Redesigning Schools Lessons For The 21st Century:

Redesigning Schools Joseph P. McDonald, 1996-11-22 For five years McDonald charted the progress of ten schools in the Coalition of Essential Schools as they immersed themselves in the hard work of school reform. He also visited many other schools both elementary and secondary in an attempt to understand serious school reform and its prospects. He concludes that school reform requires redesign in three critical areas. The first is a shift in the ordinary and often tacit beliefs of the people who work in schools, the communities that support them, and even the children who attend them. The second area, which McDonald dubs the wiring arena, involves internal communication and power arrangements. The third area, called tuning, involves connecting the school to the needs, interests, and values of the communities it serves. **Redesigning**

Finn-Stevenson, 2018-02-12 An engaging discussion about the new roles schools are taking and how they are expanding their traditional mission. In this timely book, Matia Finn-Stevenson and Edward Zigler argue that the federal government alone cannot address the need for child care and family support services that like education should be addressed locally. The authors use their Schools of the 21st Century 21C program as an example of how schools can provide child care, outreach services, home visitations, and health and nutrition services in addition to reading, writing, and arithmetic. Whereas Part Two of the book discusses the authors' Schools of the 21st Century program in considerable detail, Parts One and Three address a broader range of issues concerning the effects that early education has on later school success and the various policy and conceptual approaches that have been tried both nationally and internationally in an effort to reform schools. The authors also critically review the research on the effects of child care on children's development and the importance of family support services. Included is a wealth of information on the research and practical applications of school reform initiatives in general and the implementation of child and family support services in particular.
