for International Students in Art, Media and Design Annie Makhoul,Simon Morley,2014-06-25 This welcome new resource for international students in art design and media provides clear explanations of the terminology they must master in order to fulfill their academic potential and enrich their professional careers Offers a much requested new resource

that fills a gap in the academic market Tailored specifically to the needs of international students in art design and media Color coded key words and phrases for quick reference Includes sections on study skills academic expectations in Western institutions methodologies and important theorists An ideal handbook for curators and gallery staff everywhere for whom English is a non native language

The Culture of Speed John Tomlinson, 2007-09-27 John Tomlinson's book is an invitation to an adventure It contains a precious key to unlock the doors into the unmapped and unexplored cultural and ethical condition of immediacy Without this key concept from now on it will not be possible to make sense of the social existence of our times and its ambivalences Ulrich Beck University of Munich A most welcome stimulating and challenging exploration of the cultural impact and significance of speed in advanced modern societies It successfully interweaves theoretical discourse historical and contemporary analyses and imaginative use of literary sources all of which are mobilised in order to provide an original intellectually rewarding and critical account of the changing significance of speed in our everyday experience David Frisby London School of Economics and Political Science Is the pace of life accelerating If so what are the cultural social personal and economic consequences This stimulating and accessible book examines how speed emerged as a cultural issue during industrial modernity The rise of capitalist society and the shift to urban settings was rapid and tumultuous and was defined by the belief in progress The first obstacle faced by societies that were starting to speed up was how to regulate and control the process The attempt to regulate the acceleration of life created a new set of problems namely the way in which speed escapes regulation and rebels against controls This pattern of acceleration and control subsequently defined debates about the cultural effects of acceleration However in the 21st century immediacy the combination of fast capitalism and the saturation of the everyday by media technologies has emerged as the core feature of control This coming of immediacy will inexorably change how we think about and experience media culture consumption practices and the core of our cultural and moral values Incisive and richly illustrated this eye opening account of speed and culture provides an original guide to one of the central features of contemporary culture and everyday life

Unhastening Science Dick Pels, 2003-01-01 This book offers a new account of what makes science special among other human pursuits critically engaging with a variety of approaches especially constructivist and relativist studies of science and technology It focuses on the studied lack of haste of science its relative freedom from stress and its socially sanctioned withdrawal from the swift pace of ordinary life Unhastening Science offers a balanced and thoughtful argument which emphasizes the dangers of cossetting science from the scourge of internal competition while at the same time highlighting the need for distance between the process of scientific thought and the faster machinery of politics business sports and the media

Transnational Financial Crime Nikos Passas, 2017-07-05 Financial crime affects virtually all areas of public policy and is increasingly transnational The essays in this volume address both the theoretical and policy issues arising from financial crime and feature a wide variety of case studies and cover topics such as state revenue collection criminal enterprises money

laundering the use of new technologies and methods in financial crime corruption terrorism proliferation of WMD sanctions third world debt procurement telecommunications cyberspace the defense industry and intellectual property Taken together these essays form a must read collection for scholars and students in law finance and criminology
