Barbara J. Sivertsen, 2011-07-25 For more than four decades biblical experts have tried to place the story of Exodus into historical context without success What could explain the Nile turning to blood insects swarming the land and the sky falling to darkness Integrating biblical accounts with substantive archaeological evidence *The Parting of the Sea* looks at how natural phenomena shaped the stories of Exodus the Sojourn in the Wilderness and the Israelite conquest of Canaan Barbara Sivertsen demonstrates that the Exodus was in fact two separate exoduses both triggered by volcanic eruptions and provides scientific explanations for the ten plagues and the parting of the Red Sea Over time Israelite oral tradition combined these events into the Exodus narrative known today Skillfully unifying textual and archaeological records with details of ancient geological events Sivertsen shows how the first exodus followed a 1628 B C E Minoan eruption that produced all but one of the first nine plagues The second exodus followed an eruption of a volcano off the Aegean island of Yali almost two centuries

later creating the tenth plague of darkness and a series of tsunamis that parted the sea and drowned the pursuing Egyptian army Sivertsen's brilliant account explains inconsistencies in the biblical story fits chronologically with the conquest of Jericho and confirms that the Israelites were in Canaan before the end of the sixteenth century B C E In examining oral traditions and how these practices absorb and process geological details through storytelling The Parting of the Sea reveals how powerful historical narratives are transformed into myth [Critical Musicological Reflections](#) Stan Hawkins,2016-04-22

This collection of original essays is in tribute to the work of Derek Scott on the occasion of his sixtieth birthday As one of the leading lights in Critical Musicology Scott has helped shape the epistemological direction for music research since the late 1980s There is no doubt that the path taken by the critical musicologist has been a tricky one leading to new conceptions interactions and heated debates during the past two decades Changes in musicology during the closing decades of the twentieth century prompted the establishment of new sets of theoretical methods that probed at the social and cultural relevance of music as much as its self referentiality All the scholars contributing to this book have played a role in the general paradigmatic shift that ensued in the wake of Kerman's call for change in the 1980s Setting out to address a range of approaches to theorizing music and promulgating modes of analysis across a wide range of repertoires the essays in this collection can be read as a coming of age of critical musicology through its active dialogue with other disciplines such as sociology feminism ethnomusicology history anthropology philosophy cultural studies aesthetics media studies film music studies and gender studies The volume provides music researchers and graduate students with an up to date authoritative reference to all matters dealing with the state of critical musicology today [The Nile's Promise](#) Pasquale De Marco,2025-03-03
