The Residential Pathway Jane Forsyth, 2025-05-28 The Residential Pathway APC Essentials was written to facilitate and encourage candidates preparing for the RICS Assessment of Professional Competence APC to become Chartered Surveyors. This book will help candidates, their Counsellors and supervisors to understand the requirements of the Residential pathway. The detail of the technical competencies, How to select suitable competencies, How to demonstrate the required knowledge and experience and How to succeed in the final interview. It will also be a useful reference for AssocRICS candidates and qualified professionals. This concise book has clear headings to guide readers with bullet point checklists and signposting to key themes and important sources for further reading. It alerts readers to the need to be aware of changes and developments in the residential sector and to the wider economic, social and political factors that influence it. This book includes lists of relevant RICS and other professional publications, the laws and regulations that frame professional surveying practice and example written submissions for the technical competencies at each level. It will help to motivate and reassure candidates, giving them confidence to recognise the value and relevance of their knowledge and practical experience and to understand how to best apply this to demonstrate their professional competence.

The 2017 FIDIC Contracts William Godwin, 2020-02-19 Provides a clear and comprehensive guide to the 2017 FIDIC contracts written by a member of the FIDIC Updates Task Group. FIDIC contracts are the most widely used engineering standard form contracts internationally, but until 2017 the three main forms, the Red, Yellow and Silver Books, had not been amended or updated for nearly two decades since the first editions were published in 1999. Written by a specialist lawyer who was a member of the FIDIC Updates Task Group responsible for writing the new contracts, this book examines in detail the many substantial changes they have introduced. After providing an overview, the contracts are examined clause by clause with the aim of showing how each compares and contrasts with the others and how the second editions compare and contrast with the first. The first chapter describes how the Red, Yellow and Silver Books evolved from earlier contract forms and the distinctive characteristics of each before providing an overview of the updates, including new potential risks for both Employer and Contractor, and then examining in the second chapter key general provisions such as the new rules on notices and limitation of liability. Chapter 3 examines the enhanced role of the Engineer in the Red and Yellow Books, Employer's Representative's function in the Silver, including the new procedure for determinations as well as the Employer's obligations and contract administration. The Contractor's obligations are considered in chapter 4, while chapter 5 examines his responsibility for design in the Yellow and Silver Books. Chapters 6 to 14 deal respectively with plant, materials and workmanship and staff and labour time related provisions in the three contracts, including extensions of time and the Employer's right to suspend the works, testing on and after completion and the Employer's taking over of the works, defects after taking over acceptance of the works and unfulfilled obligations, measurement in the Red Book, the Contract Price and payment, the new variations regime and adjustments to the Price.

termination and suspension care of the works and indemnities and Exceptional Events previously Force Majeure An important feature of the new contracts is their increased emphasis on clarity in the claims process and on dispute avoidance These topics are examined in the final two chapters 15 and 16 which deal respectively with the new claims and dispute resolution provisions of the 2017 forms FIDIC contracts are the most widely used standard forms of contract for international engineering and construction projects Provides a clear and comprehensive guide to the 2017 FIDIC Red Yellow and Silver Books Written by a senior specialist lawyer and member of the FIDIC 2017 Updates Task Group responsible for writing the new contracts Accessible to those with little or no familiarity with FIDIC contracts The 2017 FIDIC Contracts is an important guide for anyone engaged in international projects including employers contractors engineers lawyers suppliers and project financiers sponsors
