Reforming Christianity

Don Cupitt

Reforming Christianity:

Reforming Protestantism Douglas F. Ottati, 1995-01-01 Reformed Protestantism has undergone drastic changes throughout its history in America. Although it has become less prominent in American society, Ottati reminds us that this particular Christian movement with its particular characteristics is still a dynamic and important witness to our world.

Reforming Christianity Don Cupitt, 2001 Christian churches are seemingly in terminal decline. Is a reformation and renewal of Christianity still possible even at this late hour? Don Cupitt argues that it is possible but will be difficult. Church Christianity as we have received it is handicapped by two great errors: a mistaken interpretation of Jesus as having been the co-equal divine Son of God incarnate and the mistaken belief that there is a controlling supernatural world beyond this world. To escape from these errors, we need to go back and start again from the historical Jesus and his message about the Kingdom of God on this earth. We need to create a modern version of his kingdom religion: a religion that is immediate, beliefless, and entirely focussed upon the here and now. Reconstructing Christianity in this way calls for a revolution in thought. At present, the churches don't even want to think about reform and renewal, but if they are ever to become serious, this is the path they'll have to take.

Reforming the Christian Faith Mark W. Karlberg, 2017-10-12 Central to the mission of the church with each passing generation is the elucidation of the gospel of Christ, which is the heart of the Christian message. Witness to God's saving word in Scripture comes in response to discussions and debates arising over the course of church history. Our study highlights some of the unity and disunity found within the Reformed tradition. Reformation and modern Beginning with the subject of the development of doctrine over the course of church history, we take up the foundational issue of biblical hermeneutics: the question of how we are to interpret the Bible. The year 2017 marks the Protestant Church's 500th anniversary. October 31. We consider secondly Protestantism's two leading theological principles: the formal doctrine of Scripture and the material doctrine of justification by faith alone. In the final section, we critique departures from the teaching of historic federalism found within contemporary Reformed orthodoxy, which strikes at the very heart of what it means to be Reformed in theology. Crucial in this long-standing and ongoing dispute is the interpretation of the Mosaic Covenant as in some sense a republication of the original Covenant of Works with Adam at creation. Covenant and justification are the focal doctrines under study.

Reforms of Christian Life in Sixteenth-Century Italy Querciolo Mazzonis, 2022-03-03 *Reforms of Christian Life* presents a new narrative of the role of the Barnabites and Angelics, the Ursulines, and the Somascans, founded in Northern Italy in the 1530s by Battista da Crema, Angela Merici, and Girolamo Miani, within sixteenth-century Italian reform movements. While historiography has considered these companies under the category of Catholic Reformation, this book argues that they promoted an unconventional view of perfection and of the Church that was alternative to both Roman Catholicism and Lutheranism and through which they wanted to reform society rather than the ecclesiastical institution. By highlighting the complex articulation of perceptions of Christian life and by exploring

neglected connections among devout milieus Mazzonis considers the sodalities in continuity with a fifteenth century ascetic mystical current and in relation to contemporary institutes such as the Jesuits and the Oratorians irenic reforming circles like that of Juan de Valdés and post Tridentine ecclesiastical reformers including Charles Borromeo This volume shows that reforming trends were more varied and fluid than previously thought and contributes to cultural and gender analyses of the religious mentality of the period
