The Annual of Psychoanalysis, V. 20 Jerome A. Winer, 2013-05-13 Volume 20 of The Annual of Psychoanalysis ably traverses the analytic canvas with sections on Theoretical Studies Clinical Studies Applied Psychoanalysis and Psychoanalysis and Philosophy The first section begins with Arnold Modell's probing consideration of the paradoxical nature of the self provocatively discussed with John Gedo Modell focuses on the fact that the self is simultaneously public and private dependent and autonomous Alice Rosen Soref next

explores innate motivation and self protective regulatory processes from the standpoint of recent infancy research her notion of a lifelong two track model of self and relatedness helps establish a normative baseline that can anchor psychoanalytic theory George Mahl makes an interesting contribution to Freud studies in the form of a new chronology of Freud s works and the number of pages they contain in the Standard Edition The section ends with Robert Galatzer Levy and Mayer Gruber s quasi experiment about disgust They test and disconfirm the hypothesis that disgust is an affective response to an abstract sense of disorder rather than a transformation of a concrete bodily experience by systematically exploring references to concepts of disgust in the Old Testament Section II on Clinical Studies opens with Henry Smith s fascinating elaboration of Freud s notion of screen memories into a theory of screening that denotes the general process by which mental content is organized He illustrates his thesis by invoking the screen language employed by a patient throughout her analysis Ernest Wolf next explores the tension between being a scientist and a healer in Freud and his followers to illuminate struggles within the psychoanalytic movement and to help account for current attitudes toward abstinence neutrality and gratification Kenneth Newman focuses on this same triptych of technical precepts He argues in the spirit of Winnicott and Kohut that analysts can only alter the hostile internal environments of their patients by becoming usable objects and cultivating an optimally responsive analytic environment A particularly rich collection of applied analytic studies forms Section III of the volume Individual chapters focus on the childhood of Vincent van Gogh W W Meissner the psychological healing process depicted in George Eliot s Silas Marner Richard Almond the self psychological meaning of blood brotherhood in D H Lawrence s Women in Love James Cowan ecstatic mysticism in the 19th century Indian saint Sri Ramakrishna Sudhir Kakar the disintegration of the Tyrone family in Eugene O Neill s Long Day s Journey into Night Frank and Annette Lachmann and the nature and analytic significance of Freud s aesthetic response to Michelangelo s Moses Gary Goldsmith Finally in Section IV George Brook examines the commonsense psychological knowledge of everyday life that is the nonpsychoanalytic knowledge on which much of clinical psychoanalysis ultimately depends Taken together the four sections of Volume 20 of The Annual offer an exciting overview of contemporary psychoanalysis Section I highlights recent trends in psychoanalytic theorizing and the testing of psychoanalytic propositions Section II explores the relevance of new theoretical perspectives to clinical work Section III demonstrates the applicability of these new perspectives to psychobiographical and literary analysis and Section IV provocatively explores the points of connection between everyday ideas and attitudes and the tenets of psychoanalytic practice

**A Psychoanalytic Perspective on Reading Literature** Merav Roth, 2019-08-14 What are the unconscious processes involved in reading literature How does literature influence our psychological development and existential challenges A Psychoanalytic Perspective on Reading Literature offers a unique glimpse into the unconscious psychic processes and development involved in reading The author listens to the free associations of various literary characters in numerous scenarios where the characters are themselves reading literature thus revealing the mysterious ways

in which reading literature helps us and contributes to our development The book offers an introduction both to classic literature Poe Proust Sartre Sempr n Pessoa Agnon and more and to the major psychoanalytic concepts that can be used in reading it all described and widely explained before being used as tools for interpreting the literary illustrations The book thus offers a rich lexical psychoanalytic source alongside its main aim in analysing the reader s psychological mechanisms and development Psychoanalytic interpretation of those literary readers opens three main avenues to the reader s experience the transference relations toward the literary characters the literary work as means to transcend beyond the reader s self identity and existential boundaries and mobilization of internal dialectic tensions towards new integration and psychic equilibrium An Epilogue concludes by emphasising the transformational power embedded in reading literature The fascinating dialogue between literature and psychoanalysis illuminates hitherto concealed aspects of each discipline and contributes to new insights in both fields A Psychoanalytic Perspective on Reading Literature will be of great interest not only to psychoanalytic psychotherapists and literature scholars but also to a wider readership beyond these areas of study

**The Beribboned Bomb** Robert James Belton,1995 Surrealism was ostensibly directed at the emancipation of the human spirit but it represented only male aspirations and fantasies until a number of women artists began to redefine its agenda in the later 1930s This book addresses the former using a thick description of the historically specific circumstances which required the male Surrealists to manufacture a sexual reputation of narcissism and misogyny These circumstances were determined by hegemonic masculinity an ideological construct which had little to do with individual masculinities In male Surrealism the beribboned bomb signified something both attractive and volatile a specific instance of the Surrealist principle of convulsive beauty In hegemonic masculinity similar devices served as metaphors of the sexuality all men were supposed to possess The intersection of these two axes produced an imagery of unrepentant violence
