Red Sun Setting:

Red Sun Setting Carolyn C Y'Blood, 2012-04-15 Many regard this work as the definitive account of a controversial conflict of the war in the Pacific the June 1944 battle known as the Great Marianas Turkey Shoot Drawing on ten years of research and told from the viewpoint of the fliers and sailors who were on the firing line William T Y Blood leads the reader through every stage of the battle from the dogfights to the persistent attacks on the Japanese carriers to the frantic efforts of the returning fliers to land on friendly carriers He takes the battle from the initial planning through the invasion of the Marianas and the recriminations that followed describing Admiral Spruance's decision to allow U S forces to remain on the defensive and giving blow by blow details of the action This intensive study of what many believe to be a major turning point in the Pacific War has remained an important reference since it was first published in 1981 *Implacable Foes* Waldo H. Heinrichs, Marc Gallicchio, 2017 Award winning historians Waldo Heinrichs and Marc Gallicchio offer a full account and a provocative re examination of the last year of World War II in the Pacific [The Frank C. Brown Collection of NC Folklore](#) Newman Ivey White, Wayland D. Hand, 2013-07-15 Frank C Brown organized the North Carolina Folklore Society in 1913 Both Dr Brown and the Society collected stores from individuals Brown through his classes at Duke University and through his summer expeditions in the North Carolina mountains and the Society by interviewing its members and also levied on the previous collections made by friends and members of the Society The result was a large mass of texts and notes assembled over a period of nearly forty years and covering every aspect of local tradition members of the Society The result was a large mass of texts and notes assembled over a period of nearly forty years and covering every aspect of local tradition *Major Fleet-Versus-Fleet Operations in the Pacific War, 1941-1945* Milan N. Vego, 2016 A detailed study of three major naval operations of World War II These three initiated by imperial Japan took place in the Pacific and resulted in the battles of the Coral Sea Midway Aleutians and the Philippine Sea All the cases provide ample background on the geographic and strategic context of the operations as well as an account of the unfolding of the action utilizing much primary source material in especially American and Japanese archives Provided by publisher *Folk-lore from Adams county, Illinois* H. Middleton,

The Yankee mariner and sea power Joyce J. Bartell, 1982-01-01 Sea Power is more than naval ships and men and weapons more than naval strategy more than the ability to engage and defeat an enemy at sea Sea Power encompasses every strength contributed to a nation's defense economy self image and position in the world community through its use of the oceans Sea Power is measured by the health of a nation's navy and merchant marine the vitality of its fishing and shipbuilding enterprises the adequacy and efficiency of its ports and docks It is reckoned by the ability to husband and harvest the living and non living resources of the waters and the ocean floor It is found in maritime recreational activity that invigorates both people and industry It benefits from the inspiration that stimulates man's imagination to an ever more creative relationship with the sea This book assesses these components of sea power from the historical perspective of the

Yankee Mariner to provide a view of the total impact United States sea power has had in the past and should have in the future. It further considers how understanding and stewardship of the oceans can contribute to solutions for the problems of America and the dilemmas of mankind. The words are those of specialists in ocean science and engineering, sea transport and the building of ships and ports, ocean politics and law, deep sea mining and underwater oil production, fishery biology and management and aquaculture, naval history, naval strategy and defense policy at sea. Drawing upon a vast store of experience and expertise, these fifteen authors find Uncle Sam faltering as a Yankee Mariner. They investigate the extent of human commitment and the nature of scientific and technical support needed for the United States to regain its momentum in use of the sea. What they report is a broad-based guide to America's past and present sea power stance and to the requirements for her future challenge of ocean space.

Beyond the Horizon Clifford Sather, Timo Kaartinen, 2008-05-16 Society is never just a localized aggregate of people but exists by virtue of its members' narrative and conceptual awareness of other times and places. In Jukka Siikala's work, this idea evolves into a broad ethnographic and theoretical interest in worlds beyond the horizon in the double sense of past and abroad. This book is a tribute to Jukka's contributions to anthropology by his colleagues and students and marks his 60th birthday in January 2007. By exploring the near-distant inward and outward horizons towards which societies project their reality, the authors aim at developing a new productive language for addressing culture as a way of experiencing and engaging the world.

Djanggalawul Ronald M. Berndt, 2013-10-11 The Djanggalawul religious cult is the focus for this study because it is more important to the Aborigines themselves than other religious cults in the north-eastern region of Arnhem Land. The book includes chapters on the following: Significance of the Djanggalawul; The Djanggalawul Myth and Content of the Myth; The Djanggalawul Songs; The Djanggalawul Song Cycle; Parts 1. The book includes an extensive glossary and index. First published in 1952.
