Protectionism And International Banking:

Protectionism and International Banking G. Fels, 1991-06-18 A collection of papers presented at the International Conference on Protectionism and International Banking held in Frankfurt in October 1987 World bankers trade economists and international trade finance specialists discuss the causes of the resurgence of protectionism **Internet Banking and the Law in Europe** Apostolos Ath. Gkoutzinis, 2006-11-02 The European Union has long sought to create a single financial area across Europe where consumers in one country benefit from financial markets and activities in other countries With the emergence of the Internet as a platform for the provision of online banking services the creation of a pan European market for banking services appeared a realistic proposition In practice however this has not happened This book asks why and argues that the creation of banking markets via the Internet relies on both available technologies and appropriate laws and regulations The institutional and legal framework for online banking services in the single European market are examined as is the level of legal harmonization achieved in the UK France and Germany under the influence of the EU Directives pertaining to online banking activities Canadian Banks and Global Competitiveness James L. Darroch, 1999-03-30 Accounts for why Canadian banks are more successful and better thought of in the global economy than the size of the country's economy would suggest Follows the history of the four largest from their beginning highlighting how their strategies have responded to changing conditions the long term effects of corporate decisions and the contributions they have made to the Canadian economy as a whole Annotation copyright by Book News Inc Portland OR Internationales Bankgeschäft Hans-Jacob Krümmel, 2019 Inhaltsverzeichnis Inhalt H J Krümmel Einführung Introduction G D Baer Die längerfristige Bewältigung der Verschuldungsprobleme planmäßige Lösungswege als Alternative zu pragmatischem Handeln C Hardy Techniques and Experience with International Reschedulings I L Böhre Probleme der Bankenaufsicht internationaler Finanzmärkte H Cataquet Country Risk Analysis Art Science and Sorcery U Bosch Vertragliche Regelungen in internationalen Kreditverträgen als risikopolitisches Instrument I Walter Erklärungskonzepte zum Internationalisierungsprozeß der Banken I H Giddy Domestic Regulation versus International Competition in Banking J Sachs D Cohen LDC Borrowing with Default Risk K Inoue M Nukaga Determinants of Conditions in the International Bank Lending Market The New Protectionist Wave Enrico Sassoond, 2016-07-27 The book reviews protectionist practices in the United States the European Community and Japan It assesses their causes and effects In coverage depth of analysis and vantage point this is a unique study of the new protectionist trends that began in the 1970s and continued into the 1980s Multilateralism in trade relations is now seriously threatened by the deviant behaviour of the industrial nations the would be pillars of the world trading system set up after World War II The new protectionism exerts strong pressures on the weaker components of the trading system the developing nations Born as an intra developed countries affair the new protectionism has in fact shifted its focus on developing countries threatening the newly found outward orientation of many and making more difficult for all to retain the benefits of export

The European Community and the Developing Countries Enzo R. Grilli, 1993 The European Community has long been the largest trading bloc in the world It is also on the way to becoming the world's largest integrated economic zone Its trade aid and development cooperation policies are therefore of great importance to developing countries At the same time the developing countries have continued to be of interest to the Community both as outlets for its exports and capital investments and as sources of raw materials This 1993 book analyses and evaluates European Community trade aid and industrial policies towards developing countries their origin main features logic evolution and effectiveness in reaching the goals assigned to them The author sums up the state of Europe's development policies by describing them as regional in scope colonial in geographical emphasis discriminatory in their effects and lacking in overall cogency This incisive re evaluation illustrates the different strategies the EC countries might pursue in their relations with the outside world as they progress towards fuller economic integration

The Case for an International Banking Standard Morris Goldstein, 1997-04-01 This study presents the case for an international banking standard IBS to deal with the rash of banking crises in developing countries Over the past 15 years almost three fourths of the IMF's member countries have experienced at least one serious bout of banking problems there have been at least a dozen developing country episodes where the costs of these crises amounted to 10 percent or more of the country's GDP and the total public sector resolution costs of developing country banking crises have been estimated to be 250 billion Not only are these banking crises extremely costly to developing countries they also pose increased risk to industrial countries Morris Goldstein demonstrates that existing international agreements do not address the main sources of these crises and the adoption of a voluntary IBS offers a more attractive route to banking reform than the relevant alternatives The study recommends minimum standards in eight key areas of banking supervision and addresses the operational issues associated with the design and implementation of an IBS
