Sorel: Reflections on Violence Georges Sorel, 1999 A CTPT rendition of a controversial and important text *Reflections on Violence ... Translated, with an Introduction and Bibliography, by T.E. Hulme* Georges SOREL, Thomas Ernest Hulme, 1916

Reflections on violence Georges Sorel, 1967 *Reflections on Violence ... Translated by T.E. Hulme and J. Roth. With an Introduction by Edward A. Shils* Georges SOREL, Thomas Ernest Hulme, Joseph Roth, Edward Albert SHILS, 1950

Reflections on Violence. Translated by T.E. Hulme and J. Roth, with an Introduction by Edward A. Shils Georges Sorel, 1914 **The Triumph of Hate** Christopher Vasilopoulos, 2012 Explains the religious philosophical sociopolitical and historical roots of the rise of Hitler and his movement P 4 of cover **Moving Modernisms** David Bradshaw, Laura Marcus, Rebecca Roach, 2016-07-07 The essays in *Moving Modernisms* Motion Technology and Modernity written by renowned international scholars open up the many dimensions and arenas of modernist movement and movements spatial geographical and political affective and physiological temporal and epochal technological locomotive and metropolitan aesthetic and representational Individual essays explore modernism's complex geographies focusing on Anglo European modernisms while also engaging with the debates engendered by recent models of world literatures and global modernisms From questions of space and place the volume moves to a focus on movement and motion with topics ranging from modernity and bodily energies to issues of scale and quantity The final chapters in the volume examine modernist film and the moving image and travel and transport in the modern metropolis Movement is reality itself the philosopher Henri Bergson wrote the original and illuminating essays in *Moving Modernisms* point in new ways to the realities and the fantasies of movement in modernist culture *Special Bibliography - US Army Military History Research Collection* US Army Military History Research Collection, 1970 **Special Bibliography**, 1970 **The Total Work of Art in European Modernism** David Roberts, 2011-11-15 In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution The total work of art is usually understood as the intention to reunite the arts into the one integrated whole but it is also tied from the beginning to the desire to recover and renew the public function of art The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarmé The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century The total work of art indicates the need to revisit key assumptions of modernism such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts and cuts across the neat equation of avant gardism with progress and deconstructs the familiar left right divide between revolution and reaction the modern and the antimodern Situated at the interface between art religion and politics the total work of art invites us to rethink the relationship between

art and religion and art and politics in European modernism In a major departure from the existing literature David Roberts argues for twin lineages of the total work a French revolutionary and a German aesthetic which interrelate across the whole epoch of European modernism culminating in the aesthetic and political radicalism of the avant garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward
