Reform Our Study:

Reform Our Study Zedong Mao, 1955 *Reforming Our Universities* David Horowitz, 2010-08-10 It is no secret that our universities have become hotbeds of radical leftist thought. While professors and administrators pay lip service to concepts like open mindedness and robust debate they try to squash any opinion that doesn't match their radical left world view. World renowned campus activist David Horowitz wants to bring diversity back to the college campus. Horowitz describes his decades long campaign against intellectual bigotry, grade discrimination and the denial of basic rights to any and all whose opinions diverge from the extreme liberal orthodoxy.

Education Reform United States. General Accounting Office, 1989 Results of a multistate study of a variety of education reforms on academic achievement, dropout rates and enrollment patterns of educationally disadvantaged secondary school students.

The Struggle to Reform Our Colleges Derek Bok, 2017-08-28 Why efforts to improve American higher educational attainment haven't worked and where to go from here. During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances. Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees. Several years have elapsed since these pronouncements were made yet the rate of progress has increased very little if at all in the number of college graduates or the nature and quality of the education they receive. In *The Struggle to Reform Our Colleges* Derek Bok seeks to explain why so little change has occurred by analyzing the response of America's colleges, the influence of students, employers, foundations, accrediting organizations and government officials and the impact of market forces and technological innovation. In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities. The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them.

Reform as Learning Lea Ann Hubbard,Mary Kay Stein,Hugh Mehan,2013-10-18 Looking closely at the recent reform efforts in San Diego this book explores the full range of critical issues pertaining to urban school reform Drawing on the systemic school reform initiative that was launched in San Diego in the 1990s this book explores all layers of the school reform process from leadership in the central office to work with principals and teachers to the impact on how teachers worked with students in the classroom The authors draw on careful ethnographic research collected over the entire four years of the San Diego reforms in order to identify not only how teachers principals and other district educators were shaped by the large scale reforms but also the ways in which the reform unfolded In doing so the book shows more broadly how actors throughout a school system can change the views of leaders and impact the larger reform process

Technology and Education Reform Barbara Means,Kerry Olson,1998 Addresses the question of whether technology can provide significant support for constructivist project based teaching and learning approaches and the associated issue of the elements needed for an effective implementation of technology within an educational reform context Includes case studies of 9 sites that have been using technology in ways that enhance a restructuring of the classroom around students needs and project based activities Sites selected were those that emphasized education reform and provided challenging authentic activities for students from economically disadvantaged backgrounds Illustrated
