Home, Heat, Money, God Kathryn E. O'Rourke, Ben Koush, 2024-05-07 Thematically focused analysis of modern architecture throughout Texas with gorgeous photographs illustrating works by famous and lesser known architects In the mid twentieth century dramatic social and political change coincided with the ascendance and evolution of architectural modernism in Texas Between the 1930s and 1980s a state known for cowboys and cotton fields rapidly urbanized and became a hub of global trade and a heavyweight in national politics Relentless ambition and a strong sense of place combined to make Texans

particularly receptive to modern architecture's implication of newness forward looking attitude and capacity to reinterpret historical forms in novel ways As money and people poured in architects and their clients used modern buildings to define themselves and the state Illustrated with stunning photographs by architect Ben Koush Home Heat Money God analyzes buildings in big cities and small towns by world famous architects Texas titans and lesser known designers Architectural historian Kathryn O'Rourke describes the forces that influenced architects as they addressed basic needs such as staying cool in a warming climate and living in up to date housing and responded to a culture driven by potent religiosity by the countervailing pressures of pluralism and homogenization and by the myth of Texan exceptionalism
