Tiny You Jennifer L. Holland, 2020-04-07 Caroline Bancroft History Prize 2021 Denver Public Library Armitage Jameson Prize 2021 Coalition of Western Women's History David J Weber Prize 2021 Western History Association W Turrentine Jackson Prize 2021 Western History Association Tiny You tells the story of one of the most successful political movements of the

twentieth century the grassroots campaign against legalized abortion While Americans have rapidly changed their minds about sex education pornography arts funding gay teachers and ultimately gay marriage opposition to legalized abortion has only grown As other socially conservative movements have lost young activists the pro life movement has successfully recruited more young people to its cause Jennifer L Holland explores why abortion dominates conservative politics like no other cultural issue Looking at anti abortion movements in four western states since the 1960s turning to the fetal pins passed around church services the graphic images exchanged between friends and the fetus dolls given to children in school she argues that activists made fetal life feel personal to many Americans Pro life activists persuaded people to see themselves in the pins images and dolls they held in their hands and made the fight against abortion the primary bread and butter issue for social conservatives Holland ultimately demonstrates that the success of the pro life movement lies in the borrowed logic and emotional power of leftist activism

Rethinking Family Mediation Rachael Blakey, 2025-02-26 Over several decades policies have made mediation a key part of the English and Welsh family justice system As the process faces increasing demand from a diverse and complex client base some argue for a

return to a fully funded court system. However, this dominant view overlooks the longstanding problems with the court process as well as the potential value of mediation. This book, based on original research, highlights the evolving role of mediators who assist families without legal support. By doing so, it reveals a contemporary vision of family justice that addresses some of the challenges in today's landscape.

The Neutered Mother, The Sexual Family and Other Twentieth Century Tragedies Martha Albertson Fineman, 2014-04-04. Calling for nothing less than a radical reform of family law and a reconception of intimacy, *The Neutered Mother, The Sexual Family and Other Twentieth Century Tragedies* argues strongly against current legal and social policy discussions about the family because they do not have at their core the crucial concepts of caregiving and dependency as well as the best interests of women and children. *The Neutered Mother* scrutinizes the definitions of family and mother throughout the volume while paying close attention to issues of race, class, and sexuality. In addition, Fineman convincingly contests society's refusal to dignify support and respond to the needs of caregivers and illustrates the burden they must bear due to this treatment. This book is a crucial step toward defining America's most pressing social policy problems having to do with women, motherhood, and the family.
