

FOOT REFLEXOLOGY CHART

The Foot Reflexology Chart is a visual aid that shows which pressure points on the feet represent different physiological systems, glands, and organs. The foundation of reflexology is the idea that the feet are a miniature representation of the body, with different parts representing the energetic, emotional, and physical equilibrium of a person's general well-being. It is thought that applying light yet accurate pressure to these reflex spots promotes self-healing, lowers stress levels, and brings the body's functions back into balance.

Valea,2020-02-20 We often hear that alternative medicine is superior to classical medicine for it treats us holistically both the physical body and the immaterial part of our nature Although such an approach seems desirable it is precisely this aspect that opens the door to spiritual views incompatible with Christianity Many forms of alternative medicine speak of a divine essence we allegedly possess of a vital force that we can manipulate of spiritual beings that can help us and other such views closely related to Eastern religions and New Age thought In their desire to find healing at any price Christians often resort to these methods without realizing

the spiritual danger involved For Christians who want to live consistently with their faith this book is intended to raise awareness of the hidden beliefs of alternative medicine
